## Paddsun DA0137

# Paddsun DA0137 5-in-1 Handheld Cordless Vacuum and Bug Catcher Instruction Manual

Model: DA0137 | Brand: Paddsun

## 1. INTRODUCTION

Thank you for choosing the Paddsun DA0137 5-in-1 Handheld Cordless Vacuum and Bug Catcher. This versatile device combines powerful suction and a blower function, making it suitable for various cleaning tasks in your home, car, office, or garden. It also functions as a safe and effective bug catcher. This manual provides essential information for the safe and efficient use of your new device. Please read it thoroughly before operation and retain it for future reference.

## 2. SAFETY INFORMATION

- Read all instructions before using the appliance.
- Do not use high-power adapters for charging. Use only the provided USB charging cable with a standard 5V USB power source.
- Keep the device away from water or other liquids. Do not immerse the device in water.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Do not attempt to disassemble or repair the device yourself. Contact customer support for assistance.
- Ensure the filter is properly installed before use to prevent damage to the motor.
- Do not vacuum hot ashes, burning cigarettes, or sharp objects.
- Empty the dust cup regularly to maintain optimal suction power.

## 3. PACKAGE CONTENTS

Verify that all items listed below are included in your package:

- 1 x Paddsun DA0137 Handheld Cordless Vacuum/Bug Catcher Unit

- 1 x Long Nozzle Attachment
- 1 x Brush Nozzle Attachment
- 1 x Blower Attachment
- 1 x HEPA Filter (pre-installed)
- 1 x USB Charging Cable
- 1 x User Manual

## 5. SETUP

### 5.1 Initial Charging

Before first use, fully charge the device. The 4000mAh rechargeable battery provides up to 30 minutes of use on a single charge and requires approximately 3 hours for a full recharge.

1. Connect the provided USB charging cable to the charging port on the device.
2. Plug the other end of the USB cable into a standard 5V USB power source (e.g., computer, wall adapter, car charger).
3. The indicator light will show charging status (e.g., red for charging, green/off for fully charged).

## 5.2 Attaching Accessories

To attach any accessory, align it with the suction/blower port and twist or push firmly until it clicks into place.

Video: This video demonstrates the assembly of the handheld vacuum cleaner and its various attachments, showcasing its use for car interior cleaning, inflating a balloon, and cleaning a keyboard.

## 6. OPERATING INSTRUCTIONS

### 6.1 Vacuum Function

Use the vacuum function for cleaning dust, debris, sand, and pet hair from various surfaces.

1. Attach the desired nozzle (long nozzle for crevices, brush nozzle for surfaces).
2. Press the power button to turn on the vacuum.
3. Move the nozzle over the area to be cleaned.
4. Press the power button again to turn off the vacuum.

Image: The handheld vacuum in action, illustrating its strong suction capability to pick up various types of debris including dust, sand, pet hair, and even insects.

## 6.2 Bug Catcher Function

Safely capture insects without direct contact.

1. Attach the long nozzle to the vacuum unit.
2. Aim the nozzle at the insect.
3. Press the power button to activate suction and capture the insect.
4. Once captured, turn off the vacuum.
5. Remove the transparent dust cup.
6. Take the dust cup outdoors and release the insect.

Image: A step-by-step guide demonstrating how to use the bug catcher feature, from aiming the nozzle to releasing the captured insect outdoors.

### 6.3 Blower Function

The device can also be used as a blower for inflating items or cleaning hard-to-reach areas by attaching the blower accessory to the exhaust port.

## Handheld Vacuum Cleaner Cordless

## 7. MAINTENANCE

Regular maintenance ensures optimal performance and extends the lifespan of your device.

### 7.1 Emptying the Dust Cup

1. Ensure the device is turned off.
2. Rotate the transparent dust cup counter-clockwise to detach it from the main unit.
3. Empty the collected debris into a waste bin.

### 7.2 Cleaning the HEPA Filter

The reusable HEPA filter should be cleaned regularly to maintain strong suction.

1. After emptying the dust cup, carefully remove the HEPA filter.
2. Rinse the filter under running water until clean. Do not use detergents.
3. Allow the filter to air dry completely before reinserting it into the dust cup. Ensure it is fully dry to prevent mold or damage to the motor.
4. Reattach the dust cup to the main unit by rotating clockwise until secure.
