# SIRUI Carbon Fiber Monopod AM-MDP01 Instruction Manual

## INTRODUCTION

This manual provides detailed instructions for the safe and effective use of your SIRUI AM-MDP01 Carbon Fiber Monopod. Please read this manual thoroughly before operating the monopod to ensure optimal performance and longevity. Keep this manual for future reference.

## PRODUCT OVERVIEW

### What's in the Box

Upon unpacking, verify that all the following items are included:

- 1 x SIRUI AM-MDP01 Carbon Fiber Monopod
- 1 x Smartphone Clamp
- 1 x Carrying Bag
- 1 x 2.5mm Allen Key

# What's in the Box?

- 1 1X Carrying Bag
- 2 1X Monopod AM-MDP01
- 3 1X Smartphone Clamp
- 4 1X 2.5mm Allen Key

## Specifications

Product Model	AM-MDP01	Product Weight	0.9lbs/0.41kg
Material	Carbon Fiber	Tube Diameter	0.59"-/15mm-1.14"/29mm
Max Load	22lb/10kg	Working Height	18.6"/47.3cm--65"/165cm
Sections	5	Plate Dia.	2.0"/52mm

## Key Features

- Ultra-Lightweight & Sturdy:** Constructed from high-strength carbon fiber, weighing approximately 0.41kg (0.9lbs) with a maximum load capacity of 10kg (22lbs).
- Extendable Height Range:** Features 5 sections, extending from a minimum height of 47.3cm (18.6") to a maximum height of 165cm (65").
- Quick Twist-Lock System:** Ergonomic twist locks allow for rapid height adjustment and secure locking of each section.
- Integrated Phone Clamp:** Includes a fully rotatable smartphone mount for seamless transitions between portrait and landscape orientations.
- Travel-Friendly Design:** Compact retracted size of 18.5 inches, includes a carabiner clip for attachment, a mini compass, and a cold-resistant foam grip.
- Reversible Mounting Screw:** Features a reversible 1/4" and 3/8" screw for wide compatibility with cameras, ball heads, video heads, and other accessories.

## SETUP

### 1. Attaching a Camera or Accessory

The monopod features a reversible mounting screw to accommodate both 1/4" and 3/8" threaded devices.

- 1. Identify Screw Size:** Determine if your camera or accessory requires a 1/4" or 3/8" screw. The monopod comes with a 1/4" screw installed by default.
- 2. Reverse Screw (if needed):** If a 3/8" screw is required, use the provided Allen key to loosen the screw on the mounting platform. Carefully remove the screw, flip it, and reinsert it to expose the 3/8" thread. Tighten the screw with the Allen key.
- 3. Mount Device:** Align your camera or accessory with the appropriate screw thread on the monopod's mounting platform. Rotate your device clockwise until it is securely fastened. Ensure it is tight enough to prevent movement but avoid over-tightening.

## 2. Attaching the Smartphone Clamp

The included smartphone clamp can be directly mounted onto the 1/4" screw of the monopod.

1. Ensure the monopod's mounting screw is set to 1/4".

2. Screw the smartphone clamp onto the 1/4" thread until secure.
3. Open the clamp and insert your smartphone. The clamp is designed to hold various phone sizes securely.

## OPERATING INSTRUCTIONS

### 1. Adjusting Monopod Height

The monopod features 5 sections with twist-lock mechanisms for quick and secure height adjustments.

1. **Extend:** Twist each section's lock counter-clockwise to loosen. Pull the section outwards to extend it to the desired length.
2. **Lock:** Once the desired height is reached, twist the lock clockwise to secure the section firmly in place. Repeat for all sections.
3. **Retract:** Twist each section's lock counter-clockwise, push the section inwards, and then twist clockwise to lock it in the retracted position.

