## 2. IMPORTANT SAFETY INFORMATION

Please read all safety instructions carefully before using your heated blanket. Failure to follow these instructions may result in electric shock, fire, or injury.

- This heated blanket has passed the American safety UL964 Test and holds ETL Certification.
- Features lower electromagnetic radiation for user safety.
- Equipped with overheating protection technology to prevent excessive heat and potential burns.
- The heating wire is designed with advanced technology for stronger insulation and flame resistance.
- Do not use with infants, children, incapacitated persons, or persons insensitive to heat.
- Do not use if wet.
- Do not use with damaged cords or plugs.

- Always unplug the blanket when not in use or before cleaning.

### 3. PRODUCT FEATURES

- **Premium Material:** Constructed with 380gsm Faux Fur and 200gsm Sherpa, offering exceptional softness, thickness, and warmth even without electricity. The fabric is durable and resistant to shedding.
- **Comfortable Heating Wire:** The heating wire has a diameter of 2.2 mm, making its presence barely noticeable during use for enhanced comfort.
- **Energy Saving:** Utilizes intelligent temperature adjustment technology to adapt to the surrounding environment, providing consistent comfort and reducing heating costs compared to traditional air conditioning.
- **Larger Heating Area:** Features a longer heating wire for a more extensive heating area and uniform heat distribution across the blanket.
- **Dual Control (Queen Size):** Allows for independent temperature settings on each side of the Queen size blanket, catering to individual preferences.

#### 4. SETUP INSTRUCTIONS

1. Unpack the heated blanket and controller from its packaging.
2. Lay the blanket flat on your bed or desired surface, ensuring there are no folds or creases.
3. Locate the connector on the blanket and the corresponding plug on the controller cord.
4. **Step 1:** Firmly connect the controller cord to the blanket's connector. Ensure it clicks securely into place.
5. **Step 2:** Plug the power cord from the controller into a standard 120V AC wall outlet.
6. Ensure the power cord is not pinched or covered by the blanket or other objects.

## 5. OPERATING INSTRUCTIONS

The Homemate heated blanket is designed for ease of use, even for the elderly or those with limited mobility.

1. **Power On/Off:** Press the power button on the controller to turn the blanket on or off.
2. **Adjust Heat Level:** Use the temperature control buttons (up/down arrows or similar) to select one of the 10 heat levels. The temperature range is 86-122°F.
3. **Set Auto-Off Timer:** Use the timer button to cycle through the available auto-off settings: 1, 2, 4, 6, or 8 hours. The blanket will automatically shut off after the selected time.
4. **Dual Control (Queen Size):** For Queen size blankets, each side has its own controller, allowing independent heat and timer settings for two users.

Image: Close-up of the blanket's controller, displaying options for 10 heat levels and 1/2/4/6/8 hour auto-off timer settings.

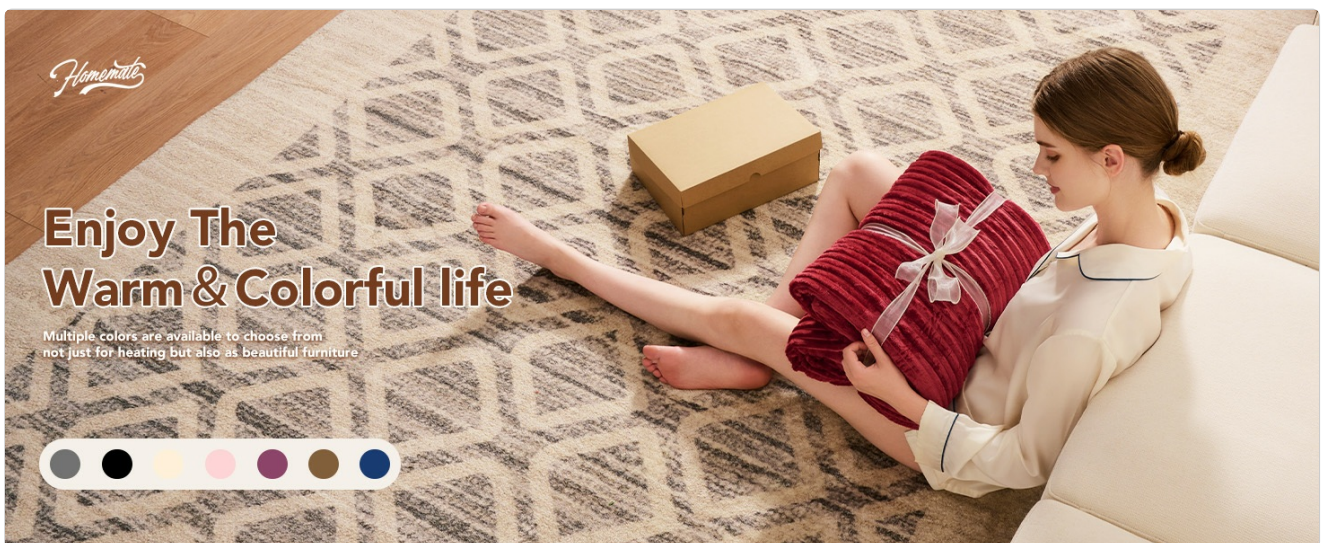

Image: Detailed view of the controller's interface, showing the 10 adjustable heating levels (86°F to 122°F) and 5 auto shut-off options (1H, 2H, 4H, 6H, 8H).

## 6. CARE AND MAINTENANCE

Proper care ensures the longevity and safe operation of your heated blanket. Always follow these instructions carefully.

1. **Disconnect Power:** Before cleaning, always unplug the power cord from the wall outlet and disconnect the controller(s) from the blanket.
2. **Machine Washable:** The Homemate heated blanket is machine washable. Use cold water (100°F / 38°C maximum) on a gentle cycle.
3. **Do Not Bleach:** Avoid using bleach or harsh cleaning agents.
4. **Do Not Dry Clean:** Dry cleaning is not recommended as it may damage the heating elements.
5. **Do Not Iron:** Do not iron the blanket.
6. **Drying:** Tumble dry on low heat or air dry. Ensure the blanket is completely dry before reconnecting the controller and using it again.

## 7. TROUBLESHOOTING GUIDE

If you experience issues with your Homemate Electric Heated Blanket, please refer to the following common solutions:

Problem	Possible Cause	Solution
Blanket not heating.	Power cord not securely plugged in; Controller not connected properly; Power outage.	Ensure all connections are firm. Check the wall outlet and household circuit breaker.
Controller display is off or flashing.	Overheating protection activated; Loose connection; Internal fault.	Unplug the blanket for 30 minutes, then reconnect. Ensure connections are secure. If problem persists, contact customer support.
Uneven heating.	Blanket is folded or bunched up; Heating wires are damaged.	Lay the blanket flat and smooth out any wrinkles. If damage is suspected, discontinue use and contact customer support.

If these steps do not resolve the issue, please contact Homemate customer support for further assistance.

## 8. PRODUCT SPECIFICATIONS

Feature	Detail
Brand	Homemate
Model Number	YZH-8490B
Size	Queen (84"x90")
