

SANSCO EXF-QS12-B4L

SANSCO 4MP Dual Lens Wireless Solar Security Camera (Model EXF-QS12-B4L) User Manual

Model: EXF-QS12-B4L | Brand: SANSCO

1. INTRODUCTION

This manual provides essential instructions for the setup, operation, and maintenance of your SANSCO 4MP Dual Lens Wireless Solar Security Camera. Please read this guide thoroughly before installation and use to ensure optimal performance and safety.

Figure 1: SANSKO 4MP Dual Lens Wireless Solar Security Camera

2. WHAT'S IN THE BOX

- 1x Wire Free Camera
- 1x Solar Panel
- 1x Charging Cable (USB-C)
- 1x Setup Guide
- 1x Set Screw (for mounting)

3. PRODUCT FEATURES

- **Dual Lens Dual Screen PTZ Outdoor Camera:** Features a fixed lens and a rotating 355° horizontal lens with vertical 90° rotation for comprehensive 360° coverage. Dual screen view allows switching between bullet and dome screens. Includes 10X digital zoom.
- **2K High-Definition Live Video:** Equipped with ultra-clear lenses providing 8MP (4MP + 4MP,

2304*1296P) full HD images and video for clear day and nighttime visibility.

- **PIR Motion Detection & 2-Way Talk:** Built-in microphone and speaker enable real-time, two-way audio communication. Intelligent motion alarm provides accurate alerts. Siren and flashing white light act as deterrents.
- **IP66 Waterproof:** Designed for outdoor use in extreme weather conditions, suitable for wall or ceiling mounting.
- **Solar Powered:** Utilizes an adjustable 8W solar panel and a built-in 10000mAh rechargeable battery for continuous power.

4. SETUP

4.1 Physical Installation

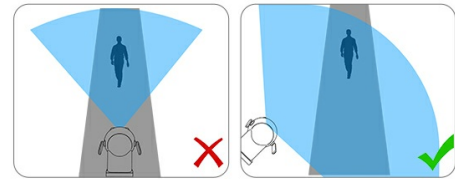

The camera and solar panel are designed for easy installation. Ensure you choose a location that provides optimal sunlight for the solar panel and a clear view for the camera.

- Mount the camera at a height of 8-10 feet (2.5-3m) for optimal detection.
- Ensure the camera's distance to the monitoring area is up to 30 feet (9m).
- Avoid directly facing the camera towards the monitoring area to prevent potential blind spots.
- Position the solar panel in a location that receives sufficient sunlight, ideally pointing directly at the sun during midday in summer. The solar panel cable allows for flexible placement within 6.6 ft (2m) of the camera.

Mounting Tips:

- * Height: 8-10ft (2.5-3m)
- * Distance: Up to 30ft (9m)
- * Avoid installing the camera directly facing the monitoring area.

Important:

Maintain an angle to avoid potential blind spots.

Figure 5: Mounting tips for camera and solar panel.

A Guide For Solar Panel Placement

Select an optimal location for the solar panel that receives sufficient sunlight and is within a 6.6 ft (2 m) radius of the camera. Ideally your panels should be pointing directly at the sun in the middle of the day during the summer.

Video 1: General installation guide for a dual lens security camera.

4.2 App Installation and Connection

1. Download the EseeCloud app from Google Play Store or Apple App Store.
2. Connect your phone to your home WiFi (2.4GHz only). Turn on your phone's Bluetooth and location function. The app will automatically search for the camera and connect.
3. Enter the correct WiFi password. The security camera only supports 2.4GHz WiFi networks.
4. Wait for the camera to connect to the home WiFi. Connection progress will reach 100%, then you can use it normally.

Video 2: Detailed setup instructions for the SANSO dual lens solar security camera.

5. OPERATING

5.1 Live View & Playback

Access real-time video streams from both camera lenses via the EseeCloud app. The dual screen view allows simultaneous monitoring of a fixed area and a pan-tilt-zoom (PTZ) controlled area. Recorded footage can be reviewed through the app's playback function.

Figure 8: Remote control of camera movement via the app.

5.2 PTZ Control

The lower camera lens offers Pan-Tilt-Zoom functionality. Use the app to remotely adjust the camera's horizontal (355°) and vertical (90°) angles, and utilize the 10X digital zoom to focus on specific details.

