GoGonova Cordless Hot Glue Gun User Manual

MODEL: GoGONOVA-1 | BRAND: GoGONOVA

1. Important Safety Instructions

Please read and understand all safety instructions before using the GoGonova Cordless Hot Glue Gun. Failure to follow these instructions may result in electric shock, fire, or serious personal injury.

- **Hot Nozzle:** The nozzle and molten glue can reach high temperatures. Avoid direct contact with skin to prevent burns.
- **Children:** Keep the glue gun out of reach of children. Adult supervision is required when children are present during operation.
- **Ventilation:** Use the glue gun in a well-ventilated area.
- **Flammable Materials:** Do not use near flammable liquids, gases, or dust.
- **Power Source:** Use only the provided USB-C charging cable. Do not operate the glue gun while it is charging.
- **Storage:** Always ensure the glue gun is cool before storing. Store in a dry, safe place.
- **Auto Power-Off:** The glue gun features an automatic shut-off after 5 minutes of inactivity to enhance safety and conserve battery life.

2. Package Contents

Verify that all items listed below are included in your package:

- GoGonova Cordless Hot Glue Gun
- 50 Pcs Mini Glue Sticks (0.28" x 5.51")
- USB-C Charging Cable
- Storage Case

Figure 2.1: Complete GoGonova Cordless Hot Glue Gun kit.

The kit includes the pink cordless glue gun, a black zippered storage case, a bundle of 50 mini glue sticks, and a USB-C charging cable.

3. Product Overview

The GoGonova Cordless Hot Glue Gun is designed for convenience and efficiency in various crafting and repair tasks. Key features include:

- **Cordless Design:** Offers freedom of movement without being tethered to an outlet.
- **Fast Preheating:** Ready to use in approximately 20 seconds.
- **USB-C Rechargeable:** Equipped with a 2Ah battery for easy charging anywhere.
- **Anti-Drip System:** Minimizes dripping and stringing for a cleaner workspace.

- **Ergonomic Design:** Comfortable grip for extended use.
- **Upright Standing Base:** Stable base prevents tipping and keeps the nozzle elevated.

Storage More Convenient

Figure 3.1: The glue gun and its components stored in the provided case.

The storage case is designed to keep the glue gun, glue sticks, and charging cable organized and protected.

20s Fast Heating

2000 mAh Battery

Figure 3.2: Illustration of the internal components, emphasizing the 20-second fast heating and 2000 mAh battery.

The internal design ensures rapid heating and efficient power delivery from the 2000 mAh battery.

Upgraded Anti-Drip Design

Say No to Mess

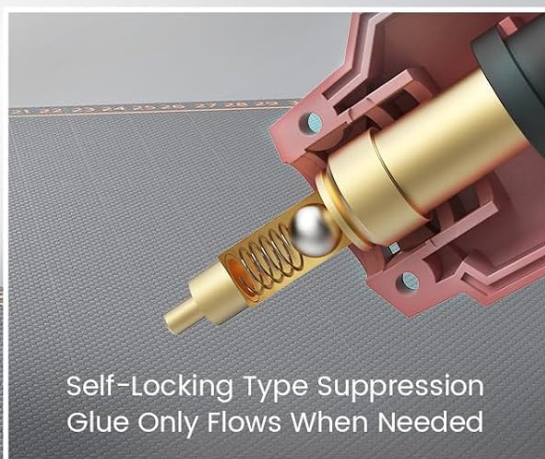

Figure 3.3: The anti-drip mechanism, featuring a self-locking type suppression that allows glue to flow only when the trigger is pressed.

The innovative dispensing system significantly reduces dripping, ensuring a clean application and minimizing glue waste.

Ergonomic Design

Comfortable and User-Friendly

Figure 3.4: The ergonomic handle features an anti-slip granular cushion and comfortable grip rubber for user-friendly operation.

The handle is designed for comfort and ease of use, reducing hand fatigue during prolonged crafting sessions.

Upright Standing Design

Stands Steady, Always Ready

Perfectly Balanced

Built-In Stand

Figure 3.5: The glue gun is designed with a perfectly balanced, built-in stand for stable upright positioning, ensuring it is always ready for use.

