## KZZI K68 PRO

# KZZI K68 PRO Mechanical Gaming Keyboard User Manual

Model: K68 PRO

## 1. INTRODUCTION

Thank you for choosing the KZZI K68 PRO Mechanical Gaming Keyboard. This keyboard combines advanced features such as a gasket mount design, hot-swappable switches, and tri-mode connectivity to provide a superior typing and gaming experience. This manual will guide you through the setup, operation, and maintenance of your new keyboard.

# HOT SWAPPABLE PCB

Easily change switches without soldering, providing the flexibility to customize the typing feel.

Support 3/5 pin  
mechanical switches

Rainbow switch

## 2. KEY FEATURES

- **Enhanced Sound and Feel:** Features a Gasket Mount design combined with a built-in poron switch mat, poron foam, and silicone pad for an elastic typing feel and dampened sound.
- **Full-Key Hot-Swap:** Customize your typing experience with full-key hot-swap capability, compatible with 3-pin and 5-pin switches.
- **Tri-Mode Connectivity:** Seamlessly switch between Type-C wired, Bluetooth (3.0+5.0), and 2.4GHz wireless connections. Compatible with Windows and Mac.
- **Multi-Function Knob:** Effortlessly control volume and quickly switch between connected devices.
- **Compact Yet Powerful Design:** 67-key layout (K68 PRO) combining practicality with a space-saving design, featuring direction keys, FN multimedia keys, and essential control keys.

## 3. SETUP

### 3.1 What's in the Box

- KZZI K68 PRO Mechanical Gaming Keyboard
- USB Cable

### 3.2 Connecting Your Keyboard

The KZZI K68 PRO supports three connection modes:

1. **Type-C Wired Mode:** Connect the provided USB-C cable to the keyboard and your device. Ensure the mode switch on the keyboard is set to wired mode.
2. **2.4GHz Wireless Mode:** Locate the 2.4GHz USB dongle (usually stored in a compartment on the keyboard). Plug the dongle into your device's USB port. Switch the keyboard to 2.4GHz mode. The keyboard should automatically connect.
3. **Bluetooth Mode (3.0+5.0):** Switch the keyboard to Bluetooth mode. On your device, search for Bluetooth devices and select 'KZZI K68 PRO' to pair. The keyboard can store up to three Bluetooth connections (BT1, BT2, BT3).

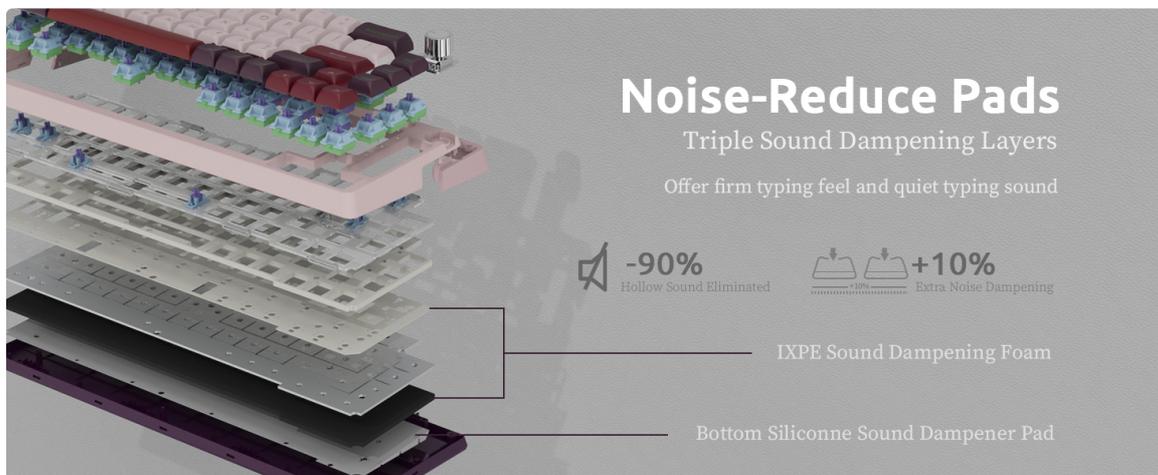

Image: Diagram illustrating the three connectivity options: Type-C wired, 2.4GHz wireless, and Bluetooth.

### 3.3 Charging

The keyboard is powered by 1 A battery (included). Connect the USB-C cable to the keyboard and a power source to charge. The keyboard can be used while charging in wired mode.

## 4. OPERATING MODES

### 4.1 Tri-Mode Switching

Use the physical switch on the keyboard to toggle between wired, 2.4GHz, and Bluetooth modes. For Bluetooth, press and hold Fn+Q/W/E to pair with new devices (BT1, BT2, BT3). For 2.4GHz, switch to 2.4G position, press and hold Fn+P, then plug the receiver into the device. A successful pairing is indicated by the 'P' key flashing.

### 4.2 Multi-Function Knob

The multi-function knob allows for quick control of various settings, such as volume adjustment. It can also be used to switch between different connected devices, enhancing workflow efficiency.

### 4.3 RGB Lighting Control

The keyboard features RGB backlighting with 20 light modes. Use FN multimedia keys to adjust backlight effects, brightness, and speed. Long-press specific keys to restore factory settings.

## 5. CUSTOMIZATION

### 5.1 Hot-Swappable Switches

The K68 PRO features full-key hot-swap capability, allowing you to easily replace 3-pin and 5-pin switches without soldering. This provides flexibility to customize your typing feel.

Image: The KZZI K68 PRO keyboard with several keycaps and switches removed, illustrating the hot-swappable PCB design.

## 5.2 Keycap Replacement

You can replace the keycaps to further personalize your keyboard's appearance. Use a keycap puller for safe removal and installation.

## 6. MAINTENANCE

### 6.1 Cleaning

To clean your keyboard, disconnect it from your device. Use a soft brush or compressed air to remove dust and debris from between the keys. For keycaps, gently remove them and clean with a mild soap solution, then dry thoroughly before reattaching.

### 6.2 Switch Care

If replacing switches, ensure proper alignment to avoid bending pins. Store spare switches and keycaps in a dry, dust-free environment.

## 7. TROUBLESHOOTING

- **Connectivity Issues:** Ensure the keyboard is in the correct mode (wired, 2.4GHz, or Bluetooth). For wireless modes, check battery level. For Bluetooth, ensure your device's Bluetooth is on and the keyboard is paired.
- **Keys Not Responding:** Check if the switches are properly seated. If a specific key is problematic, try swapping its switch with a spare one.
- **RGB Lighting Problems:** Use the FN key combinations to cycle through lighting modes and adjust brightness. Ensure the keyboard is not in a low power state.
- **Unexpected Characters (Chattering):** This can sometimes be caused by overly sensitive switches. If you experience this, consider replacing the problematic switch.

## 8. SPECIFICATIONS

Feature	Detail
Model	K68 PRO
Layout	67-key (65%)
Connectivity	Type-C Wired, Bluetooth (3.0+5.0), 2.4GHz Wireless
Switches	Hot-Swappable (3-pin & 5-pin compatible)