5.3 Two-Way Audio

The built-in microphone and speaker enable clear two-way communication. You can listen to audio from the camera's vicinity and speak through the camera to interact with visitors or deter intruders.

Human Motion Detection

Figure 9: Real-time two-way talk feature.

5.4 Motion Detection & Alerts

The camera features PIR motion detection and humanoid auto-tracking. When motion or a human figure is detected, the camera can activate spotlights, sound a siren, and send instant notifications to your mobile app. This helps reduce false alarms.

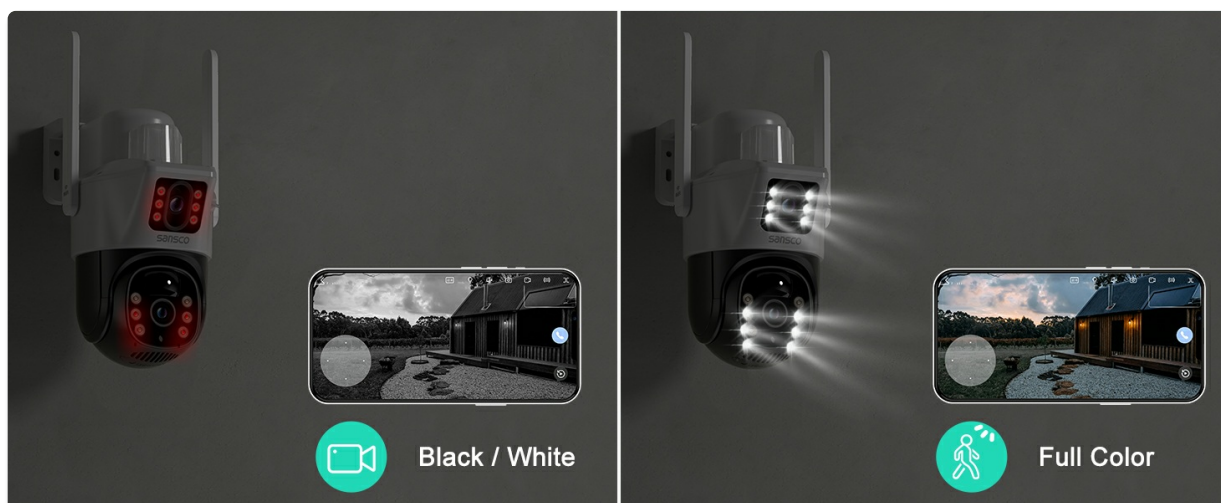

Figure 10: Motion detection features including spotlights and siren.

