## iPettie Donut Frost CW01STBA

# iPettie Donut Frost WiFi 6 Meal Automatic Wet Food Feeder

Model: CW01STBA

## INTRODUCTION

The iPettie Donut Frost WiFi 6 Meal Automatic Wet Food Feeder is designed to simplify pet feeding, especially for senior or weak pets requiring scheduled wet food meals. This intelligent feeder allows you to program up to six meals a day, ensuring your pet receives fresh food at precise times. Equipped with a durable stainless steel tray and ice packs, it helps keep food cool and fresh for extended periods. Control and monitor feeding schedules conveniently through a dedicated mobile application.

## KEY FEATURES

- **WiFi App Control:** Schedule up to 6 meals daily, track feeding records, and share device access with multiple users via the smart control app. Supports 2.4GHz Wi-Fi networks only.
- **304 Stainless Steel Tray:** A corrosion-resistant tray ensures durability, hygiene, and easy cleaning.
- **Integrated Cooling:** Includes two ice packs to maintain food freshness for 6-8 hours (duration may vary based on ambient temperature and freezing time).
- **6 Meal Capacity:** The BPA-free ABS food tray features six compartments, each holding up to ½ lb. of food.
- **Portion Control:** Ideal for managing portions for fast eaters, promoting healthier eating habits and weight management.

## SETUP GUIDE

1. **Unpack and Inspect:** Carefully remove all components from the packaging. Ensure all parts, including the feeder unit, stainless steel tray, and ice packs, are present and undamaged.
2. **Charge Ice Packs:** Place the included ice packs in a freezer for at least 8 hours to ensure maximum cooling efficiency.
3. **Power Connection:** Connect the power cord to the feeder and plug it into a standard electrical outlet. The feeder has a rechargeable battery for backup power, providing up to one week of standby time if the main power is interrupted. For full Wi-Fi functionality, the feeder must be plugged into an outlet.
4. **Download App:** Download the "Smart Life" app from your smartphone's app store (available on both Apple App Store and Google Play).
5. **Connect to Wi-Fi:** Open the Smart Life app and follow the on-screen instructions to add your iPettie feeder. Ensure your Wi-Fi network is 2.4GHz, as the feeder does not support 5GHz networks.
6. **Initial Feeding Plan:** Set up your initial feeding schedule within the app. It is recommended to set up the scheduled feeding

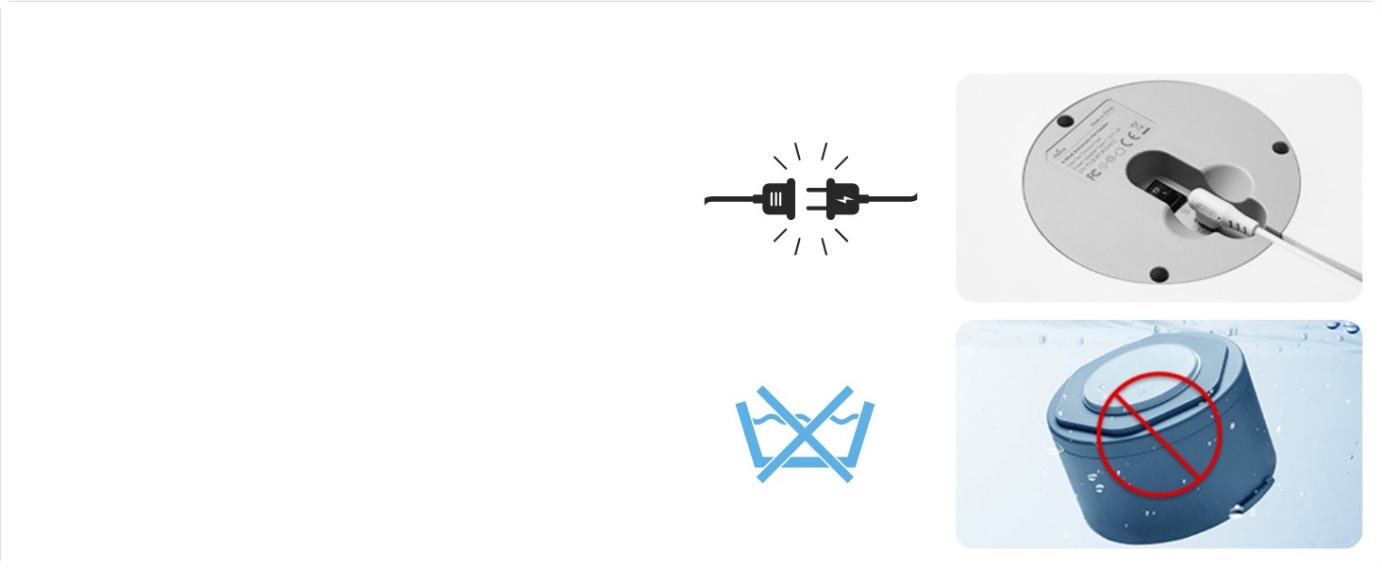

plan before the feeder enters sleep mode (which occurs when unplugged).

