Kircuit 9V In-Car Power Supply Adapter

Kircuit 9V In-Car Power Supply Adapter for Bush BDVD26121
DVD Player User Manual

Model: 9V In-Car Power Supply Adapter

1. INTRODUCTION

This manual provides essential instructions for the safe and effective use of your Kircuit 9V In-Car Power Supply Adapter. This adapter is specifically designed to power or charge your Bush BDVD26121 DVD player from your vehicle's power outlet. Please read this manual thoroughly before use and retain it for future reference.

2. PRODUCT OVERVIEW

The Kircuit 9V In-Car Power Supply Adapter is a high-quality, reliable solution for powering your compatible DVD player on the go. It features robust construction and built-in protection mechanisms to ensure safe operation.

Figure 1: Kircuit 9V In-Car Power Supply Adapter. This image shows the compact design of the adapter with its barrel connector, ready for use in a vehicle.

Key Features:

- **Compatibility:** Specifically designed for the Bush BDVD26121 DVD player.
- **Vehicle Compatibility:** Operates in 12V or 24V vehicle power outlets (cars, campervans, caravans).
- **Safety Features:** Includes built-in dynamic IC, charger IC, and power fuse for rapid charging and overcharge protection.
- **Portability:** Compact design for convenient use while traveling.

3. SETUP INSTRUCTIONS

1. **Identify Vehicle Power Outlet:** Locate the 12V or 24V DC power outlet (often called a cigarette lighter socket) in your vehicle.
2. **Connect to Vehicle:** Insert the larger end of the Kircuit In-Car Power Supply Adapter firmly into the vehicle's power outlet. Ensure a secure connection.
3. **Connect to DVD Player:** Insert the barrel connector end of the adapter into the DC input port of your Bush BDVD26121 DVD player.
4. **Verify Connection:** Ensure both ends of the adapter are securely connected before operating the DVD player.

Important: Only use this adapter with compatible devices as specified (Bush BDVD26121 DVD player) to prevent damage.

4. OPERATING INSTRUCTIONS

Once the adapter is correctly connected to both your vehicle's power outlet and the Bush BDVD26121 DVD player, you can proceed with operation:

1. **Start Vehicle (if necessary):** For some vehicles, the power outlet may only be active when the ignition is on or the engine is running.
2. **Power On DVD Player:** Turn on your Bush BDVD26121 DVD player using its power button. The adapter will now supply the necessary power for operation or battery charging.
3. **Monitor Operation:** Observe the DVD player's power indicator to confirm it is receiving power.
4. **Disconnect Safely:** When finished, first turn off the DVD player, then disconnect the adapter from the DVD player, and finally from the vehicle's power outlet.

5. MAINTENANCE

To ensure the longevity and optimal performance of your Kircuit In-Car Power Supply Adapter, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the adapter clean. Do not use liquid cleaners or solvents.
- **Storage:** Store the adapter in a cool, dry place away from direct sunlight and extreme temperatures when not in use.
- **Cable Care:** Avoid bending or kinking the cable excessively. Do not place heavy objects on the cable.
- **Inspection:** Periodically inspect the adapter and cable for any signs of damage, such as frayed wires or cracked casing. Discontinue use if damage is found.

6. TROUBLESHOOTING

If you encounter issues with your Kircuit In-Car Power Supply Adapter, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
DVD player not powering on.	Loose connection.	Ensure the adapter is firmly seated in both the vehicle's power outlet and the DVD player's DC input.
DVD player not powering on.	Vehicle power outlet inactive.	Check if the vehicle's ignition needs to be on or the engine running for the power outlet to be active. Test the outlet with another device if possible.
Adapter feels warm.	Normal operation.	It is normal for power adapters to generate some heat during operation. If it becomes excessively hot or emits smoke/smell, disconnect immediately.
Adapter or cable appears damaged.	Physical damage.	Discontinue use immediately. Do not attempt to repair. Contact customer support for assistance.
