## GarveeHome FHJMRQ240625196z

# GarveeHome Queen Upholstered Platform Bed Frame User Manual

Model: FHJMRQ240625196z

## 1. IMPORTANT SAFETY INFORMATION

---

Please read and understand all instructions before assembly and use. Keep this manual for future reference.

- Keep away from young children and pets to prevent choking hazards.
- Do not exceed the weight capacity of **800 pounds** to ensure stability.
- Be cautious of sharp edges and heavy components during assembly.
- Ensure all connections are securely fastened before use.

## 2. PRODUCT OVERVIEW

---

The GarveeHome Queen Linen Upholstered Platform Bed Frame is designed for comfort, durability, and practical storage. It features a sturdy wooden slat support system, an adjustable headboard, and four integrated storage drawers.

### Key Features:

- **Solid Support:** 12 durable wooden slats and EVA sponge strips for quiet sleep, supporting up to 800 pounds.
- **Luxurious Linen Fabric:** Breathable, durable, and easy-to-clean linen upholstery with an elegant vertical pattern.
- **Adjustable Headboard:** Customize height from 42.9" to 45.7" to accommodate mattresses of 6-12 inches.
- **Smart Storage:** Four spacious drawers (27.6"L x 19.7"W x 5.5"H) with wheels and fixtures for easy organization.
- **Silent Slumber Design:** Strong wooden slats, magic stickers, and a center support leg minimize noise.
- **No Box Spring Needed:** Designed for direct mattress placement.

### 3. SETUP AND ASSEMBLY

---

Assembly of your GarveeHome bed frame is designed to be straightforward. All necessary components and a detailed installation manual are included in the package. Please follow the step-by-step instructions provided in the physical manual for optimal results.

#### 3.1. Pre-Assembly Checklist

- Verify all parts are present according to the parts list in your installation manual.
- Ensure you have adequate space for assembly.
- Gather any required tools (e.g., screwdriver, wrench) if not provided.

#### 3.2. Assembly Steps (General Guidance)

1. Begin by assembling the main frame components, including the side rails and footboard.
2. Attach the adjustable headboard to the main frame. Ensure it is set to your desired height for your mattress.
3. Install the wooden slats across the frame. Ensure the EVA sponge strips are correctly positioned to prevent noise.
4. Assemble the four storage drawers and insert them into their designated slots under the bed frame.
5. Double-check all screws and connections for tightness and stability.

Figure 3.3: Illustration demonstrating the adjustable headboard feature, allowing height customization from 42.9" to 45.7" to fit various mattress thicknesses.

## 4. OPERATING INSTRUCTIONS

---

### 4.1. Using the Adjustable Headboard

The headboard can be adjusted to accommodate mattresses ranging from 6 to 12 inches in thickness. To adjust, loosen the securing bolts on the headboard risers, slide the headboard to the desired height, and then re-tighten the bolts firmly.

### 4.2. Utilizing Storage Drawers

The bed frame includes four spacious storage drawers. Each drawer is equipped with heavy-duty wheels for smooth operation and a small screw fixture to prevent accidental slipping out. Simply pull the drawers out to access your stored items and push them back in when finished.

