3. PRODUCT OVERVIEW

3.1 Key Features

- **7-Color Backlight:** The keyboard features 7 switchable backlight colors, and the mouse automatically changes colors, enhancing visibility and ambiance.
- **Retro Round Keycaps:** Designed with vintage typewriter-inspired round keycaps for a unique aesthetic and comfortable typing experience.
- **Detachable Wrist Rest:** An ergonomic ABS palm rest provides support and can be easily attached/detached via built-in magnets.
- **2.4GHz Wireless Connection:** Ensures a stable and reliable connection up to 33ft without latency, using a single USB receiver for both devices.
- **Dual-System Layout:** Compatible with both Mac and Windows operating systems, allowing seamless switching.
- **6-Button Mouse:** Features 3 adjustable DPI tracking speeds and forward/backward functions for enhanced navigation.
- **Rechargeable & Power-Saving:** Both keyboard and mouse are rechargeable via USB-C and include smart auto-sleep functions to conserve battery life.

4. Setup Instructions

4.1 Connecting the Devices

1. Locate the USB receiver. It is typically stored in a compartment on the mouse.

2. Plug the USB receiver into an available USB port on your computer (PC, Laptop, Mac).

3. Turn on the keyboard using the ON/OFF switch, usually located on the back or side of the keyboard.

4. Turn on the mouse using its ON/OFF switch, typically on the underside.

5. The devices should automatically connect to your computer. No additional drivers are usually required.

4.2 Switching System Layout (Mac/Windows)

- For **Windows**: Press **Fn + Q** (WIN Key) to activate the Windows layout.
- For **Mac OS**: Press **Fn + W** (MAC Key) to activate the Mac OS layout.

4.3 Charging the Devices

- Connect the supplied USB-C charging cable to the charging port on the keyboard and mouse.
- Plug the other end of the cable into a USB power source (e.g., computer, wall adapter).
- Charging time is approximately 4-5 hours for the keyboard and 3 hours for the mouse.
- The keyboard and mouse can be used while charging.

5. OPERATING INSTRUCTIONS

5.1 Keyboard Backlight Control

- To **switch backlight color**: Press **Fn + Scroll Lock**.
- To **adjust backlight brightness**: Press **Fn + PgUp** (increase) or **Fn + PgDn** (decrease). There are 3 brightness levels.

Image: Illustration of keyboard backlight controls for switching colors and adjusting brightness.

5.2 Mouse DPI Adjustment

- The mouse has 3 adjustable DPI (dots per inch) settings to control cursor speed and sensitivity. Press the DPI button (usually located near the scroll wheel) to cycle through the settings.

5.3 Auto-Sleep Function

- The keyboard enters sleep mode after 1.5 minutes of inactivity.
- The mouse enters sleep mode after 2 minutes of inactivity.
- To wake up the devices, simply type any key on the keyboard or click any button on the mouse.

