Either earbud can be used independently. Simply take one earbud out of the case, and it will automatically connect to your device. The other earbud can remain in the case or be used later.

Cleaning:

Regular cleaning helps maintain optimal performance and hygiene. Use a soft, dry, lint-free cloth to wipe the earbuds and charging case. For ear tips, remove them from the earbuds and clean with a mild soap solution, then rinse thoroughly and dry completely before reattaching.

Avoid using abrasive materials, alcohol, or chemical cleaners, as these can damage the product.

Water Resistance:

The MOZOTER S8 earbuds are rated IPX7 water resistant, meaning they can withstand immersion in water up to 1 meter for 30 minutes. This makes them suitable for protection against sweat during workouts

or light rain. However, the charging case is not water resistant. Do not submerge the charging case in water or expose it to excessive moisture.