Visual guide for connecting the feeder to the app, highlighting the steps for initial setup.

A comparison table detailing the differences in Wi-Fi functionality and battery life when the feeder is plugged in versus unplugged.

## OPERATING INSTRUCTIONS

### Scheduling Meals

The iPettie Donut Frost feeder allows flexible meal scheduling through the Smart Life app:

- Open the Smart Life app and select your iPettie feeder.
- Navigate to the scheduling section.
- You can program up to 6 meals per day. For example, you can set 2 meals a day for 3 days, or 1 meal a day for up to 6 days.
- Adjust the feeding plan by 2 minutes before and after the preset feeding time if needed.
- The app provides notifications when food is dispensed.

### Manual Feeding

You can initiate an instant feed via the Wi-Fi function through the app, even outside of scheduled times, provided the feeder is plugged in.

### Monitoring Feeding Records

The app keeps a detailed record of all dispensed meals, allowing you to track your pet's feeding history.

# Smart Control

**Review Feeding History**

**Receive Notifications for Meals**

**Feeding Records**

| Date            | Time     | Status           |
|-----------------|----------|------------------|
| 2023-06-30 Fri. | 04:56 PM | Feeding success! |
| 2023-06-30 Fri. | 04:14 PM | Feeding success! |
| 2023-06-30 Fri. | 04:08 PM | Feeding success! |

**Notifications:**

- [4:14 PM] Feeding Success! F13-W-Feeding Success!
- [4:56 PM] Feeding Success! F13-W-Feeding Success!
- [6:03 PM] Feeding Success! F13-W-Feeding Success!
- Feeding Success! F13-W-Feeding Success!

**Feeding Schedule:**

- Thur., Fri. PM 04:15 Everyday.
- PM 11:36 Tues., Wed., Thurs.

**Feeder Status:**

- Swipe up to open

**Disclaimers:**

- \*WiFi function enters sleep mode when the feeder is unplugged.
- \*WiFi function is not controllable in sleep mode.

The Smart Control app displays feeding history and notifications, allowing users to monitor their pet's meal times.

Setting up a feeding schedule is made easy with the intuitive app interface, ensuring timely meals for your pet.

