MGA's Miniverse 522546

MGA's Miniverse Make It Mini Dinosaurs Jurassic World Instruction Manual

Brand: MGA's Miniverse | Model: 522546

INTRODUCTION

Welcome to the world of MGA's Miniverse Make It Mini Dinosaurs! This kit allows you to create realistic baby dinosaur replicas from the Jurassic World film series. Each mystery capsule contains all the necessary mini supplies and accessories to bring your dinosaur to life. There are 12 unique dinosaurs to collect, offering an exciting surprise with every unboxing.

This manual provides step-by-step instructions for assembly, operation, and care of your Make It Mini Dinosaurs kit. Please read all instructions carefully before beginning.

WHAT'S IN THE BOX

Your MGA's Miniverse Make It Mini Dinosaurs kit includes the following components:

- 1x Mystery Capsule (transforms into an incubator display)
- 1x Dinosaur Egg or Hybrid Cylinder (contains surprise dinosaur)
- 1x Biosyn Genetics Briefcase (contains liquid DNA vial)
- 1x Biosyn Genetics Pouch (contains dry DNA powder vial, mini spoon, and pipette)
- 1x Instruction Guide/Collector's Guide

Figure 1: All components included in the Make It Mini Dinosaurs kit.

SETUP

Before you begin creating your mini dinosaur, ensure you have a clean, flat surface to work on.

1. **Unbox the Capsule:** Carefully peel off the outer wrapping of the mystery capsule. The capsule itself will serve as your incubator display.
2. **Open the Capsule:** Open the capsule to reveal the dinosaur egg or hybrid cylinder and the sealed pouches containing your mini supplies.
3. **Identify Components:** Remove all items from the capsule. You should find a dinosaur egg or hybrid cylinder, a Biosyn Genetics briefcase, a Biosyn Genetics pouch, and an instruction guide.

SHAKE AND CRACK TO REVEAL!

OPERATING INSTRUCTIONS: MAKE IT MINI DINOSAURS

Follow these steps to create your baby dinosaur:

1. **Scan the QR Code:** Locate the QR code on your dinosaur egg or the collector's guide. Scan it with a smart device to learn fascinating information about your specific dinosaur species.
2. **Open the Egg/Cylinder:** Use the provided Biosyn Genetics key to carefully open the top of your dinosaur egg or hybrid cylinder.
3. **Add Dry DNA Powder:** Open the vial containing the dry DNA powder (Species 7002). Using the mini spoon, add 1-3 scoops of the powder into the opening of the dinosaur egg/cylinder. Close the powder vial tightly after use.
4. **Extract Liquid DNA:** Open the Biosyn Genetics briefcase to access the liquid DNA vial (Species 5201). Use the pipette to extract the liquid DNA from the vial.
5. **Add Liquid DNA to Egg/Cylinder:** Carefully add the extracted liquid DNA into the opening of the dinosaur egg/cylinder.
6. **Close the Egg/Cylinder:** Use the Biosyn Genetics key to securely close the top of the dinosaur egg or hybrid cylinder.

7. **Shake to Mix:** Shake the egg or hybrid cylinder vigorously for at least 10 seconds to thoroughly mix the DNA powder and liquid. You will observe the materials beginning to separate.
8. **Crack Open to Reveal:** Once the materials have separated and your dinosaur is visible, gently crack open the egg or cylinder on a hard surface to fully reveal your baby dinosaur.
9. **Display Your Dinosaur:** The bottom half of your mystery capsule transforms into an incubator display. Place your newly revealed dinosaur inside the display. You can choose to keep the top clear dome open or closed.

MAINTENANCE

To ensure the longevity of your mini dinosaur and display:

- Wipe the display capsule with a soft, dry cloth to remove dust.
- Store the completed dinosaur and display in a cool, dry place away from direct sunlight to prevent degradation of the materials.
- Clean the pipette and mixing spoon with soap and water after each use.

TROUBLESHOOTING

If you encounter any issues during the creation process, consider the following tips:

- **Difficulty Mixing:** Use the pipette to remove some liquid from inside the egg to create more liquid movement within the egg, allowing for better mixing.
- **Materials Not Separating:** Ensure the egg/cylinder was shaken vigorously for the recommended time. Allow additional time for the materials to settle and separate.
- **Powder/Liquid Spillage:** Do not leave the egg, sphere, cylinder, or liquid DNA container open. Immediately add dry and liquid DNA, then close the containers to prevent spillage.

SPECIFICATIONS

- **Product Dimensions:** 3.75 x 3.75 x 3.75 inches
- **Item Weight:** 4.3 ounces
- **Item Model Number:** 522546
- **Manufacturer Recommended Age:** 8 - 12 years
- **Release Date:** June 10, 2025
- **Manufacturer:** MGA Entertainment
