superallure FC-168 12000mAh Magnetic Wireless Power Bank Instruction Manual

Model: FC-168

INTRODUCTION

Thank you for choosing the superallure FC-168 12000mAh Magnetic Wireless Power Bank. This device is designed to provide convenient and versatile charging for your mobile devices, featuring MagSafe compatibility, built-in charging cables, and multiple output ports. Please read this manual thoroughly before use to ensure optimal performance and safety.

PRODUCT OVERVIEW

The superallure FC-168 is a compact and powerful portable charger equipped with a 12000mAh battery. It supports various charging methods to meet your needs:

- **Magnetic Wireless Charging:** Up to 15W for MagSafe-compatible devices.
- **Built-in Cables:** Integrated Type-C and iOS (Lightning) cables for direct wired charging.
- **USB-C Port:** PD 20W input/output for fast charging.
- **USB-A Port:** 22.5W output for standard USB charging.
- **Additional Features:** Foldable kickstand and an integrated LED flashlight.

SETUP: CHARGING THE POWER BANK

Before first use, fully charge your superallure FC-168 Power Bank. This ensures optimal battery performance.

1. **Using the Built-in Type-C Cable:** Extend the built-in Type-C cable from the side of the power bank. Connect the Type-C end to a compatible USB-A power adapter (not included).
2. **Using the USB-C Port:** Alternatively, use an external USB-C to USB-C cable (not included) and connect it to the power bank's USB-C IN/OUT port and a PD 20W or higher power adapter.
3. **Charging Indication:** The LED display on the power bank will show the charging progress. Once 100% is displayed, the power bank is fully charged.

OPERATING INSTRUCTIONS

1. Magnetic Wireless Charging (MagSafe Compatible)

This power bank is designed for seamless magnetic attachment and wireless charging with iPhone 12/13/14/15/16 series and MagSafe-compatible cases.

1. Ensure your device is MagSafe compatible or has a MagSafe-compatible case.
2. Align the power bank with the back of your iPhone. The strong magnets will snap it into place.
3. Press the power button on the power bank to initiate wireless charging. The charging indicator on your iPhone will confirm charging status.

Magnetically Snap and Charge

The strong magnetic connection holds your phone securely

Compatible with all smartphones with Qi protocol (only wireless charging, no Magnetic)

			...
Samsung	Apple	Oneplus and more	

Image: Demonstrates the power bank's compatibility with magnetic protective cases for iPhones, emphasizing that non-MagSafe cases are not suitable for magnetic charging.

2. Wired Charging (Built-in Cables & Ports)

The power bank offers multiple wired charging options:

- **Built-in iOS (Lightning) Cable:** Extend the built-in iOS cable and connect it to your iPhone or other Lightning-compatible device.
- **Built-in Type-C Cable:** Extend the built-in Type-C cable and connect it to your Android phone or other Type-C compatible device.
- **USB-C IN/OUT Port:** Use an external USB-C cable to charge devices requiring PD 20W fast charging. This port also functions as an input for recharging the power bank.
- **USB-A Output Port:** Use an external USB-A cable to charge various devices at up to 22.5W.

The power bank can charge up to 5 devices simultaneously (1 wireless, 2 built-in cables, 2 external ports).

12000mAh CAPACITY

Power 5 devices at the same time

Image: The power bank connected to multiple devices (iPhones, AirPods) via wireless charging, built-in cables, and external USB ports, demonstrating its 12000mAh capacity and ability to power 5 devices at once.

3. Using the Foldable Kickstand

The integrated foldable kickstand allows you to prop up your phone for hands-free viewing while charging.

1. Gently pull out the kickstand from the back of the power bank.
2. Place the power bank on a flat surface with the kickstand extended.
3. Attach your MagSafe-compatible phone to the power bank for charging and viewing.

Foldable Stand for Easy Viewing

MAINTENANCE

- Keep the power bank away from water, fire, and extreme temperatures.
- Avoid dropping or subjecting the device to strong impacts.
- Clean the surface with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- Store the power bank in a cool, dry place when not in use.

TROUBLESHOOTING

Problem	Possible Solution
Device not charging wirelessly.	<p>Ensure the power bank is turned on (press the power button).</p> <p>Verify your device is MagSafe compatible or has a MagSafe-compatible case.</p> <p>Check for any obstructions between the power bank and your device.</p> <p>Ensure the power bank itself has sufficient charge.</p>
Device not charging via built-in cables or USB ports.	<p>Ensure the power bank is turned on.</p> <p>Check if the cables are securely connected to both the power bank and your device.</p> <p>Try a different cable or port if available.</p> <p>Ensure the power bank itself has sufficient charge.</p>
Power bank not recharging.	<p>Ensure the charging cable and power adapter are working correctly.</p> <p>Try a different power adapter or wall outlet.</p> <p>Check the USB-C input port for debris.</p>
Flashlight not working.	<p>Press and hold the power button for a few seconds to activate/deactivate.</p> <p>Ensure the power bank has sufficient charge.</p>

SAFETY INFORMATION

The superallure FC-168 Power Bank is equipped with a comprehensive multi-protection safety system to protect your devices:

- Short circuit protection
- Overcharge protection
- Temperature protection
- Recovery protection
- Overcurrent protection
- Overvoltage protection
- Electromagnetic field protection
- Over-discharge protection
- Over-power protection

To ensure your safety and the longevity of the product, please observe the following:

- Do not disassemble, modify, or repair the device.
- Do not expose to extreme temperatures (above 45°C or below 0°C).
- Do not expose to water or high humidity.
- Keep out of reach of children.

- Dispose of the product responsibly according to local regulations.
