NHOPEEW RM

NHOPEEW Single Din Car Stereo User Manual

Model: RM

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your NHOPEEW Single Din Car Stereo with Wireless CarPlay and Android Auto. Please read this manual thoroughly before using the product to ensure proper function and safety.

2. PACKAGE CONTENTS

Verify that all items listed below are included in your package:

- Single Din Car Radio
- Power Cable
- 12leds Backup Camera
- Microphone
- User Manual

Package List

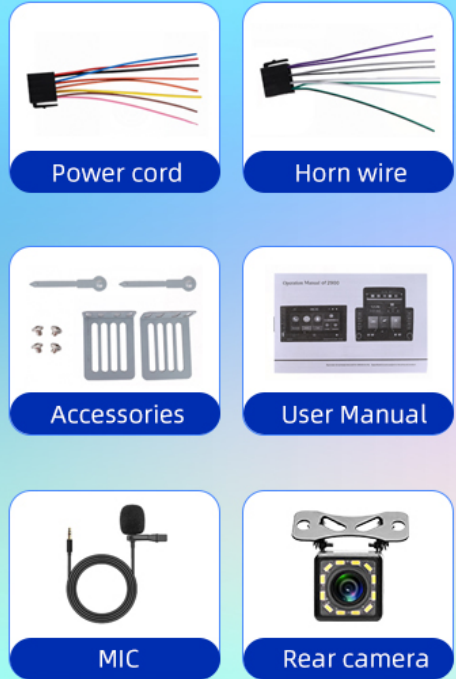

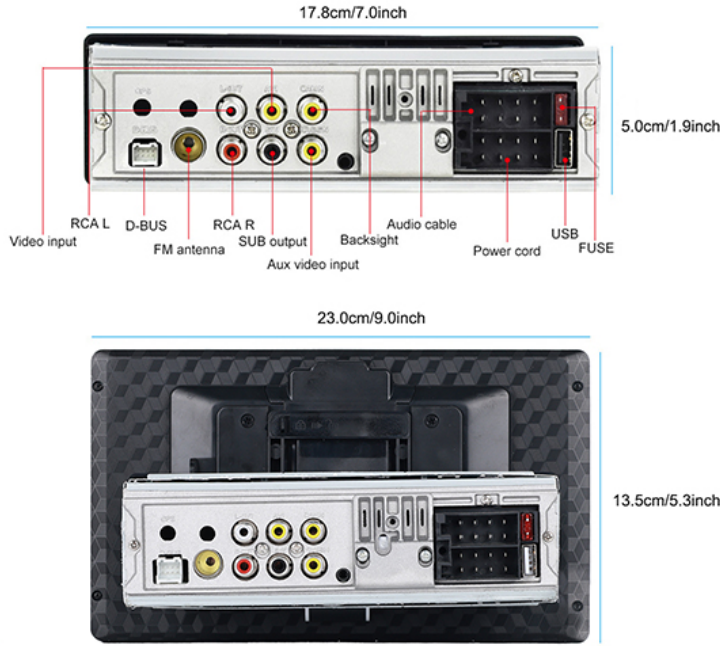

Image: Package contents including the main unit, wiring harnesses, backup camera, microphone, and other accessories.

3. PRODUCT OVERVIEW

The NHOPEEW Single Din Car Stereo features a 9-inch detachable IPS touchscreen, offering a comprehensive multimedia experience for your vehicle. It supports wireless CarPlay and Android Auto, Bluetooth connectivity, FM radio, Mirror Link, and steering wheel control. A backup camera is also included for enhanced safety.

Detachable IPS Touchscreen

The 9-inch IPS detachable touchscreen is designed for easy installation and removal. It can be adjusted up and down, and the front and rear adjustment range is 30 degrees, providing optimal viewing angles. The full-screen touch operation ensures sensitive and responsive control with a 1024*600 display resolution.

9 Inch IPS Detachable Touch Screen

The detachable screen is easy to install and remove, and can be adjusted up and down, and the front and rear adjustment range is 30°. Full-screen touch, sensitive operation, 1024*600 display

Image: Illustration of the detachable screen's adjustability, demonstrating how it can be moved vertically and rotated by 30 degrees for optimal positioning.

4. INSTALLATION

Professional installation is recommended for optimal performance and safety. Ensure the vehicle's power is disconnected before beginning installation.

Wiring Diagram

Refer to the included wiring diagram for connecting the power cable, speaker wires, and other accessories. Ensure all connections are secure to prevent malfunctions.

Backup Camera Installation

The included 12-LED backup camera provides a 170-degree wide-angle view with night vision. Connect the camera as follows:

- **Red Cable (1 & 5):** Connect the positive pole of the car reversing light cable.
- **Black Cable (2):** Connect the negative pole of the car reversing light cable.
- **Reversing Trigger Wire Cable (4, Pink Color):** Connect this to the red cable (3), which is an extension of the video input wire.

5. OPERATING INSTRUCTIONS

Wireless CarPlay & Android Auto

Connect your smartphone via USB cable or Bluetooth to access CarPlay or Android Auto. This allows for hands-free control of navigation, phone calls, messages, and music through the intelligent voice assistant.

Wireless Carplay & Android Auto

Phone Mirror-Link

The Mirror Link function allows you to display your phone's screen content directly onto the car stereo's display, enabling you to view videos, maps, and other applications on a larger screen.

EQ Setting

Customize your audio experience using the built-in EQ adjustment feature. You can fine-tune sound settings to match your personal preferences.

Image: The EQ sound settings interface with adjustable frequency bands and a demonstration of the Mirror Link feature displaying a smartphone screen on the head unit.

Steering Wheel Control (SWC)

Connect your vehicle's steering wheel controls to the stereo for quick and safe access to functions like answering calls, adjusting volume, and changing tracks without taking your hands off the wheel.

Image: Visual guide for setting up and using steering wheel controls, alongside an illustration of the USB fast charging capability.

Backup Camera Display

When reversing, the 9-inch touchscreen automatically displays the rear view from the connected backup camera, providing a clear image of blind spots for safer parking.

Backup Camera

You can connect the 12 LED rear view camera, and it will provide you with assistance in reversing

7. TROUBLESHOOTING

- **No Power:** Ensure all power cables are correctly connected and the vehicle's fuse is intact.
- **Bluetooth Not Connecting Automatically:** Check your phone's Bluetooth settings and the stereo's Bluetooth menu to ensure automatic connection is enabled. You may need to manually pair the device again.
- **CarPlay/Android Auto Only Mirroring:** Verify that your phone and the stereo are configured for native CarPlay/Android Auto, not just screen mirroring. Some phones may require specific settings or a wired connection for full functionality.
- **Backup Camera Image Upside Down:** Check the camera's physical orientation during installation. Some cameras may have settings to flip the image, consult the camera's specific manual if available.
- **Poor Radio Reception:** Ensure the FM antenna is properly connected and positioned. Interference from other electronic devices can also affect reception.
- **No Sound:** Check speaker connections and ensure the volume is not muted or set too low. Verify EQ settings are not causing an issue.

8. CARE AND MAINTENANCE

To ensure the longevity and optimal performance of your car stereo, follow these guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior. Avoid abrasive cleaners or solvents.
- **Temperature:** Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or high humidity.
- **Power:** Ensure the vehicle's electrical system is stable to prevent damage from power fluctuations.

9. WARRANTY AND SUPPORT

Warranty Information

This product comes with a **2-year warranty** from the date of purchase, covering manufacturing defects. Please retain your proof of purchase for warranty claims.

Customer Support
