## 1. INTRODUCTION

Welcome to the AZLA SednaEarfit MAX TWS 6 Earbud Tips. These high-quality silicone ear tips are designed to enhance your wireless headphone experience by providing a secure fit, superior comfort, and improved noise isolation. They are compatible with a wide range of wireless earbuds, ensuring optimal sound quality and a distraction-free listening experience.

A set of AZLA SednaEarfit MAX TWS 6 earbud tips, showcasing the different sizes included (MS, M, ML) for a customized fit.

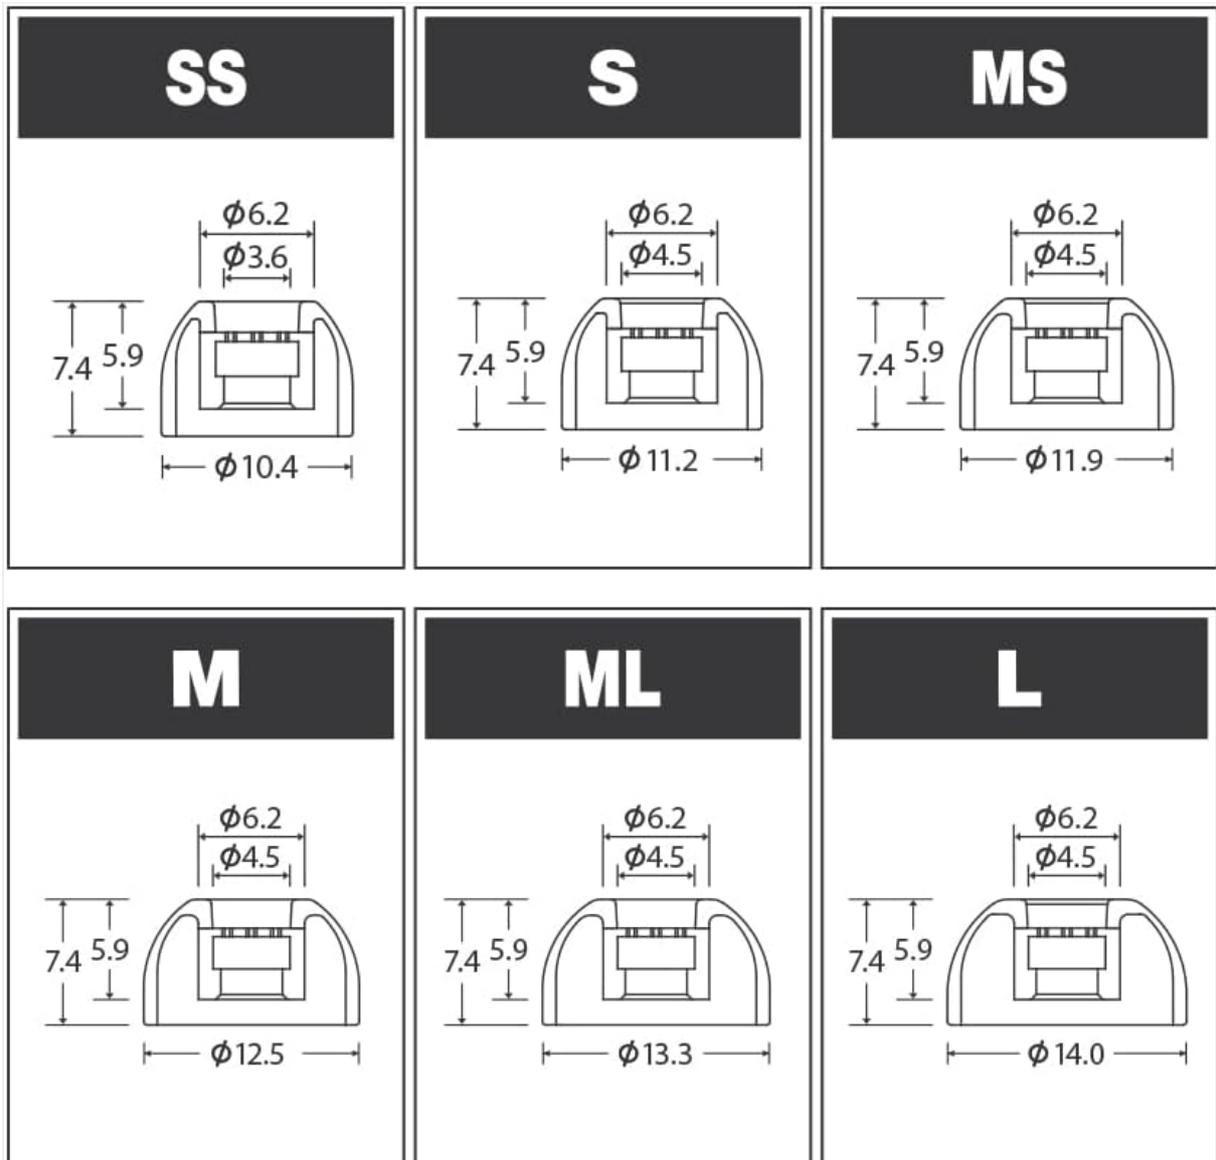

## 2. SETUP (INSTALLATION)

Follow these steps to properly install your new AZLA SednaEarfit MAX TWS earbud tips:

1. **Remove Existing Tips:** Gently twist and pull off the old earbud tips from your wireless headphones. Be careful not to damage the earbud nozzle.
2. **Select Correct Size:** Choose the AZLA SednaEarfit MAX TWS tip size (SS, S, MS, M, ML, L) that best fits your ear canal. A proper fit is crucial for both comfort and optimal sound quality. Refer to the size chart below for detailed dimensions.
3. **Attach New Tips:** Align the opening of the SednaEarfit MAX TWS tip with the earbud's nozzle. Push and twist gently until the tip is securely seated on the earbud. Ensure it is fully attached and not loose.
4. **Test Fit:** Insert the earbuds into your ears. The tips should feel comfortable and create a good seal, effectively blocking out external noise. If the fit is too loose or too tight, try a different size.

Detailed diagram illustrating the precise dimensions (diameter and height) for each SednaEarfit MAX TWS earbud tip size, from SS to L, to help users select the most appropriate fit.

### 3. OPERATING (USAGE FOR OPTIMAL PERFORMANCE)

---

The AZLA SednaEarfit MAX TWS earbud tips are engineered for optimal sound delivery and noise isolation. To achieve the best performance:

- **Achieving a Proper Seal:** A good seal is essential for experiencing the full bass response and effective noise cancellation. If you notice a lack of bass or significant ambient noise, adjust the earbud's position in your ear or try a different tip size. The ergonomic design and soft silicone material are intended to create a snug fit.
