## NEWQIDA B0D99KGPS8

# NEWQIDA 24V Ride on Dump Truck Instruction Manual

MODEL: B0D99KGPS8

Brand: NEWQIDA

## 1. Safety Information

Read all instructions before operating the NEWQIDA 24V Ride on Dump Truck. Failure to follow these instructions may result in serious injury.

- **Age Recommendation:** Suitable for children aged 3 years and up.
- **Maximum Weight Capacity:** The vehicle supports a maximum weight of 110 lbs.
- **Adult Supervision:** Always ensure an adult supervises the child during operation.
- **Seat Belts:** Ensure the child is securely fastened with the provided seat belts before operation.
- **Dual Control Modes:** For younger drivers, parents can use the remote control to steer, stop, and drive the vehicle. The remote features an emergency stop button and can override manual mode for enhanced safety.
- **Operating Environment:** Use the vehicle on flat, dry surfaces away from roads, pools, or steep inclines. EVA tires provide good grip on various terrains including grass, pavement, and concrete.
- **Certification:** This product is certified by ASTM F963, ensuring compliance with safety standards.

## 2. Setup and Assembly

Follow these steps to assemble your NEWQIDA 24V Ride on Dump Truck. Refer to the installation video for visual guidance.

1. **Unboxing:** Carefully remove all components from the packaging. Verify all parts are present according to the packing list.
2. **Wheel Installation:** Attach the wheels to the vehicle chassis. Ensure all washers and nuts are securely fastened.
3. **Steering Wheel Assembly:** Connect the steering wheel to the steering column and secure it. Connect

any electrical wires as instructed.

4. **Dump Bed Attachment:** Secure the electric dump bed to the rear of the vehicle. Ensure the lifting mechanism is correctly aligned.
5. **Battery Connection:** Locate the battery compartment (typically under the seat) and connect the battery terminals. Ensure a secure connection.
6. **Initial Charge:** Before first use, fully charge the 24V battery for the recommended duration (refer to the charging section for details).

**Video Description:** This video demonstrates the step-by-step installation process for the NEWQIDA Kids Dump Truck, covering assembly of the main body, wheels, steering, and dump bed. It provides clear visual instructions for each stage of setup.

