## 3. PRODUCT OVERVIEW

Familiarize yourself with the main components of the ARROWMAX SGS Mini Engraving Pen:

- **Aluminium Alloy Body:** Provides durability and a comfortable grip.
- **Power Button:** Used to turn the device on and off.
- **Working Status Indicator:** Displays battery level and rotation direction.
- **Magnetic Charging Port:** For convenient and secure charging.
- **Chuck:** Secures the engraving or polishing bits.

## 4. SETUP

### 4.1. Charging the Device

1. Connect the provided USB charging cable to the magnetic charging port on the engraving pen.
2. Plug the other end of the USB cable into a 5V USB power adapter (not included) or a computer USB port.
3. The working status indicator lights will illuminate to show the charging progress. A full charge typically takes approximately 90 minutes and provides up to 90 minutes of runtime.

### 4.2. Installing Engraving/Polishing Bits

1. Ensure the engraving pen is turned off before installing or changing bits.
2. Gently insert the desired engraving or polishing bit into the chuck at the tip of the pen.
3. Twist the chuck clockwise to securely tighten the bit. Ensure the bit is firmly seated and does not wobble.
4. To remove a bit, twist the chuck counter-clockwise to loosen, then carefully pull the bit out.

## 5. OPERATION

### 5.1. Powering On/Off

Press and hold the Power Button for a few seconds to turn the engraving pen on or off.

### 5.2. Adjusting Speed and Direction (Manual and App)

The ARROWMAX SGS Mini offers precise control over speed and rotation direction:

- **Manual Control:** The device has default speed settings.
- **Smartphone App Control (Optional):** For enhanced precision, download the ARROWMAX app (available on Android and iOS). Connect the pen via Bluetooth to the app. The app allows you to:
  - Customize speed in increments of 1000 RPM, ranging from 10,000 RPM to 20,000 RPM.
  - Toggle between forward and reverse rotation modes.

### 5.3. Engraving and Polishing Techniques

Hold the pen like a regular writing instrument. Apply gentle, consistent pressure. Practice on scrap materials before working on your final piece. The appropriate bit and speed will vary depending on the material and desired effect.

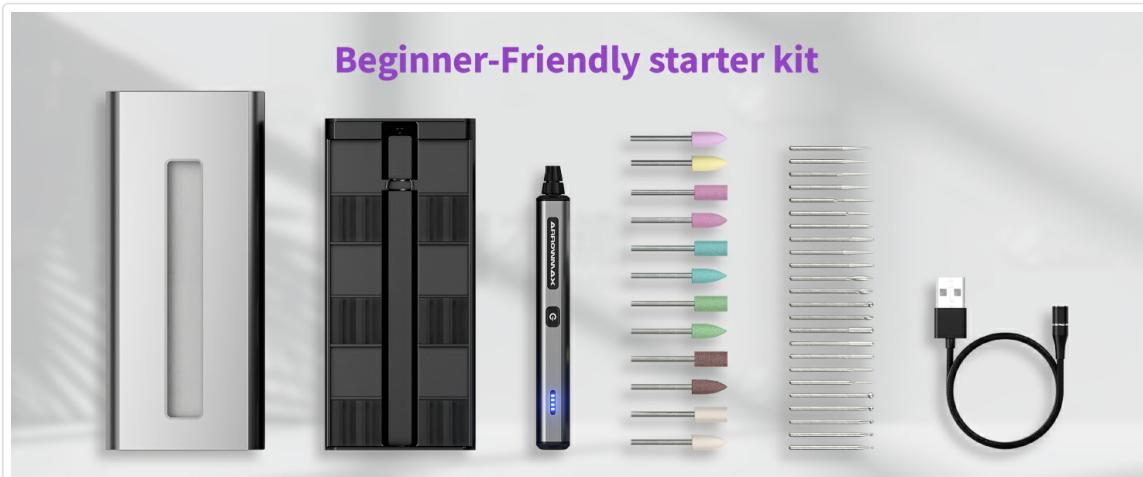

Image: A visual guide demonstrating three steps: 1. Choose your surface (e.g., glass bottle), 2. Create with precision (engraving a design), 3. Share your masterpiece (finished engraved bottle).

### 6. ACCESSORY GUIDE

The ARROWMAX SGS Mini comes with a comprehensive set of 36 accessories, including 24 engraving bits and 12 polishing bits. These bits are designed for various applications on different materials:

- **Engraving Bits:** Used for carving, etching, and detailing on materials like wood, glass, metal, and plastic. Different shapes and sizes allow for fine lines, broader strokes, and intricate patterns.
- **Polishing Bits:** Used for smoothing surfaces, removing minor imperfections, and bringing a shine to materials such as jewelry, metal, and certain plastics.

## 7. MAINTENANCE

- **Cleaning:** After each use, gently wipe the pen body with a soft, dry cloth. Use a small brush to remove any dust or debris from the chuck area.
- **Bit Storage:** Store engraving and polishing bits in their designated slots within the storage case to prevent damage and loss.
- **Battery Care:** To prolong battery life, avoid fully discharging the device frequently. Charge it regularly, even if not in use for extended periods.
- **General Care:** Keep the device away from moisture, extreme temperatures, and direct sunlight.

## 8. TROUBLESHOOTING

- **Device not turning on:** Ensure the battery is charged. Connect the charging cable and allow it to charge for at least 15 minutes before attempting to power on again.
- **Bit wobbles or falls out:** Ensure the bit is correctly inserted and the chuck is tightened securely. Do not overtighten.
- **Reduced performance:** Check if the bit is worn out and needs replacement. Ensure the battery is sufficiently charged.
- **App connectivity issues:** Ensure Bluetooth is enabled on your smartphone and the engraving pen is within range. Restart both the app and the pen if issues persist.

If you encounter persistent issues not covered here, please refer to the support information provided in Section 11.