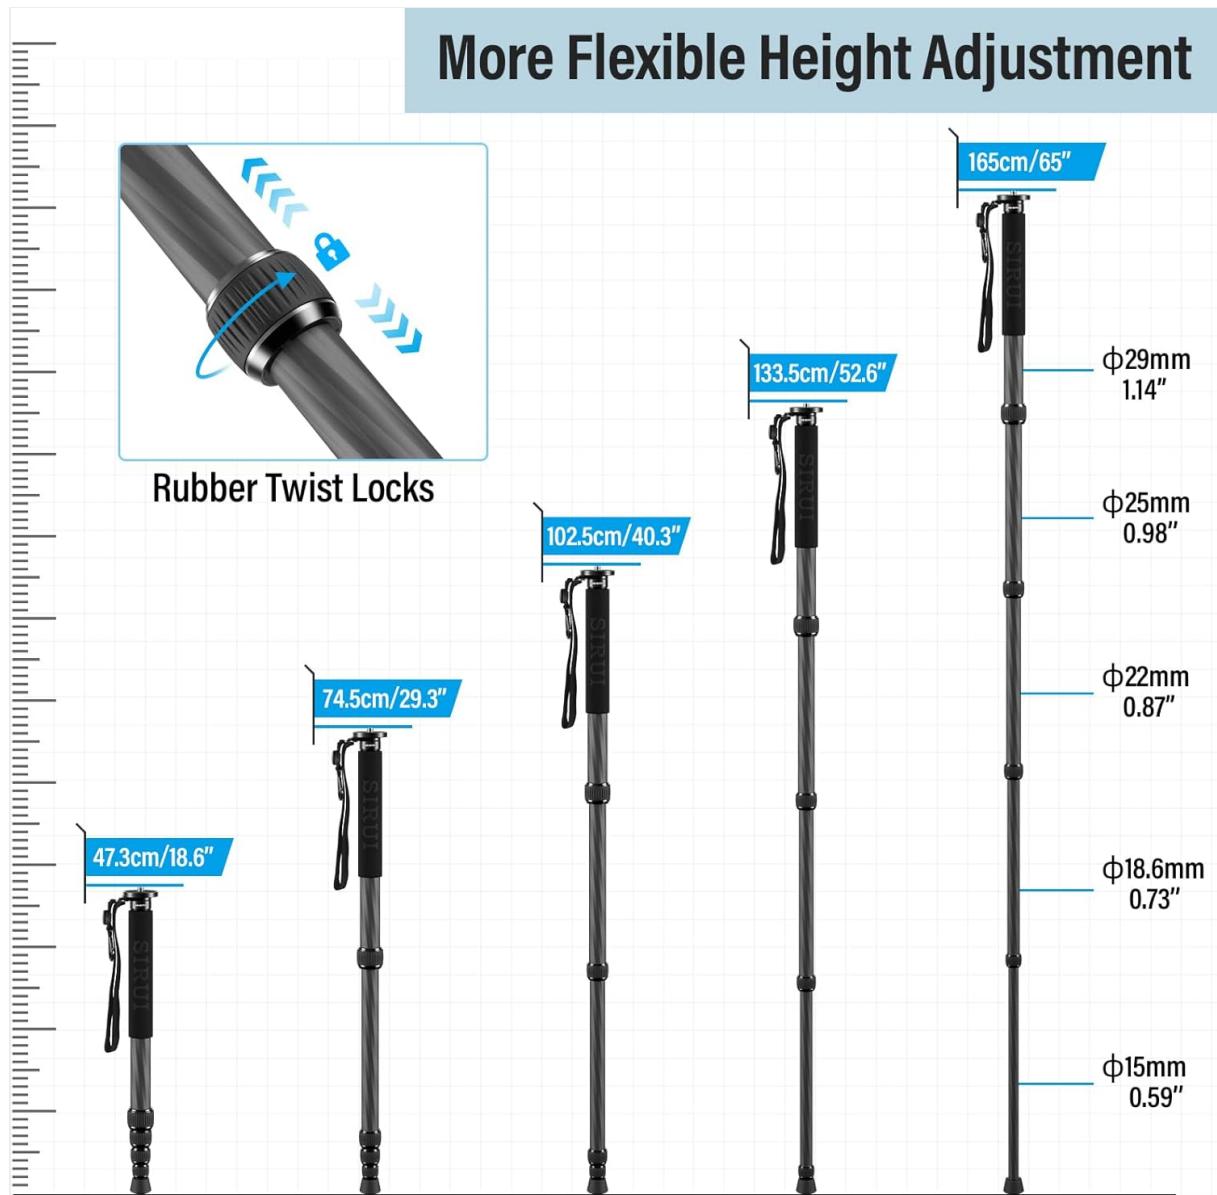

Image: Twist lock mechanism and height adjustment examples.

### 2. Using the Smartphone Clamp

The smartphone clamp allows for flexible positioning of your phone.

- Once your phone is secured in the clamp, you can rotate it 360 degrees to switch between portrait and landscape modes without re-mounting.
- The clamp also has a 1/4" threaded hole for attaching additional accessories like a magic arm or external light.

## Included Smartphone Clamp

### 3. General Usage Tips

- Always ensure all sections are securely locked before placing a camera or device on the monopod.
- When using with a heavy camera, maintain a firm grip on the monopod for added stability.
- The monopod can also function as a hiking stick for support during outdoor activities.

# Suitable for Various Scenarios

**Landscape Capturing**

**Livestreaming**

**Sport Shooting**

\*Only the Monopod and the Phone Clamp is included.

## MAINTENANCE

- **Cleaning:** Wipe the monopod with a soft, dry cloth after each use to remove dust and dirt. For stubborn grime, use a slightly damp cloth and mild soap, then dry thoroughly. Avoid harsh chemicals.
- **Lubrication:** The twist locks are designed for smooth operation. Avoid applying lubricants unless specifically instructed by SIRUI support, as this can attract dirt and affect performance.
- **Storage:** Store the monopod in its carrying bag in a cool, dry place away from direct sunlight and extreme temperatures.
- **Inspection:** Periodically check all screws and connections to ensure they are tight. If any part appears damaged or loose, discontinue use and contact customer support.

## TROUBLESHOOTING

- **Monopod sections not locking securely:** Ensure the twist locks are fully tightened clockwise. If the

issue persists, check for any debris or foreign objects inside the locking mechanism. Clean as per maintenance instructions.

- **Camera/accessory feels wobbly:** Verify that the mounting screw is fully tightened to your device. Ensure the device itself is properly secured to the mounting plate.
- **Smartphone clamp not holding phone:** Check that the clamp is fully extended to accommodate your phone's width and that the phone is centered within the clamp's jaws.

## SPECIFICATIONS

---

Feature	Specification
Product Model	AM-MDP01
Material	Carbon Fiber
Sections	5
Product Weight	0.41 kg (0.9 lbs)
Max Load	10 kg (22 lbs)
