4. SETUP GUIDE

4.1 Connecting the Device

1. **Power Off TV:** Ensure your television or display is turned off before connecting the device.
2. **Insert TV Stick:** Plug the Xsarius AIR TV Stick directly into an available HDMI port on your TV. If space is limited, use the provided HDTV Extension Cable.
3. **Connect Power:** Connect the provided Power Adapter DC 5V/2A to the micro-USB port on the TV Stick and then plug the adapter into a wall outlet.
4. **Insert Batteries:** Open the battery compartment of the Advanced Hybrid Bluetooth Voice Control RCU-A4 and insert the provided batteries, ensuring correct polarity.
5. **Power On TV:** Turn on your television and select the correct HDMI input source corresponding to where the Xsarius AIR TV Stick is connected.

4.2 Initial Setup Wizard

Upon first boot, the device will guide you through an initial setup wizard. Follow the on-screen prompts to:

- Select your preferred language.
- Connect to your Wi-Fi network (Dual-Band Wi-Fi 6 supported).
- Log in with your Google account (optional, but recommended for app access).
- Accept terms and conditions.
- Perform system updates (if available).

5. OPERATING INSTRUCTIONS

5.1 Navigating the Interface

Use the directional pad (D-pad) and the 'OK' button on your remote control to navigate through menus and select items. The 'Back' button returns to the previous screen, and the 'Home' button takes you to the main home screen.

5.2 Voice Control

The Advanced Hybrid Bluetooth Voice Remote Control features a dedicated voice button. Press and hold this button, then speak your command or search query into the remote's microphone. Release the button when finished speaking. This allows for quick searches, app launches, and content control.

5.3 Streaming Content

The Xsarius AIR TV Stick supports various streaming platforms, including PremiumTV+. Access these applications from the home screen or app drawer. Ensure a stable internet connection for optimal streaming quality.

5.4 PremiumTV+ Features

- **Live TV:** Access a wide range of live television channels.
- **Catch-up Function:** Watch previously aired programs at your convenience.
- **Recording Function:** Record your favorite shows for later viewing.
- **On-Demand Content:** Explore an extensive library of movies, series, and other high-quality content.

6. MAINTENANCE

6.1 Cleaning

To clean the Xsarius AIR TV Stick and its remote control, use a soft, dry, lint-free cloth. Do not use liquid cleaners, aerosols, or abrasive solvents, as these may damage the device.

6.2 Storage

When not in use for extended periods, store the device in a cool, dry place away from direct sunlight and extreme temperatures. Disconnect the power adapter from the wall outlet.

6.3 Software Updates

Periodically check for software updates through the device's settings menu to ensure optimal performance and access to the latest features and security enhancements.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
No power/Device not turning on	Power adapter not connected or faulty; power outlet issue.	Ensure the power adapter is securely connected to the device and a working power outlet. Try a different outlet.
No signal on TV screen	Incorrect HDMI input selected; loose HDMI connection.	Verify your TV is set to the correct HDMI input. Re-plug the HDMI cable/stick firmly into the TV. Try a different HDMI port.
Remote control not responding	Batteries are low or incorrectly inserted; remote not paired.	Replace batteries with new ones, ensuring correct polarity. If the remote is Bluetooth, re-pair it according to the on-screen instructions (usually found in device settings).
Wi-Fi connection issues	Incorrect Wi-Fi password; router too far; interference.	Double-check the Wi-Fi password. Move the device closer to the router or reduce interference. Restart your router and the TV Stick.

Problem	Possible Cause	Solution
App crashes or slow performance	Too many apps running; insufficient storage; outdated app/system software.	Close background apps. Clear app cache/data. Ensure the app and system software are up to date. Consider uninstalling unused apps to free up storage.
