

Google Pixel Watch 3

Google Pixel Watch 3 (41mm) Wi-Fi User Manual

Model: GA05757-US

INTRODUCTION

The Google Pixel Watch 3 is an advanced Android smartwatch designed for comprehensive performance and health tracking. Featuring a bright, responsive Actua display, it integrates seamlessly with Fitbit's advanced running and fitness insights, including heart rate tracking, readiness scores, and cardio load monitoring. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your Pixel Watch 3.

SETUP

What's in the Box

Your Google Pixel Watch 3 package includes the following items:

- Google Pixel Watch 3 (41mm)
- Watch Band (Active Bands, small and large)
- USB-C Fast Charging Cable
- Quick Start Guide (not shown in image)

Initial Setup

To begin using your Pixel Watch 3, follow these steps:

1. **Charge Your Watch:** Connect the USB-C Fast Charging Cable to your Pixel Watch 3 and a compatible power adapter. Ensure the watch is sufficiently charged before proceeding.
2. **Power On:** Press and hold the crown button until the Google logo appears.
3. **Pair with Your Phone:** The Pixel Watch 3 is compatible with Google Pixel and Android phones

running Android 10.0 or newer. Download the Google Pixel Watch app on your smartphone. Open the app and follow the on-screen instructions to pair your watch. Fast Pair technology simplifies this process for Pixel devices.

4. **Complete Setup:** Follow the prompts on your phone and watch to complete the initial setup, including signing into your Google account and Fitbit account.

Works with Android devices.

Pixel watches are only compatible with Google Pixel and Android phones running Android 10.0 or newer.¹⁹

Fitness Tracking with Fitbit

Leverage Fitbit's advanced features for comprehensive health and fitness monitoring.

Advanced Running Features

The Pixel Watch 3 offers advanced tools for runners, including custom workout creation, real-time guidance, and detailed form tracking (cadence, stride, vertical oscillation). Fitbit Premium enhances this with AI-powered personalized run recommendations based on your goals and past performance.

Fast track to the finish line.

Build custom runs and access saved workouts to beat your PRs³

Get audio and haptic cues for when to sprint, cool down, or maintain pace³

Improve your form with insights on cadence, stride, and vertical oscillation³

Image: A woman running while wearing the Pixel Watch 3, alongside close-ups of the watch display showing real-time running pace and workout warm-up metrics.

Readiness and Recovery

The readiness feature uses data from your sleep, resting heart rate, and heart rate variability to indicate your body's preparedness for physical activity or need for recovery.

Know what your body is ready for each day.

Readiness uses sleep, resting heart rate, and heart rate variability to show when you're ready to take on a tough workout or prioritize recovery.³

Image: The Google Pixel Watch 3 display showing a readiness score of 82, indicating 'Excellent' readiness.

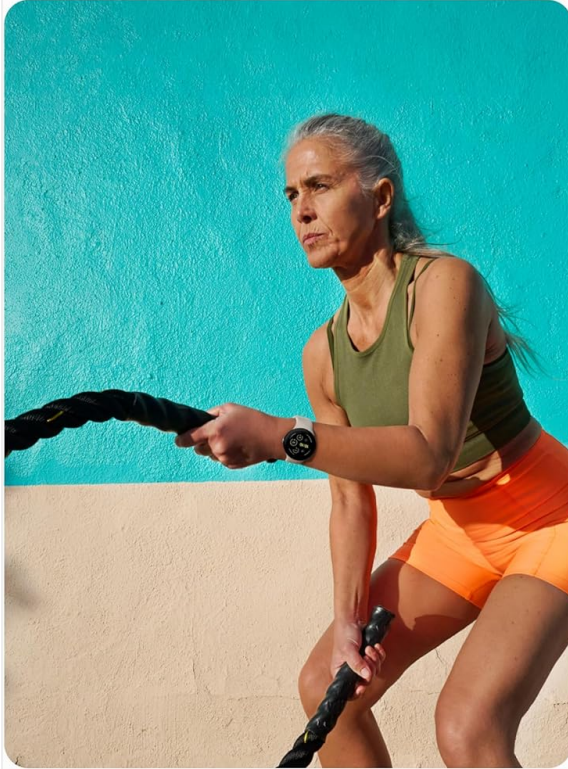

Cardio Load

Monitor your cardio load to understand the intensity of your workouts and prevent overtraining or undertraining. The watch provides a daily target based on your cardio load and readiness levels.

Balance activity and rest to perform your best.

Cardio load measures how hard
your heart works to see if
you're under- or overtraining³

Fitbit Morning Brief

Receive a daily summary of key health and fitness metrics, including sleep quality and readiness score, to help plan your day effectively.

Wake up to a game plan with Fitbit Morning Brief.

It delivers a summary of your most important health and fitness metrics – like how you slept and your readiness score – to help you plan your day.