6. MAINTENANCE

6.1 Cleaning

- The detachable round keycaps are designed for easy cleaning. You can gently remove them to clean underneath.
- The keyboard is splash-proof, allowing for easy cleaning of spills. Wipe with a damp cloth.
- For the mouse, use a soft, dry cloth to wipe its surface.
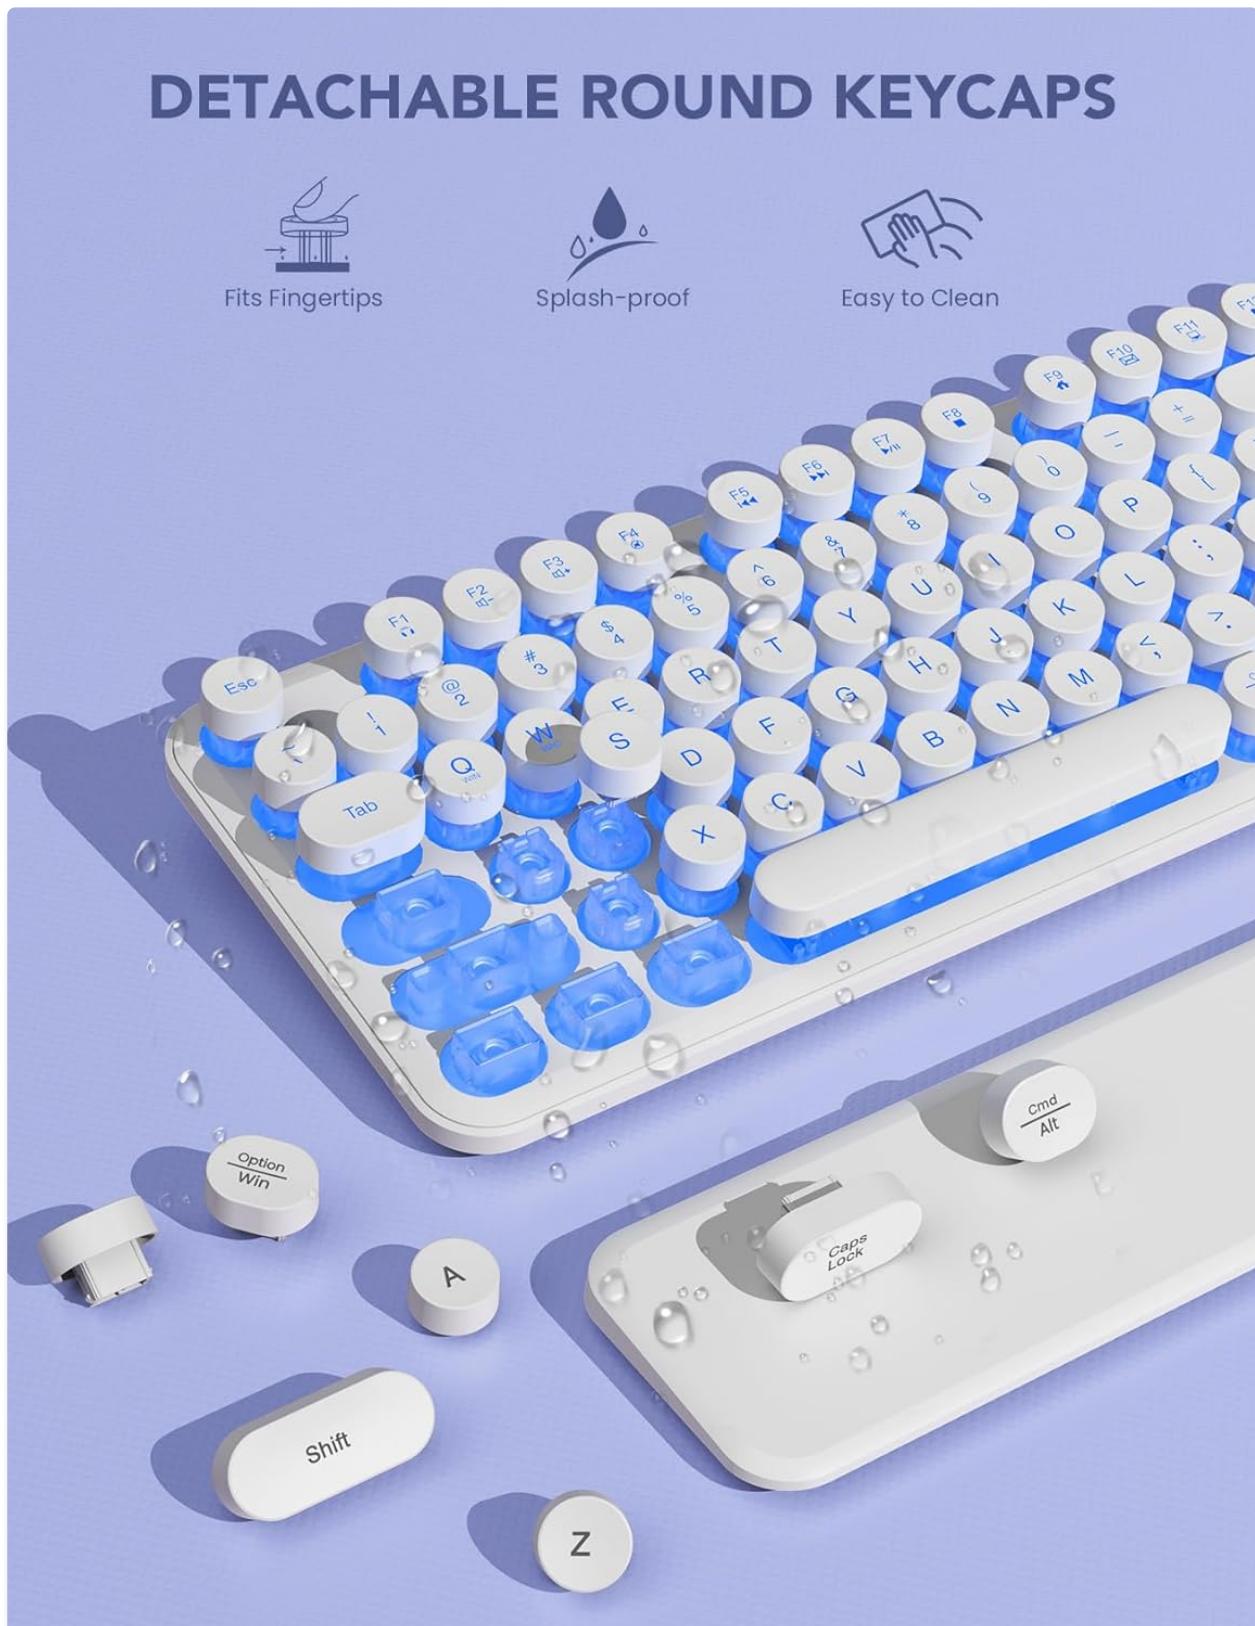

Image: Detachable round keycaps, illustrating their design for easy cleaning and splash-proof nature.

6.2 Battery Care

- Regularly charge the keyboard and mouse to maintain optimal battery performance.
- The auto-sleep function helps prolong battery life; ensure it is enabled.
- Avoid exposing the devices to extreme temperatures or direct sunlight.

7. Troubleshooting

- **No Connection:** Ensure the USB receiver is securely plugged in and both devices are turned ON. Try plugging the receiver into a different USB port.
- **Lag/Delay:** Ensure the devices are within the 33ft wireless range. Check for potential interference from other 2.4GHz devices.
- **Keys Not Responding:** Check battery level and recharge if necessary. Ensure the correct system layout (Mac/Windows) is selected.
- **Mouse Not Responding:** Check battery level and recharge if necessary. Adjust DPI settings to see if it resolves the issue.
- **Backlight Not Working:** Ensure the keyboard is turned on and charged. Use Fn + Scroll Lock to cycle through backlight modes.
