

PowerExact Blender System (ASIN: B0D957SY91)

Beautiful PowerExact Blender System User Manual

Model: PowerExact Blender System (ASIN: B0D957SY91)

INTRODUCTION

Welcome to the Beautiful PowerExact Blender System. This high-performance blender is designed to deliver consistent results for a variety of blending tasks, from smoothies and soups to salsas. Featuring Precision Technology and a powerful 700-watt motor, it simplifies your kitchen tasks. This manual provides essential information for safe operation, setup, maintenance, and troubleshooting.

IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before using the blender. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Always unplug the blender from the outlet when not in use, before assembling or disassembling parts, and before cleaning.
- Do not immerse the motor base in water or other liquids.
- Keep hands and utensils out of the blending jar while blending to reduce the risk of severe injury to persons or damage to the blender.
- Never blend hot liquids in the sealed to-go cup. When blending hot liquids in the main jar, use caution and do not fill past the maximum fill line.
- Ensure the lid is securely locked in place before operating the blender.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been dropped or damaged in any manner.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

PRODUCT COMPONENTS

Familiarize yourself with the parts of your Beautiful PowerExact Blender System:

- **Motor Base:** Contains the powerful 700-watt motor and touch-activated control panel.

- **50oz BPA-Free Blending Jar:** Large capacity, scratch-resistant jar with a pour spout.
- **Lid with 2oz Measuring Cap:** Secure lid for the main blending jar, featuring a removable measuring cap for adding ingredients during blending.
- **4-Tip Stainless Steel Blade Assembly:** Durable blade designed to tackle tough ingredients.
- **20oz BPA-Free Single-Serve Cup:** Ideal for blending individual portions directly.
- **No Drip Sippy Lid:** Patented lid for the single-serve cup, designed for mess-free transport.

SETUP AND ASSEMBLY

Before first use, wash all parts that will come into contact with food (blending jar, lids, blades, to-go cup) in warm, soapy water. Rinse thoroughly and dry.

1. Main Blending Jar Assembly:

- Place the 4-tip stainless steel blade assembly securely onto the bottom of the 50oz blending jar.
- Ensure the blade assembly is tightened properly to prevent leaks.
- Place the assembled jar onto the motor base, aligning the grooves. Turn clockwise until it locks into place.
- Add your ingredients to the jar. Do not exceed the maximum fill line.
- Secure the lid onto the blending jar, ensuring the pour spout is closed and the 2oz measuring cap is in place.

2. Single-Serve Cup Assembly:

- Add ingredients directly into the 20oz single-serve cup.
- Screw the blade assembly directly onto the open end of the single-serve cup until secure.

- Invert the cup and place it onto the motor base, aligning the grooves. Turn clockwise until it locks into place.

OPERATING INSTRUCTIONS

Once assembled and plugged in, the touch-activated display will illuminate. Select your desired function:

Control Panel Functions:

- **Power Button ():** Turns the blender on/off.
- **Low Speed:** For lighter blending tasks and gentle mixing.
- **High Speed:** For more intensive blending, such as crushing ice or tougher ingredients.
- **Pulse:** Provides short bursts of power for chopping or controlled blending. Hold for continuous pulsing.
- **Pre-set Functions:**
 - **Ice Crush:** Optimized for crushing ice cubes into snow-like consistency.
 - **Chop:** Ideal for chopping vegetables, nuts, or making salsas.
 - **Milkshake:** Creates smooth and creamy milkshakes.
 - **Smoothie/Clean:** Perfect for making smoothies. Can also be used for quick cleaning (see Maintenance section).

Blending Tips:

- Always add liquids first, then soft ingredients, followed by harder ingredients and ice.
- If ingredients are not circulating, add more liquid or use the Pulse function to dislodge them.
- For adding ingredients during blending, remove the 2oz measuring cap from the main lid.

MAINTENANCE AND CLEANING

Proper cleaning ensures the longevity and performance of your blender. Always unplug the blender before cleaning.

Cleaning the Blending Jar and Accessories:

- **Auto-Clean Function:** For quick cleaning, add 2 cups of warm water and a drop of dish soap to the blending jar. Secure the lid and select the "Smoothie/Clean" pre-set function. Run for 30 seconds, then rinse thoroughly.
- **Dishwasher Safe Parts:** The 50oz blending jar, its lid, the 20oz single-serve cup, and the blade assembly are all top-rack dishwasher safe.
- **Hand Washing:** For best results and to prolong the life of your parts, hand wash with warm, soapy water. Use a brush to clean around the blades carefully.
- Ensure all parts are completely dry before storing.

Cleaning the Motor Base:

- Wipe the motor base with a damp cloth. Do not immerse the motor base in water or any other liquid.
- Do not use abrasive cleaners or scouring pads, as they may scratch the surface.

TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|---|---|---|
| Blender does not turn on. | Not plugged in; Jar not properly assembled/locked; Power outage. | Ensure the power cord is securely plugged into a working outlet. Verify the blending jar or single-serve cup is correctly seated and locked onto the motor base. Check your home's circuit breaker. |
| Ingredients are not blending smoothly or are stuck. | Too little liquid; Too many ingredients; Ingredients are too large or hard. | Add more liquid. Reduce the amount of ingredients. Cut larger ingredients into smaller pieces. Use the Pulse function to dislodge ingredients. |
| Blender leaks from the bottom of the jar. | Blade assembly not tightened; Seal ring missing or damaged. | Ensure the blade assembly is securely tightened onto the jar. Check if the seal ring is properly in place and undamaged. |
| Motor smells or overheats. | Overloading; Continuous operation for too long. | Reduce the load of ingredients. Allow the blender to cool down for at least 10-15 minutes before resuming operation. Do not operate continuously for more than 1 minute. |

PRODUCT SPECIFICATIONS

- **Model:** PowerExact Blender System (ASIN: B0D957SY91)
- **Power:** 700 Watts
- **Main Jar Capacity:** 50 oz (BPA-free)
- **Single-Serve Cup Capacity:** 20 oz (BPA-free)
- **Speeds:** 3 (Low, High, Pulse)
- **Pre-set Functions:** 4 (Ice Crush, Chop, Milkshake, Smoothie/Clean)
