4. SETUP AND ASSEMBLY

Assembly is required. It is recommended that two people assemble this unit. Ensure you have a clear workspace and the necessary tools (e.g., screwdriver, level).

1. **Prepare the Area:** Clear the closet space and ensure the wall is suitable for mounting.
2. **Assemble Shelf Towers:** Follow the included diagrams to assemble the three shelf towers. Ensure all screws are tightened securely.
3. **Install Hanging Rods:** Attach the expandable hanging rods to the designated points on the shelf towers. The left and right hanging shelves are adjustable; you can set the hanging height between 51 inches and 71 inches. Twist the expandable rod clockwise to tighten and counter-clockwise to loosen.
4. **Insert Fabric Drawers:** Place the three fabric drawers into their respective compartments within the central shelf tower.
5. **Wall Mounting:** Utilize the built-in safety lock attachments to secure the closet system to the wall. This step is crucial for stability and safety.
6. **Customization:** The hanging rods are expandable, and the shelf towers are detachable, allowing for customization to fit closet widths from 19 inches to 59 inches. You can also install only one side of the unit for smaller closets.

5. OPERATING INSTRUCTIONS

- **Hanging Clothes:** Use the four expandable rods to hang shirts, suits, jackets, and other garments. The rods are designed to hold approximately 40-50 clothes per rod.
- **Adjustable Shelves:** The left and right hanging shelves can be adjusted to different heights to accommodate varying garment lengths or storage needs.
- **Fabric Drawers:** Utilize the three fabric drawers for storing folded clothes, accessories, or other items.
- **Top Shelves:** The top surfaces of the shelf towers provide additional space for storage boxes, shoes, or decorative items.

6. MAINTENANCE

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the

finish.

- **Dusting:** Regularly dust the shelves and rods to prevent buildup.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Re-tighten if necessary.
- **Fabric Drawers:** The fabric drawers can be spot cleaned with a mild detergent and air-dried.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Clothes drag on the floor/shelf.	Hanging rods are set too low for garment length.	Adjust the left and right hanging shelves to a higher position (between 51 and 71 inches). Consider folding longer garments or using the central hanging rod for shorter items.
System feels unstable.	Not properly wall-mounted or screws are loose.	Ensure the unit is securely anchored to the wall using the built-in safety lock attachments. Check and tighten all assembly screws.
Difficulty fitting into closet space.	Incorrect configuration for closet dimensions.	Utilize the customizable features: adjust expandable rods or detach shelf towers to fit widths between 19 and 59 inches.