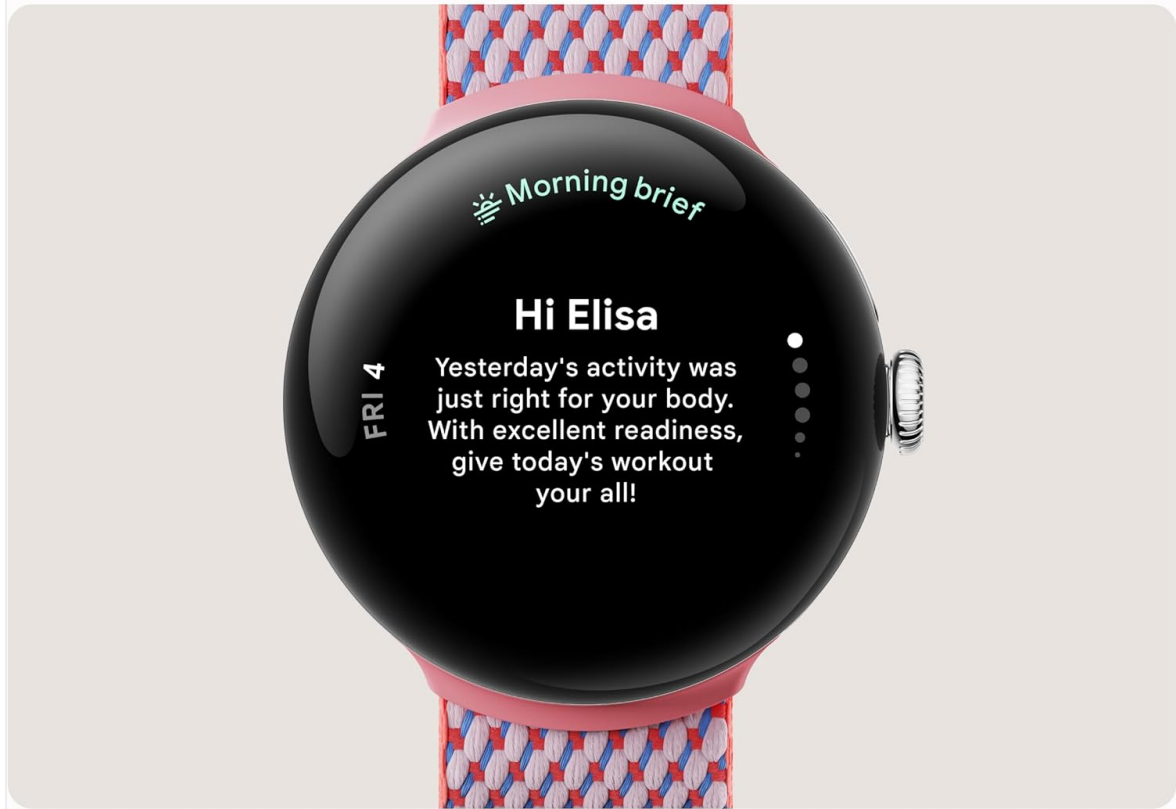

Image: The Google Pixel Watch 3 display showing a 'Morning brief' message, summarizing activity and readiness for the day.

Google Services Integration

The Pixel Watch 3 integrates with various Google services for enhanced convenience:

- **Google Maps:** Access offline maps for navigation directly from your wrist.
- **Google Wallet:** Make payments, use transit passes, and access digital keys.
- **Google Assistant:** Screen calls and receive important information.
- **Fast Pair:** Easily connect with other Pixel devices, such as Pixel Buds for music during workouts.
- **Camera Control:** Control your Pixel phone's camera remotely from your watch.
- **Nest Integration:** View live feeds from your Nest Cam or Nest Doorbell.

Help from Google, always at hand.

Use your watch to control your Pixel Camera, and easily switch between photo and video^{9,12}

Check out the live feed from your Nest Cam or Nest Doorbell^{9,10}

Access Maps offline and use Wallet for payments, transit, access, and more⁶

MAINTENANCE AND CARE

Charging

The Pixel Watch 3 provides up to 24 hours of battery life with the always-on display enabled, and up to 36 hours in Battery Saver mode. It charges 20% faster than the Pixel Watch 2. Use the included USB-C Fast Charging Cable for optimal charging performance.

Cleaning

To maintain your watch, regularly clean the display and band with a soft, lint-free cloth. For the watch body, a slightly damp cloth can be used. Avoid harsh chemicals or abrasive materials.

Band Replacement

The watch bands are designed for easy replacement. Refer to the Quick Start Guide or Google's official support resources for instructions on how to safely attach and detach bands.

TROUBLESHOOTING

If you encounter issues with your Pixel Watch 3, consider the following common solutions:

- **Connectivity Issues:** Ensure your phone's Bluetooth is on and the Pixel Watch app is open. Restart both your watch and phone. Verify that your phone is running Android 10.0 or newer.
- **Battery Drain:** Check for background apps or excessive notifications. Adjust display brightness or enable Battery Saver mode.
- **App Malfunctions:** Try restarting the specific app on your watch. If the issue persists, clear the app's cache or reinstall it.
- **Samsung S23 Compatibility:** Some users have reported connectivity challenges with Samsung S23 devices running One UI 7.0 stable implementation. While Bluetooth pairing may occur, full functionality might be limited. Ensure your phone's software is up to date and consult Google support if issues persist.
- **Unresponsive Screen:** Restart your watch by holding down the crown button. If unresponsive, ensure it is charged.
