Pure 252449

Pure Moment Bedside & Office Alarm Clock User Manual

Model: 252449 | Brand: Pure

INTRODUCTION

This manual provides comprehensive instructions for the setup, operation, and maintenance of your Pure Moment Bedside & Office Alarm Clock. Designed to enhance your sleep hygiene and daily routine, this device combines a DAB+/FM digital radio, Bluetooth connectivity, a sleep sound white noise machine, a wake-up light, and a dimmable display. Please read this manual thoroughly to ensure optimal performance and longevity of your product.

SETUP

Before using your Pure Moment alarm clock, follow these steps for initial setup.

1. Power Connection

Connect the provided power adapter to the DC input port on the back of the alarm clock. Plug the adapter into a standard wall outlet. The device will power on automatically.
The Pure Moment alarm clock also includes a backup battery feature, requiring 9V batteries (included) to retain settings during a power outage. Ensure these are correctly installed.

2. Initial Time and Date Setting

Upon first power-on, the clock will attempt to synchronize time and date via DAB+ radio signal. If a signal is not immediately available, you may need to set the time manually. Refer to the "Operating Instructions" section for manual time setting.

3. Radio Antenna Placement

For optimal DAB+ and FM radio reception, fully extend the wire antenna located at the back of the unit. Position it vertically and away from other electronic devices that may cause interference.

OPERATING INSTRUCTIONS

This section details the functions of your alarm clock and how to use them.

1. Controls Overview

The Pure Moment alarm clock features intuitive controls located on the top panel. Familiarize yourself with these buttons and the rotary dial for easy navigation.

Control	Function
Rotary Dial / **Select Button**	Rotate to navigate menus or adjust volume/brightness. Press to confirm selection.
Power / **Mode Button**	Press to turn on/off. Hold to switch between DAB+, FM, Bluetooth, and Sleep Sound modes.
Alarm Button	Press to set or review alarms. Hold to enter alarm setup menu.
Sleep Button	Activates sleep timer or sleep sound mode.
Light Button	Adjusts night light brightness or activates wake-up light preview.
Display Button	Adjusts display brightness.

2. Radio Operation (DAB+/FM)

Your alarm clock supports both DAB+ digital radio and traditional FM radio.

- **Switching Modes:** Press and hold the Power/Mode button to cycle between DAB+ and FM modes.
- **Scanning for Stations:** In DAB+ mode, the device will automatically scan for available stations. In FM mode, rotate the dial to manually tune or press the dial to auto-scan for the next available station.
- **Saving Presets:** To save a favorite station, tune to the desired station, then press and hold the Rotary Dial/Select button until the preset menu appears. Rotate the dial to select a preset number and press to confirm.

Crystal-clear audio from a punchy speaker with seamless Bluetooth 5.3, DAB+, and FM radio

3. Bluetooth Connectivity

Connect your smartphone or other Bluetooth-enabled devices to stream audio wirelessly.

1. Press and hold the Power/Mode button until "Bluetooth" mode is selected. The display will show "Pairing".
2. On your device, enable Bluetooth and search for "Pure Moment".
3. Select "Pure Moment" from the list to pair. Once connected, the display will show "Connected".

4. Alarm Settings

Set up to 10 personalized alarms with various options.

1. Press and hold the Alarm button to enter the alarm setup menu.
2. Rotate the dial to select an alarm slot (e.g., Alarm 1) and press to confirm.
3. Follow the on-screen prompts to set the alarm time, days of the week, alarm source (radio, buzzer, or sleep sound), and volume.
4. You can also enable or disable the wake-up light function for each alarm.
5. Press the Alarm button briefly to preview active alarms.

5. Sleep Sounds and White Noise

Utilize over 20 soothing natural sounds to aid relaxation and sleep.

- Press the Sleep button to activate the sleep sound mode.
- Rotate the dial to browse through the available sounds, including various white noise options.
- Press the dial to select a sound. You can also set a sleep timer for the sound to automatically turn off after a set duration.

Create a tranquil sleep environment with over 20 soothing sounds, incl. White Noise

Image: The alarm clock displaying a 'Zen' sound option, promoting a tranquil environment.

6. Display and Night Light Adjustment

Customize the display brightness and utilize the integrated night light.

- **Dimmable Clock Display:** Press the Display button repeatedly to cycle through brightness levels for the monochrome LCD display. This helps minimize light disruption during sleep.
- **Night Light:** Press the Light button to turn on the night light. Rotate the dial to adjust its brightness.
- **Sunrise Function:** If enabled with an alarm, the wake-up light will gradually brighten before your alarm time, simulating a natural sunrise.

Fully dimmable night light with sunrise-alarm function

MAINTENANCE

Proper care ensures the longevity and optimal performance of your Pure Moment alarm clock.

- **Cleaning:** Disconnect the power adapter before cleaning. Use a soft, dry, lint-free cloth to wipe the surfaces. Do not use abrasive cleaners, waxes, or solvents.
- **Placement:** Place the unit on a stable, flat surface. Avoid direct sunlight, heat sources, and areas with high humidity or dust.
- **Ventilation:** Ensure adequate ventilation around the unit. Do not block any ventilation openings.

TROUBLESHOOTING

If you encounter issues with your alarm clock, refer to the following common problems and solutions.

Problem	Solution

Problem	Solution
No Power / Display Off	Ensure the power adapter is securely connected to both the unit and a working wall outlet. Check if the power outlet is active.
Poor Radio Reception	Fully extend and reposition the wire antenna. Try moving the unit to a different location, away from other electronic devices or large metal objects. Perform a new station scan.
Bluetooth Pairing Failure	Ensure the alarm clock is in Bluetooth pairing mode. Make sure Bluetooth is enabled on your device and it is within range (approx. 10 meters). Forget "Pure Moment" from your device's Bluetooth list and try pairing again.
Alarm Not Sounding	Verify the alarm is enabled and set for the correct time and days. Check the alarm volume setting. Ensure the unit is powered on or has working backup batteries.
Display Too Bright/Dim	Press the Display button to adjust brightness levels. If auto-dimming is active, check ambient light conditions.

SPECIFICATIONS

| Feature	Detail
Model Number	252449
Dimensions (L x W x H)	15.5 x 3.81 x 11.5 cm