### 3. Components Overview

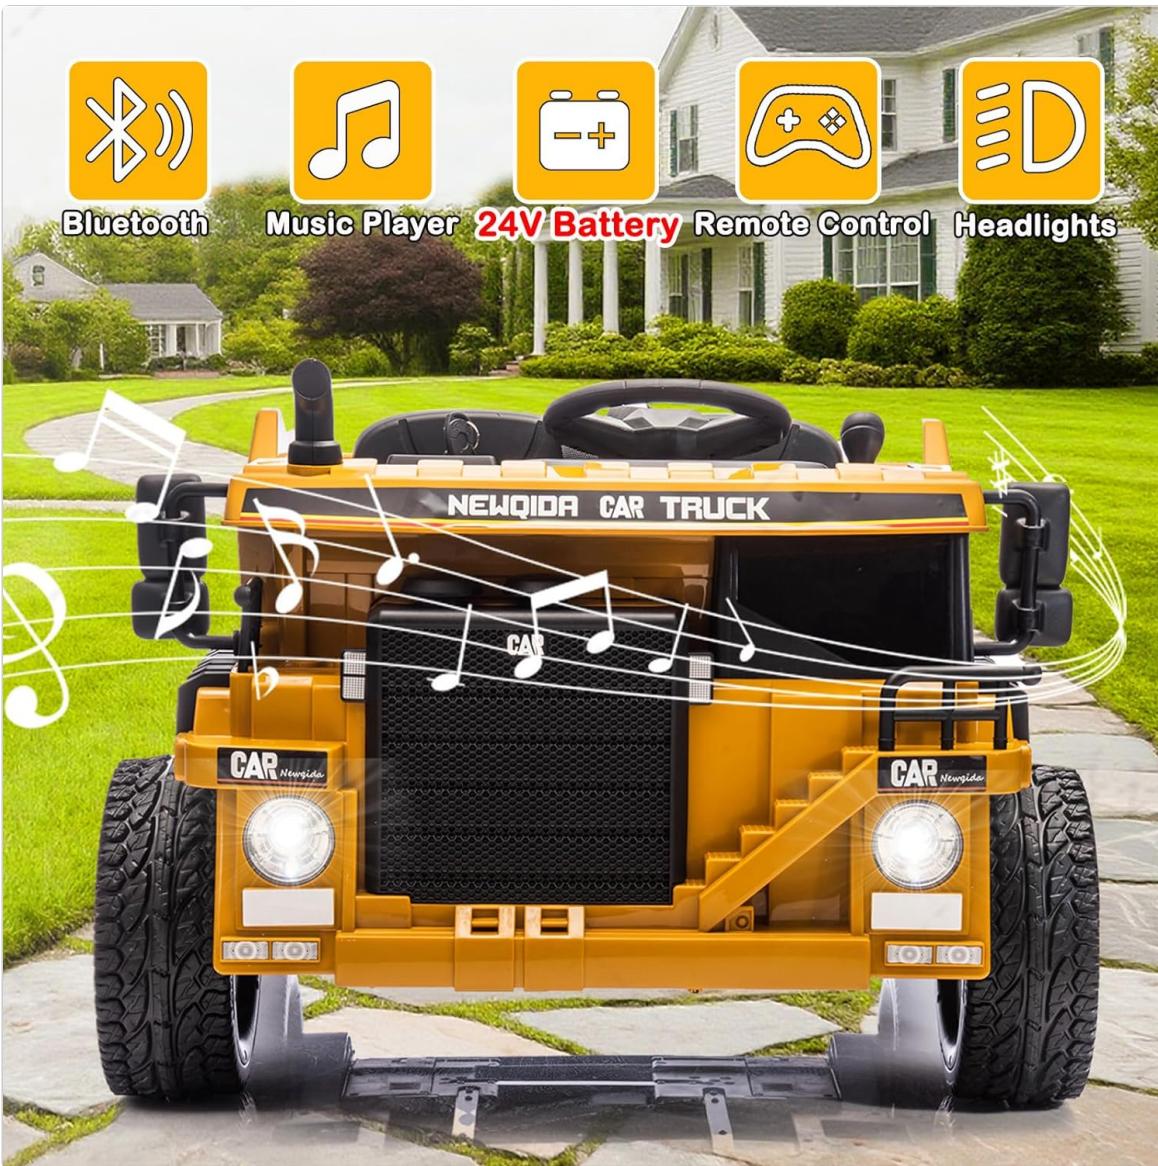

Familiarize yourself with the key components of your NEWQIDA 24V Ride on Dump Truck.

- **24V Battery:** Provides extended run time and stronger performance.
- **2x75W Dual Motors:** Delivers robust power for outdoor adventures.
- **EVA Tires:** Upgraded tires with unique treads for better grip and shock absorption on various terrains.
- **Electric Dumping Bed:** Realistic dump bed that can be automatically lifted and unloaded.
- **Shovel:** Included for interactive play with the dump bed.
- **Remote Control:** Allows parental control with speed settings, steering, and emergency stop.
- **Multifunctional Panel:** Features key start, speed switch, light switch, horn, built-in music, Bluetooth, and USB playback.
- **Soft Start Technology:** Ensures gentle and smooth acceleration.

**Overall Dimensions: 46.06"(W) x 32.28"(D) x 24.21"(H)**

**Image Description:** An overhead view of the NEWQIDA 24V Ride on Dump Truck with two children seated, illustrating the spacious 19-inch seat, 110 lbs maximum weight capacity, and recommended age of 3-8 years. Key features like key start and soft start design are also highlighted.

**Image Description:** A close-up of the vehicle's dashboard and the remote control. The dashboard shows controls for the dump bed, music, horn, key start, speed, and lights. The remote control displays buttons for high/low speed, forward/backward movement, turning, and an emergency brake function.

## 4. Operating Instructions

Learn how to operate your NEWQIDA 24V Ride on Dump Truck safely and effectively.

- **Starting the Vehicle:** Insert the key into the ignition and turn it to the 'ON' position.
- **Manual Drive Mode:** For independent driving, the child can press the foot pedal to accelerate and use the steering wheel to navigate. Use the speed switch on the dashboard to select between high and low speeds.
- **Parental Remote Control Mode:** For younger children or for safety, an adult can use the remote control. The remote allows full control over steering, acceleration (3 speed settings), and braking. Press the 'P' button on the remote for an emergency stop.
- **Dump Bed Operation:** To lift the dump bed, pull out the handle located under the seat. Then, push the joystick on the dashboard to tilt the bed and unload contents.
- **Media Playback:** The multifunctional panel includes built-in music. Connect a USB device or pair via Bluetooth to play custom music or stories.

- **Lights and Horn:** Use the dedicated switches on the dashboard to turn on/off headlights and activate the horn.

**Image Description:** The NEWQIDA 24V Ride on Dump Truck is shown with its electric dumping bed in action, demonstrating how to pull a handle under the seat and use a joystick to tilt the bed for unloading. An included shovel is also visible.

**Video Description:** This video showcases the NEWQIDA 12V Ride On Dump Truck in operation, demonstrating its features such as the electric dump bed, remote control functionality, and overall driving experience for children.

## 5. Maintenance

Proper maintenance ensures the longevity and safe operation of your dump truck.

- **Charging:** Fully charge the battery after each use. Avoid completely draining the battery to prolong its lifespan. Do not overcharge.
- **Cleaning:** Wipe the vehicle with a damp cloth to remove dirt and debris. Avoid using harsh chemicals or abrasive cleaners.
- **Storage:** Store the vehicle in a dry, covered area away from direct sunlight and extreme temperatures.

If storing for an extended period, ensure the battery is fully charged and disconnect it.

- **Tire Inspection:** Regularly check the EVA tires for wear and tear.

## 6. Troubleshooting

If you encounter any issues, refer to the following common solutions:

- **Vehicle Not Turning On:** Check if the battery is properly connected and fully charged. Ensure the key is turned to the 'ON' position.
- **Remote Control Not Working:** Ensure the remote control batteries are fresh. For pairing, hold the middle button on the remote until it flashes, then press the 'P' button.
- **Reduced Speed/Power:** This may indicate a low battery charge. Recharge the battery fully.
- **Unusual Noises:** Stop operation immediately and inspect the vehicle for any loose parts or obstructions.

For persistent issues or further assistance, please contact NEWQIDA customer support.