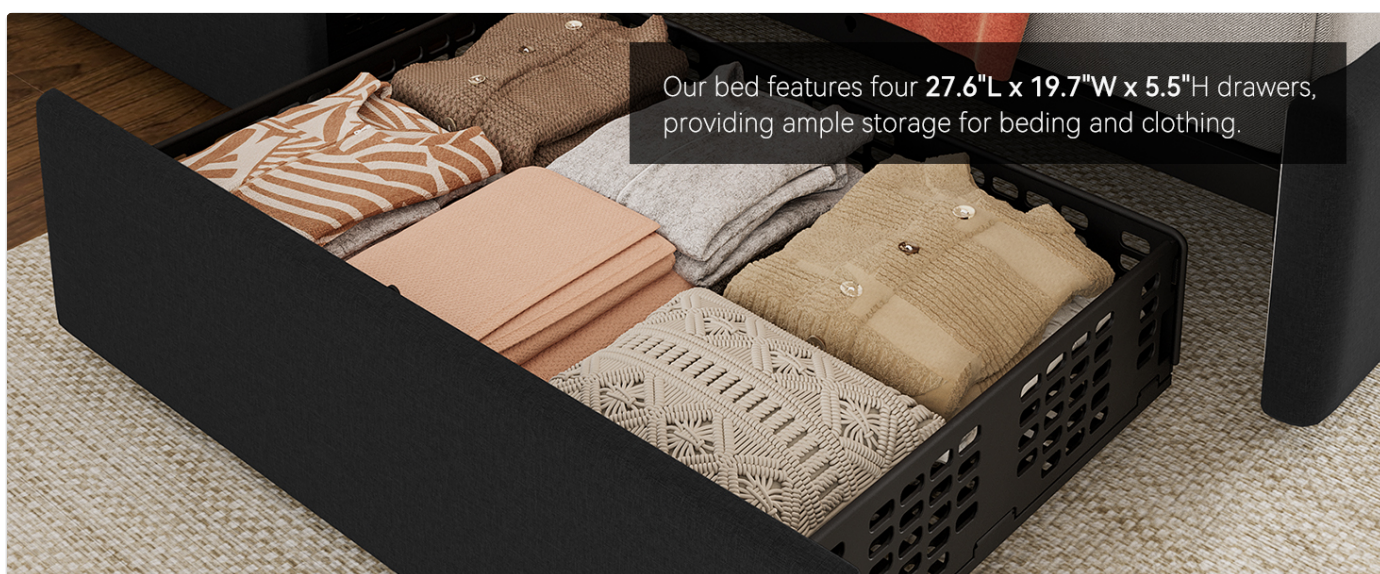

Figure 4.1: An illustration showing the ample storage capacity of the four drawers, suitable for bedding and clothing. Each drawer measures 27.6" L x 19.7" W x 5.5" H.

## Drawers Fixtures Design

Each drawer comes with a small screw, aligning with the hole to prevent from slipping out.

Figure 4.2: Detail of the drawer fixture design, which includes a small screw aligning with a hole to prevent the drawer from slipping out during use.

## Convenient Drawer Wheels

Each drawer is equipped with 4 heavy-duty wheels, providing smooth and sturdy support for easy sliding in and out.

Figure 4.3: Close-up of the heavy-duty wheels on each drawer, designed for smooth and sturdy support when sliding the drawers in and out.

### 4.3. Mattress Placement

Place your mattress directly onto the wooden slats. The extended footboard is designed to prevent the mattress from slipping, ensuring it stays securely in place.

• Embedded Design

• No Slipping

### Non-Slip Mattress Design

The extended footboard effectively prevents the mattress from sliding.

Figure 4.4: Diagram illustrating the non-slip mattress design, where the embedded frame and extended footboard prevent mattress movement.

## 5. MAINTENANCE AND CARE

### 5.1. Cleaning the Linen Fabric

- For general cleaning, gently vacuum the linen fabric using an upholstery attachment to remove dust and debris.
- For spills, blot immediately with a clean, dry cloth. Do not rub, as this can spread the stain.
- For tougher stains, use a mild fabric cleaner specifically designed for upholstery. Test on an inconspicuous area first.
- Avoid using harsh chemicals or abrasive cleaners, as these can damage the fabric.

### 5.2. Frame and Slats Maintenance

- Periodically check all bolts and screws to ensure they remain tight. Re-tighten if necessary to maintain stability and prevent creaking.
- Wipe down the metal frame components with a soft, damp cloth.
- Ensure the area under the bed is kept clean to prevent dust accumulation, which can affect drawer movement.

## 6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed frame creaks or makes noise.	Loose bolts or connections; slats not properly seated; missing EVA sponge strips.	Check and tighten all bolts and screws. Ensure all wooden slats are correctly positioned and the EVA sponge strips are intact.
Drawers do not slide smoothly or get stuck.	Obstruction in the drawer path; wheels are dirty or damaged; drawer overloaded.	Clear any obstructions. Clean drawer wheels and tracks. Reduce the weight in the drawers. Ensure drawers are correctly aligned with their fixtures.
Mattress slides on the frame.	Mattress not properly aligned; non-slip features not effective.	Ensure the mattress is centered on the frame and pushed against the footboard. Verify the non-slip design features are correctly installed.

Problem	Possible Cause	Solution
Headboard is wobbly.	Headboard attachment bolts are loose.	Re-tighten the bolts securing the headboard to the bed frame.

## 7. SPECIFICATIONS

---

Attribute	Detail
Brand	GarveeHome
Model Number	FHJMRQ240625196z
Size	Queen
