6. TROUBLESHOOTING

This section addresses common concerns and provides solutions for your Liians Velvet Bedsread Quilt Bedding Set.

Issue: Packing Creases

Some users may notice creases in the fabric upon unpacking due to the product's folded packaging.

Solution:

- Perform an initial wash and tumble dry on low heat as per the care instructions. This often helps to relax the fabric and remove creases.
- If creases persist, lightly dampen the affected areas with water (using a spray bottle) and tumble dry on a cool setting.
- Avoid attempting to iron out creases, as this can damage the velvet material.

Issue: Color Bleeding

Concern about color bleeding during washing.

Solution:

- Always wash the bedding set separately in cold water. This minimizes the risk of color transfer to other items and helps maintain the vibrancy of the quilt's color.
