1. **Step 1: Unpack and Identify Parts**

Carefully unpack all components from the box. Refer to the package contents section and the provided diagram to identify each part and ensure nothing is missing.

2. **Step 2: Assemble the Metal Frame**

Connect the two halves of the circular metal frame using the provided screws. Ensure all connections are secure but do not fully tighten screws until all parts are aligned.

3. **Step 3: Attach Wooden Shelves**

Insert the wooden shelves into the designated slots within the metal frame. Secure them with the appropriate screws. It is normal for the metal frame to require slight adjustment as iron is flexible. Install the screws partially first, then fully tighten them all once aligned.

4. **Step 4: Attach Top and Bottom Panels**

Secure the top and bottom wooden panels to the assembled metal frame using the remaining screws. Ensure all screws are tightened for stability.

5. **Step 5: Install Adjustable Leg Pads**

Screw the adjustable leg pads into the bottom of the table. Adjust them as needed to ensure the table stands level and stable on any surface.