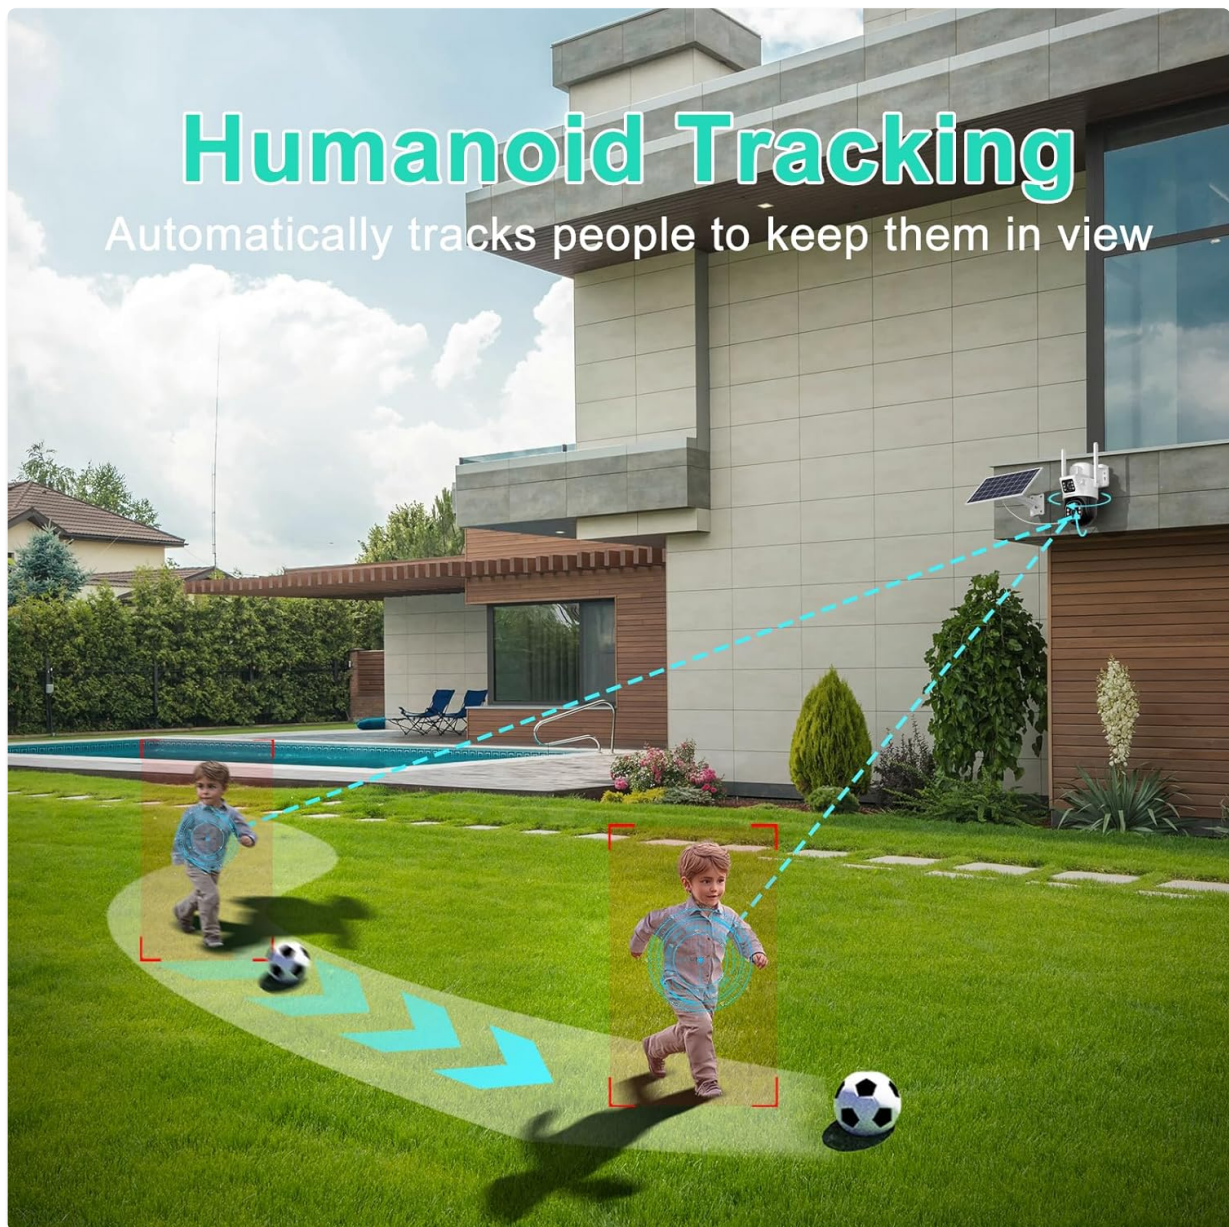

Figure 11: Humanoid tracking in action.

Your browser does not support the video tag.

Video 3: Demonstration of motion detection zone function to reduce unwanted alerts.

5.5 Night Vision Modes

The camera supports both black-and-white and full-color night vision modes, ensuring clear visibility even in low-light conditions. The intelligent motion alarm provides accurate alerts in black-and-white mode.

Figure 12: Black/White vs. Full Color Night Vision.

5.6 Storage Options

The camera supports local storage via a TF card (up to 256GB) and optional cloud storage services. Note that the battery-powered camera does not support 24/7 continuous recording; it is designed for live view and motion detection recording.

Figure 13: TF Card and Cloud Storage options.

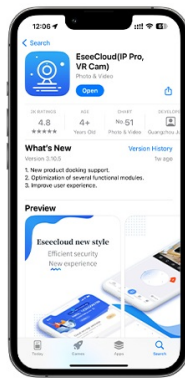

6. MAINTENANCE

6.1 Battery Charging

The camera is primarily powered by its solar panel. If the battery is depleted, use a 5V 1A power adapter to charge the camera. Do not use 2.4A or 3A adapters.

