SETUP AND CRYSTAL ACCESSORY CREATION

Follow these steps to create your crystal accessories:

1. **Prepare Your Workspace:** Ensure you have a clean, flat surface. Cover the surface if desired to protect it from resin spills. Work in a well-ventilated area.
2. **Pour the Resin:** Carefully pour the liquid resin into the desired molds. Fill the molds completely but avoid overfilling.

3. **Set in Sunlight:** Place the filled molds in direct sunlight for a few minutes. The resin will harden and cure. Curing time may vary depending on sunlight intensity.
4. **Remove Crystals:** Once the resin is fully hardened, gently pop the crystal shapes out of their molds.
5. **Smooth Edges (Optional):** If any edges are rough, use the included sandpaper to gently smooth them.
6. **Attach Hardware:** Snap the cured crystal pieces into the corresponding accessory hardware (e.g., sunglasses frames, earring posts, purse handle, headband base, ring base).

Maintenance and Care

- **Doll Hair Care:** Use the included comb to gently brush the doll's hair. For best results, wet the hair slightly before combing to detangle.
- **Doll Cleaning:** Wipe the doll's body with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Accessory Care:** Keep crystal accessories away from extreme heat or prolonged direct sunlight after curing to prevent discoloration or damage. Clean with a soft, dry cloth.
- **Storage:** Store the doll and accessories in a clean, dry place away from dust and direct sunlight when not in use.

Troubleshooting

Common Issues and Solutions

Issue	Possible Cause	Solution
Resin does not harden.	Insufficient sunlight exposure; resin not mixed properly (if applicable).	Place molds in direct, strong sunlight for a longer period. Ensure resin is thoroughly mixed if it's a two-part system (though this kit appears to be single-part UV resin).
Crystal accessories do not fit hardware.	Resin overflowed molds; crystal not fully seated.	Gently trim excess resin with a small craft knife (adult supervision required) or use sandpaper to smooth edges. Ensure crystal is aligned correctly before snapping into hardware.
Doll's hair is tangled.	Regular play; lack of brushing.	Lightly mist hair with water and use the included comb to gently brush from ends to roots.
