AlfaBot N2

AlfaBot N2 Plant-Based Milk Maker User Manual

Model: N2

INTRODUCTION

Thank you for choosing the AlfaBot N2 Plant-Based Milk Maker. This versatile appliance is designed to help you easily prepare a variety of fresh, homemade plant-based milks, juices, and more. With its intuitive controls and efficient design, the AlfaBot N2 simplifies the process of creating healthy, lactose-free beverages right in your kitchen.

Please read this manual thoroughly before first use to ensure safe and optimal operation of your new appliance. Keep this manual for future reference.

IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, basic safety precautions should always be followed, including the following:

- Read all instructions before operating the appliance.
- Do not immerse the main unit, cord, or plug in water or other liquids to protect against electrical hazards.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use, before putting on or taking off parts, and before cleaning.
- Avoid contact with moving parts.
- Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions, or has been dropped or damaged in any manner.
- The use of attachments not recommended or sold by the manufacturer may cause fire, electric shock, or injury.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, turn any control to "off",

then remove plug from wall outlet.

- Do not use appliance for other than intended use.
- Exercise extreme caution when moving an appliance containing hot liquid.
- Ensure the lid is securely locked in place before operating the machine.
- The appliance is equipped with a powerful motor and sharp blades. Handle with care during cleaning and assembly.

PACKAGE CONTENTS

Upon unpacking, please verify that all items listed below are present and in good condition:

Figure 1: Package Contents of the AlfaBot N2 Plant-Based Milk Maker.

1. **01:** Nut Milk Maker (Main Unit)
2. **02:** Charger (Power Cord)
3. **03:** Cleaning Brush

4. **04:** Measuring Spoon (30ml max)
5. **05:** Filter Funnel (Stainless Steel)
6. **06:** Filter Bags (x2)
7. **07:** User Manual
8. **08:** Recipe Book

PRODUCT OVERVIEW AND COMPONENTS

The AlfaBot N2 features a robust design with high-quality materials for durability and performance.

Figure 2: AlfaBot N2 Plant-Based Milk Maker.

10 Stainless Steel Blades

SUS 304 Stainless Steel

800W Smart Engine

Double Layer Heat Insulation

Figure 3: Key Features and Internal Components.

- **Powerful 800W Motor:** Ensures efficient blending and processing of ingredients.
- **10 Stainless Steel Blades:** Durable and sharp blades for thorough grinding and mixing.
- **SUS 304 Stainless Steel Interior:** Food-grade material for safety and easy cleaning.
- **Double Layer Heat Insulation:** Provides safety by keeping the exterior cool during operation.
- **1000ml Capacity:** Ideal for family use, yielding approximately 5 cups of milk.

SETUP

1. **Unpack:** Carefully remove all components from the packaging.
2. **Initial Cleaning:** Before first use, clean the interior of the main unit, the filter funnel, and the measuring spoon with warm soapy water. Rinse thoroughly and dry. Wipe the exterior of the main unit with a damp cloth. Do not immerse the main unit in water.
3. **Placement:** Place the AlfaBot N2 on a stable, flat, and dry surface, away from heat sources and direct sunlight.

4. **Power Connection:** Connect the power cord to the appliance and then plug it into a standard electrical outlet.

OPERATING INSTRUCTIONS

General Operation

1. **Add Ingredients:** Open the lid and add your desired ingredients (e.g., nuts, beans, grains) into the stainless steel inner pot. Use the provided measuring spoon for accurate quantities.
2. **Add Water:** Fill the inner pot with water, ensuring the water level is between the "Min" and "Max" markings.
3. **Secure Lid:** Close the lid firmly until it clicks into place. Ensure it is properly sealed.
4. **Select Program:** Press the "Menu/Temp" button to cycle through the available programs. The selected program will be indicated on the display.
5. **Start:** Press the "Delay/Stop" button (or a dedicated Start button if present, based on typical interfaces) to begin the selected program. The machine will automatically process the ingredients.
6. **Finish:** Once the program is complete, the machine will beep. Carefully open the lid and pour the prepared milk into a separate container.
7. **Filtering (Optional):** For a smoother consistency, use the provided filter funnel and filter bags to strain out any remaining pulp.

Available Modes

The AlfaBot N2 offers 5 versatile modes to create various beverages:

5 Modes for Making Homemade Fresh Milk

Figure 4: Five Operating Modes.

- **Nuts:** For making milk from almonds, cashews, walnuts, etc.
- **Beans:** Specifically designed for making soy milk.
- **Yogurt:** For preparing homemade yogurt.
- **Juice:** For blending fruits into fresh juices.
- **Grains:** For making milk from rice, oats, and other grains.

Delay Start Function

The delay start function allows you to program the machine to start at a later time, up to 12 hours in advance. This is convenient for preparing ingredients the night before and waking up to fresh milk.

Figure 5: Delay Start Setting Up to 12 Hours.

1. Add ingredients and water as per general operation.
2. Select your desired program.
3. Press and hold the "Delay/Stop" button (or a dedicated Delay button) to activate the delay timer.
4. Use the "Menu/Temp" or "Delay/Stop" button to adjust the delay time in hours.
5. Confirm the setting (usually by pressing the start button again or waiting for the display to set). The machine will start automatically after the set delay time.

MAINTENANCE AND CLEANING

Regular cleaning ensures the longevity and hygienic operation of your AlfaBot N2.

One-Touch Self-Cleaning Function

The AlfaBot N2 features a convenient self-cleaning function:

One Touch Self-cleaning

Safe and easy to clean

Figure 6: One-Touch Self-Cleaning.

1. After use, empty any remaining liquid from the inner pot.
2. Add clean water up to the "Max" line. You may add a few drops of mild dish soap.
3. Close the lid securely.
4. Select the "Self Clean" program (usually by pressing "Menu/Temp" until "Self Clean" is displayed).
5. Press the "Delay/Stop" button to start the self-cleaning cycle.
6. Once the cycle is complete, discard the water and rinse the inner pot thoroughly with clean water.

Manual Cleaning

- **Main Unit Exterior:** Wipe with a damp cloth. Do not use abrasive cleaners or immerse the unit.
- **Lid and Blades:** Use the provided cleaning brush to remove any food residue from the lid and around the blades. Be careful as blades are sharp.
- **Filter Funnel and Bags:** Wash with warm soapy water and rinse thoroughly after each use. Allow to air dry completely.
- **Storage:** Ensure the appliance is clean and dry before storing. Store in a cool, dry place.

TROUBLESHOOTING

If you encounter any issues with your AlfaBot N2, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Machine does not turn on.	Not plugged in; power outlet issue; lid not properly closed.	Ensure power cord is securely plugged into both the machine and a working outlet. Check that the lid is fully closed and locked.
Program does not start.	Lid not secured; incorrect program selection; insufficient water.	Verify the lid is securely closed. Re-select the desired program. Ensure water level is between MIN and MAX marks.
Milk is not smooth enough.	Ingredients not fully processed; insufficient blending time; too much ingredient.	Ensure ingredients are soaked if required (e.g., nuts). Use the filter funnel and bags for extra smoothness. Reduce ingredient quantity if necessary.
Machine stops unexpectedly.	Overheating; power interruption.	Unplug the machine and let it cool down for 15-20 minutes. Check power connection.

If the problem persists after trying these solutions, please contact AlfaBot customer support.
