WilTec 65087

Compost Spreader User Manual

Brand: WilTec

Model: 65087

1. INTRODUCTION

This manual provides essential information for the safe and efficient operation, assembly, and maintenance of your WilTec Compost Spreader. Designed for garden enthusiasts, this tool facilitates the even distribution of compost, manure, lime, and seeds. With a generous 75-liter capacity and a 60 cm working width, it is built for durability and ease of use in various gardening tasks. Please read this manual thoroughly before using the product.

2. SAFETY INSTRUCTIONS

Always observe the following safety precautions to prevent injury and damage to the equipment.

- Read and understand all instructions before operation.
- Wear appropriate personal protective equipment, such as gloves and sturdy footwear.
- Ensure the spreader is stable on level ground before filling or emptying.
- Do not overload the spreader beyond its stated capacity.
- Keep hands and feet clear of moving parts during operation.
- Store the spreader in a dry, secure location away from children and pets.
- Inspect the spreader for any damage or loose parts before each use.

3. PRODUCT COMPONENTS

The WilTec Compost Spreader consists of the following main components:

- Mesh Basket (75 L capacity, 60 cm working width)
- Ergonomic Handle
- Powder-Coated Steel Frame
- Wing Opening for easy filling
- Double Locking Clips

Figure 3.1: Front view of the WilTec Compost Spreader, showing the mesh basket and handle assembly.

Figure 3.2: Angled view of the WilTec Compost Spreader, highlighting the mesh drum and handle connection.

4. SETUP AND ASSEMBLY

The WilTec Compost Spreader requires some assembly before first use. It is recommended that two people assist with the assembly process for ease and safety.

1. Unpack all components and verify against the parts list.
2. Attach the handle assembly to the main frame using the provided hardware. Ensure all bolts are securely tightened.
3. Confirm the mesh basket is properly seated within the frame and the double locking clips are engaged.
4. Test the wing opening mechanism to ensure it operates smoothly for filling.

5. OPERATING INSTRUCTIONS

Follow these steps for effective use of your compost spreader:

1. **Prepare Material:** Ensure your compost, manure, lime, or seeds are free from large clumps or debris that could obstruct the diamond-shaped holes (approx. 19 x 12 mm).

- 2. **Fill the Spreader:** Open the wing opening on the mesh basket. Carefully fill the basket with your desired material, ensuring not to exceed the 75-liter capacity. Close the wing opening securely with the double locking clips.
- 3. **Positioning:** Place the spreader on the area where you wish to distribute the material.
- 4. **Operation:** Grasp the ergonomic handle firmly. Push the spreader forward at a consistent, moderate pace. The rotating mesh basket will evenly distribute the material through its holes as you move.
- 5. **Even Coverage:** For best results, overlap your passes slightly to ensure uniform coverage across the entire area.
- 6. **Emptying:** Once the material is depleted, open the wing opening and clear any remaining residue.

6. MAINTENANCE

Regular maintenance will extend the life of your WilTec Compost Spreader.

- **Cleaning:** After each use, thoroughly clean the mesh basket and frame to remove any residual material. This prevents clogging and corrosion. Use water and a brush if necessary, then dry completely.
- **Inspection:** Periodically check all bolts, screws, and connections for tightness. Tighten any loose fasteners.
- **Lubrication:** Apply a light lubricant to any moving parts or pivot points as needed to ensure smooth operation.
- **Storage:** Store the spreader in a dry, covered area to protect it from the elements when not in use.

7. TROUBLESHOOTING

Refer to the table below for common issues and their potential solutions.

Problem	Possible Cause	Solution
Material not dispensing evenly or at all.	Material is too wet or clumpy; holes are clogged.	Break up clumps before filling. Clean mesh holes thoroughly. Ensure material is dry enough.
Spreader is difficult to push.	Overloaded; uneven ground; moving parts need lubrication.	Reduce load. Operate on level ground. Lubricate axle and handle pivot points.
Lid/wing opening does not close properly.	Misalignment; debris in hinge/latch.	Check for proper alignment of the lid and latches. Clear any debris from the hinge or locking clips.

8. SPECIFICATIONS

Attribute	Detail
Manufacturer	WilTec
Part Number	65087
Item Weight	21.5 pounds
Product Dimensions	43.31 x 25.2 x 15.75 inches
Item Model Number	65087

Attribute	Detail
Color	Green
Item Package Quantity	1
Batteries Required?	No
Date First Available	February 20, 2025
Capacity	75 Liters
Working Width	60 cm
Hole Dimensions	Approx. 19 x 12 mm (diamond-shaped)

9. WARRANTY AND SUPPORT

Information regarding product warranty and customer support is not provided within this manual. Please refer to the product packaging or the manufacturer's official website for details on warranty coverage and how to contact customer service.