- **Compatibility:** These ear tips are designed for broad compatibility with various wireless headphone brands, including models from Sony, Samsung, Sennheiser, and Devialet.

## 4. MAINTENANCE

---

Regular cleaning of your earbud tips will ensure hygiene and maintain optimal performance and longevity.

- **Cleaning:** Gently remove the ear tips from your earbuds. Wash them with mild soap and lukewarm water. Rinse thoroughly to remove all soap residue and allow them to air dry completely before reattaching them to your earbuds. Do not use harsh chemicals or abrasive materials.
- **Storage:** Store unused or spare ear tips in a clean, dry place away from direct sunlight and extreme temperatures to prevent material degradation.

## 5. TROUBLESHOOTING

---

If you encounter any issues with your AZLA SednaEarfit MAX TWS earbud tips, consider the following solutions:

- **Poor Fit or Discomfort:** If the ear tips feel uncomfortable, too loose, or do not stay in place, try experimenting with different sizes. The package includes multiple sizes (MS/M/ML) to help you find the best fit for your ear canal. Refer to the size chart in the Setup section for guidance.
- **Reduced Sound Quality or Lack of Bass:** This often indicates an improper seal between the ear tip and your ear canal. Ensure the ear tips are fully seated on the earbud nozzles and that they create a snug, airtight fit in your ear. Try a larger size if the current one feels too loose.
- **Ear Tips Falling Off:** Ensure the ear tips are pushed all the way onto the earbud nozzle until they are firmly in place. A slight twist during installation can help secure them.
- **Hygiene Concerns:** If ear tips feel sticky or accumulate earwax, clean them as described in the Maintenance section.

## 6. SPECIFICATIONS

---

<b>Material</b>	Silicone
<b>Color</b>	White
<b>Item Weight</b>	0.32 ounces
<b>Package Dimensions</b>	3.74 x 2.83 x 0.78 inches
