2. Inserting SIM and Micro SD Card

The T40PRO supports dual SIM cards and a Micro SD card for expandable storage up to 2TB. Use the provided tool to open the SIM tray.

1. Locate the SIM tray on the side of the tablet.
2. Insert the SIM ejector tool into the small hole next to the tray and press gently until the tray pops out.
3. Place your Nano-SIM cards and/or Micro SD card into the designated slots on the tray. Ensure correct orientation.
4. Carefully push the tray back into the tablet until it clicks into place.

Cameras

Capture moments with the tablet's 8MP front camera and 16MP rear camera.

Audio

Experience immersive sound with the T40PRO's quad speakers. A 3.5mm headphone jack is available for private listening, and it supports FM radio.

Connectivity and Navigation

The tablet supports 5G/2.4G dual-band Wi-Fi and Bluetooth 5.0 for enhanced connectivity. For navigation, it includes built-in support for GPS, Galileo, Beidou, and Glonass systems.

Operating System and Software

The DOOGEE T40PRO runs on the latest Android 14 operating system, offering enhanced privacy and multitasking features. It is

GMS certified, allowing full access to the Google Play Store for downloading apps like WhatsApp, Gmail, Disney+, Netflix, and YouTube. WPS Office is pre-installed for document editing and file scanning.

MAINTENANCE

Battery Care

To maximize the lifespan of your 10,800mAh battery, avoid extreme temperatures and use only the provided charger. Regular, full charge cycles are recommended.

Cleaning Your Tablet

Use a soft, lint-free cloth to clean the screen and body of the tablet. Avoid abrasive materials or harsh chemicals.

Software Updates

Periodically check for system updates to ensure optimal performance and security. Updates can typically be found in the tablet's settings menu or on the official DOOGEE website.

TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|---------------------------|--|--|
| Tablet does not turn on | Low battery; software crash | Charge the tablet for at least 30 minutes. Press and hold the power button for 10-15 seconds to force a restart. |
| Apps are slow or crashing | Too many apps running; insufficient storage; outdated app/OS | Close background apps. Clear app cache. Check for system and app updates. Free up storage space. |
| Cannot connect to Wi-Fi | Incorrect password; router issue; Wi-Fi disabled | Ensure correct Wi-Fi password. Restart your router. Toggle Wi-Fi off and on on the tablet. |
| SIM card not detected | Improperly inserted SIM; faulty SIM card | Reinsert the SIM card, ensuring it is correctly seated. Test with another SIM card if possible. |