6.2 Weather Resistance

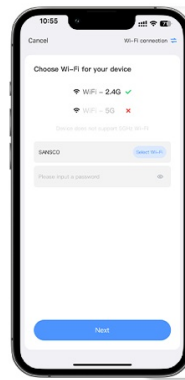

The camera has an IP66 waterproof rating, making it suitable for outdoor use in various weather conditions, from -22°F to 140°F (-30°C to 60°C).

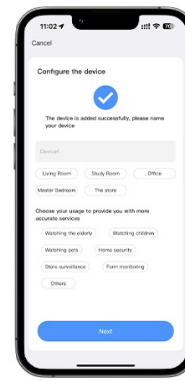

Step 1: Download EseeCloud app from Google Play Store or App Store.

Step 2: Connect your phone to your home WiFi, turn on your phone's Bluetooth and location function, automatically search for the camera and connect.

Step 3: Enter the correct WiFi password. The security camera only supports 2.4GHz WiFi networks.

Step 4: Wait for the camera to connect to the home WiFi, the connection progress reaches 100% and then you can use it normally.

Figure 14: IP66 Waterproof rating.

Your browser does not support the video tag.

Video 4: Waterproof testing of a similar outdoor security camera.

7. TROUBLESHOOTING

- **Camera not connecting to WiFi:** Ensure your WiFi network is 2.4GHz. The camera does not support 5GHz networks. Check WiFi signal strength at the installation location.
- **Frequent false alarms:** Adjust motion detection sensitivity settings in the app. Utilize activity zones to focus detection on critical areas and ignore irrelevant movements.
- **Battery draining quickly:** Verify the solar panel is receiving adequate direct sunlight. Reduce the frequency of motion detection alerts or adjust recording duration if possible. Ensure the correct 5V 1A adapter is used for direct charging.
- **No audio or poor audio quality:** Check app settings for microphone and speaker permissions. Ensure no physical obstructions are blocking the speaker or microphone.
- **Cannot view 24/7 recording:** This battery-powered camera is designed for live view and motion-triggered recording only, not continuous 24/7 recording.

8. SPECIFICATIONS

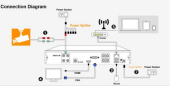

Feature	Detail
Model Number	EXF-QS12-B4L
Video Capture Resolution	1296p (2K Full HD)
Effective Still Resolution	4 MP, 8 MP (Dual Lens)
Connectivity Technology	Wireless (2.4GHz Wi-Fi, Bluetooth)
Power Source	Solar Powered (10000mAh battery)
PTZ Functionality	355° Pan, 90° Tilt, 10x Digital Zoom
Night Vision	Color Night Vision, Black/White Night Vision
Audio	2-Way Audio (Built-in Microphone & Speaker)

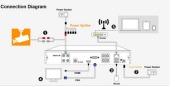

Motion Detection	PIR Motion Detection, Humanoid Auto Tracking, Spotlight, Siren
Storage	TF Card (up to 256GB), Cloud Storage (optional)
Waterproof Rating	IP66
Dimensions	10 x 8 x 5.5 inches
Item Weight	3.65 pounds

9. WARRANTY AND SUPPORT

For warranty information and technical support, please refer to the contact details provided in your product packaging or visit the official SANSOCO website. SANSOCO is committed to providing continuous support for its products.

QUICK SETUP GUIDE

Battery Operated Security Camera (EseeCloud)

Before installation:

- * This product may require labeling. It is highly recommended that all products are thoroughly read before use to ensure proper installation.
- * **Fully charge** your camera overnight using the USB-charger cable before installation.
- * **Do not** recommend you use the camera to record continuously (24/7). Because doing so may **seriously damage the battery** even in solar-charging. This document you need to record only when motion is detected. For how long does our battery last depend on many, refer to **FAQ** at the end of this manual.

Tech Support

For product instructions & specifications, please visit www.mobotix.com. For FCC, trouble-shooting, or customer support, email us at support@easemore.com, our guarantee help within 24 hours.