The stable base allows the glue gun to stand upright, preventing accidental contact with hot surfaces and keeping the nozzle elevated.

4. Setup

4.1 Charging the Glue Gun

1. Connect the provided USB-C charging cable to the charging port located at the bottom of the glue gun handle.
2. Plug the other end of the USB-C cable into a compatible USB power source (e.g., wall adapter, power bank, computer USB port).
3. The indicator light at the base of the handle will illuminate **red** while charging.

4. Once fully charged, the indicator light will turn **green**.
5. Unplug the charging cable before use. The glue gun cannot be operated while charging.

Figure 4.1: The glue gun being charged via its USB-C port, connected to a power bank.

The glue gun is conveniently rechargeable via USB-C, allowing you to power it up from various sources.

Figure 4.2: Indicator lights provide visual feedback on battery status and operational readiness.

Understand the indicator light signals for optimal use: green for ready, red flashing for low battery, and solid red for charging.

4.2 Inserting Glue Sticks

1. Ensure the glue gun is turned off and cool.
2. Insert a mini glue stick (0.28" x 5.51") into the round opening at the back of the glue gun.
3. Gently push the glue stick until it stops. Do not force it.

5. Operating Instructions

5.1 Powering On/Off

- To turn on: Press and hold the power button (located at the base of the handle) for approximately 3 seconds until the indicator light turns red.
- To turn off: Press and hold the power button for approximately 3 seconds until the indicator light turns off.

5.2 Preheating

- After powering on, the indicator light will be red, indicating the glue gun is preheating.
- The glue gun will be ready for use in approximately 20 seconds, at which point the indicator light will turn green.

5.3 Applying Glue

- Once the indicator light is green, gently squeeze the trigger to dispense molten glue from the nozzle.
- Apply glue to the desired surface. The anti-drip system ensures smooth and precise application.
- Release the trigger to stop the glue flow.

5.4 Auto Power-Off Feature

For safety and energy conservation, the GoGonova Cordless Hot Glue Gun will automatically power off after 5 minutes of inactivity. To resume operation, simply press and hold the power button again.

6. Maintenance

6.1 Cleaning the Nozzle

- Always ensure the glue gun is turned off and completely cooled before cleaning.
- Gently wipe any excess dried glue from the nozzle using a soft cloth. Do not use abrasive cleaners or sharp objects.

6.2 Storage

- Store the glue gun and its accessories in the provided storage case.
- Keep the case in a cool, dry place, away from direct sunlight and extreme temperatures.

7. Troubleshooting

Problem	Possible Cause	Solution
Glue gun not heating up.	Low battery or not powered on correctly.	Ensure the glue gun is fully charged (green indicator light). Press and hold the power button to turn it on.
Glue not dispensing.	Glue stick not fully inserted or not heated sufficiently.	Push the glue stick further into the gun. Wait for the indicator light to turn green (fully preheated).
Battery not holding charge.	Battery degradation over time or improper charging.	Ensure you are using the provided USB-C cable and a compatible power source. If issues persist, contact customer support.
Excessive dripping.	Normal for some glue guns, but this model has anti-drip.	Ensure the glue gun is fully heated. If dripping is excessive, contact customer support.

8. Specifications

Feature	Detail
Brand	GoGonova
Model Number	GoGonova-1
Power Source	Battery Powered
Voltage	5 Volts
Compatible Material	Plastic, Fabric, Cloth, Wood, Glass, Metal, etc.

Feature	Detail
Item Weight	2.05 pounds
Product Dimensions	10.6 x 7.5 x 2.6 inches
Included Components	Charger (USB-C Cable)

9. Warranty and Support

GoGonova is committed to providing high-quality products and customer satisfaction. Your GoGonova Cordless Hot Glue Gun comes with the following:

- **12-Months Unconditional Replacement:** For any manufacturing defects or performance issues within 12 months of purchase.
- **Lifetime Coverage:** Enjoy lifetime service and technical support for your product.
