MelodySusie P-Art01R

MelodySusie P-Art01R Handheld Cordless UV Nail Lamp

Model: P-Art01R

Brand: MelodySusie

1. INTRODUCTION

Thank you for choosing the MelodySusie P-Art01R Handheld Cordless UV Nail Lamp. This compact and portable device is designed for efficient flash curing of various soft gels, including rhinestone glue, solid nail glue gel, extension gel, and liner gel polish. Its unique design prioritizes user safety and convenience, making it an ideal tool for both home and professional nail art applications.

2. PRODUCT FEATURES

- **Eye-Protection Cover:** Features a transparent protective cover to shield eyes from strong UV light while focusing on nails.
- **LCD Display:** Shows battery capacity and countdown timer for precise curing.
- **Efficient Curing:** Innovative chips deliver concentrated light, curing most gel nail polishes, especially soft gels like rhinestone glue, solid nail glue gel, extension gel, and liner gel polish.
- **Cordless & Rechargeable:** Equipped with a 450mAh built-in battery, providing up to 90 minutes of continuous use. Charges via Type-C USB.
- **Dual Timer Settings:** Short press for a 20-second timer; press and hold for 2 seconds to activate a 60-second timer.
- **Compact & Portable:** Lightweight design makes it easy to carry for on-the-go nail art.

4.2 Power Adapter Warning

Warning: Use only a 5V/2A power adapter. Higher specifications will prevent charging or may damage the product.

5. OPERATING INSTRUCTIONS

5.1 Power On/Off and Timer Settings

1. **20-Second Timer:** Short press the power button to activate the 20-second curing timer.
2. **60-Second Timer:** To switch to the 60-second timer, turn off the lamp, then press and hold the power button for 2 seconds.

5.2 Application for Gel Curing

1. Apply your desired gel nail polish, rhinestone glue, or other soft gel product to the nail.
2. Position the UV nail lamp directly over the nail or nail art to be cured.
3. Select the appropriate timer setting (20s for quick flash curing, 60s for more intensive curing of thicker gels or nail tips).
4. Hold the lamp steady until the timer completes.
5. Repeat for additional layers or nails as needed.

5.3 Important Usage Note

This device is primarily designed for flash curing or repairing a single nail. For full and complete curing of all gel layers, it is recommended to use a standard-sized UV nail lamp.

6. MAINTENANCE

6.1 Cleaning

Wipe the device with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.

6.2 Storage

Store the nail lamp in a cool, dry place away from direct sunlight and moisture. Keep out of reach of children.

7. SAFETY INFORMATION

- Always unplug the unit when not in use.
- Avoid direct exposure of UV light to eyes.
- Keep away from water and moisture.
- Discontinue use immediately if the device is damaged, overheating, making unusual noise, or not functioning properly.
- Do not squeeze the lamp cover forcefully or drop it, as this may cause product parts to loosen.
- Turn off after use and keep out of reach of children.

8. TROUBLESHOOTING

If the device is not functioning as expected, please check the following:

- Ensure the device is fully charged.
- Verify that the correct 5V/2A power adapter is being used for charging.
- Confirm that the power button is pressed correctly for the desired timer setting.
- If issues persist, refer to the warranty and customer support section.