## MAINTENANCE

### Cleaning the Feeder

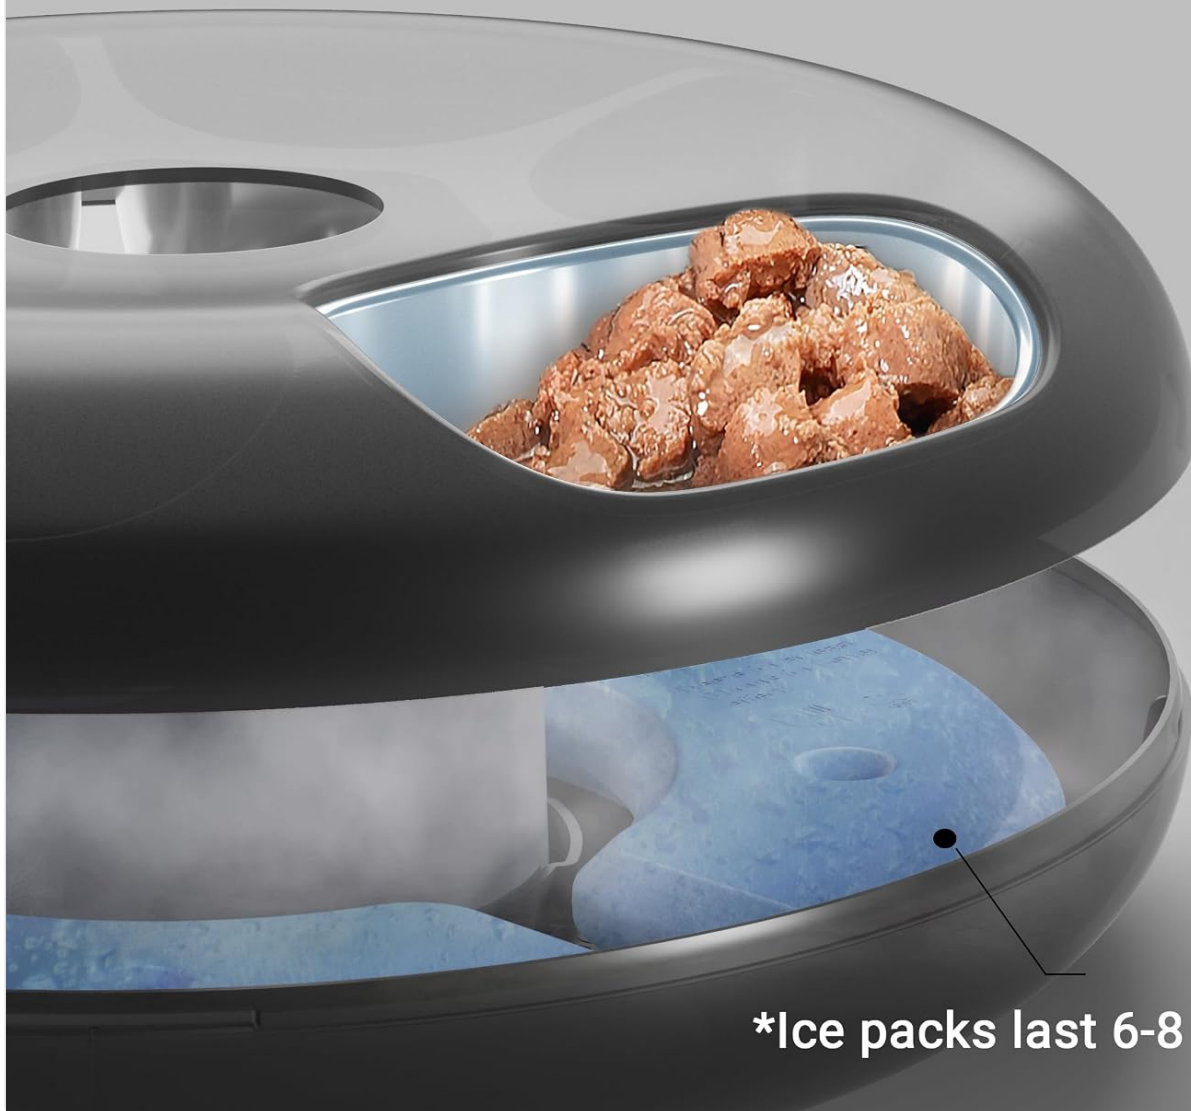

- The removable 304 stainless steel tray is dishwasher safe (top rack recommended) for easy and thorough cleaning.
- The main feeder unit and cover should be hand washed only. Do not immerse the main unit in water or place it in a dishwasher, as this can damage electronic components.
- Regularly clean all food contact surfaces to maintain hygiene and prevent bacterial growth.

### Ice Pack Care

- Always ensure ice packs are fully frozen before placing them in the feeder to maximize cooling duration.
- For continuous freshness, consider having a spare set of ice packs (search IP-FD-C01-I2) to rotate.

## Longer-lasting Freshness

Longer-lasting Freshness  
Better temperature conductivity, keep food fresh and last longer

**\*Ice packs last 6-8 hours.**

The durable 304 stainless steel tray is designed for easy removal and cleaning, ensuring long-lasting performance.

|                          | Plug-in      | Unplug                                                                                                                                                                                                                                                                                             |
|--------------------------|--------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Wifi Connection          | No limits    | No limits                                                                                                                                                                                                                                                                                          |
| Sleep Mode               | No limits    | Wifi function disables 10 minutes after the feeder is powered on. Wifi function is disabled immediately once the feeder is unplugged from power.                                                                                                                                                   |
| Wifi Work Time           | All the time | The WiFi function will turn on two minutes before and after the start time of the feeding plan. During this time, you can set a new feeding plan or start an instant feed via the WiFi function.<br><br>(e.g. Feeding plan is set for 17:00, the wifi function will be activated from 16:58-17:02) |
| Full Charge Battery Life | No limits    | 6-7 days                                                                                                                                                                                                                                                                                           |

Illustrates the ease of cleaning the feeder’s removable parts, promoting hygiene for your pet.

Important: The main feeder unit is not waterproof and should not be submerged or washed in a dishwasher.

TROUBLESHOOTING

- Feeder not connecting to Wi-Fi:** Ensure the feeder is plugged into a power outlet. The Wi-Fi function is disabled when running on battery backup to conserve power. Verify your Wi-Fi network is 2.4GHz.
- App not controlling feeder:** Confirm the feeder is plugged in and connected to your 2.4GHz Wi-Fi network. Check if the app is updated to the latest version.
- Food not dispensing at scheduled time:** Double-check the feeding schedule in the app for accuracy. Ensure the feeder has sufficient power (plugged in or charged battery).
- Food not staying fresh:** Ensure ice packs are fully frozen before use. For optimal freshness, consider freezing the food before placing it in the feeder.
- Feeder making unusual noises:** Check for any obstructions in the tray rotation mechanism. Ensure the tray is properly seated.

SPECIFICATIONS
