Ibergrif M20406

Ibergrif M20406 Shower Holder Instruction Manual

Model: M20406

INTRODUCTION

Thank you for choosing the Ibergrif M20406 Shower Holder. This product is designed to provide a strong, adjustable, and waterproof solution for holding your shower head, enhancing your bathing experience. This manual provides detailed instructions for installation, operation, and maintenance to ensure optimal performance and longevity of your shower holder.

KEY FEATURES

- **Adjustable Design:** The shower bracket offers 3 adjustable angles, allowing you to adjust the shower head up or down by 45° as needed. It accommodates various styles of handheld shower heads, providing more angles for bathing comfort.
- **Super Strong Adhesive Base:** Features a large 95x70 mm base for enhanced adhesion and stability. The strong adhesive prevents the bracket from falling, ensuring the shower head remains firmly fixed.
- **Wide Application:** Suitable for smooth surfaces such as marble, glass, smooth wood, and metal surfaces.
- **Accessible for Different Heights:** Allows children to bathe independently and enables elderly individuals to shower comfortably while seated.

SETUP AND INSTALLATION

Proper installation is crucial for the stability and longevity of your shower holder. Please follow these instructions carefully.

Surface Preparation

Ensure the installation surface is clean, dry, and smooth. The shower head holder is suitable for:

- Marble
- Glass
- Smooth Wood
- Metal Surfaces
- Tiles

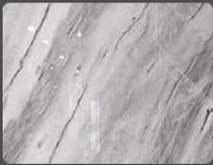

Important Warning: This product is **NOT** suitable for lime walls, wallpaper, uneven walls, or whitewashed surfaces. Using on these surfaces may result in poor adhesion and product failure.

STRONG ADHESIVE

More secure installation in the position you need.

✓ GLASS

✓ MARBLE

✓ TILE

✓ WOOD GRAIN PANEL

✓ SMOOTH WOOD

✓ METALLIC

WARNING:

Do not use on whitewashed surfaces, lime walls, masonry walls or other uneven surfaces.

Installation Methods

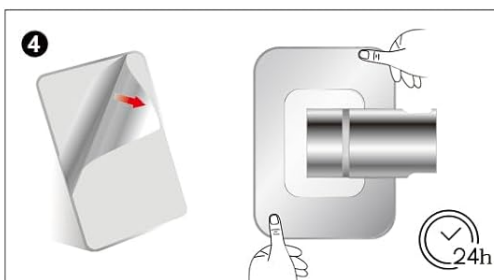

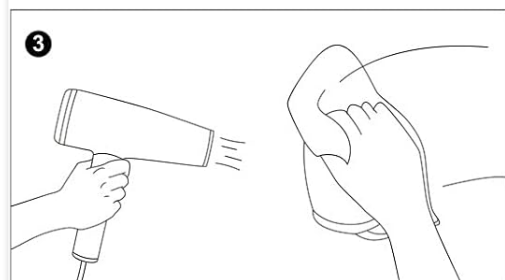

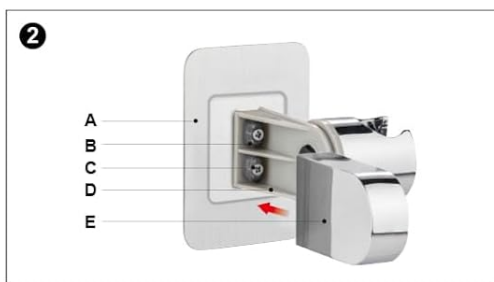

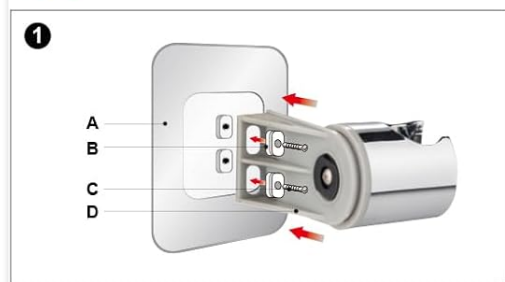

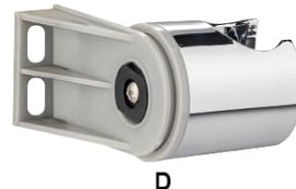

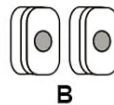

The Ibergriif M20406 Shower Holder supports two installation methods: self-adhesive and wall-mounted.

2 INSTALLATION METHODS

Accessories

Self adhesive installation

Wall Mounted Installation

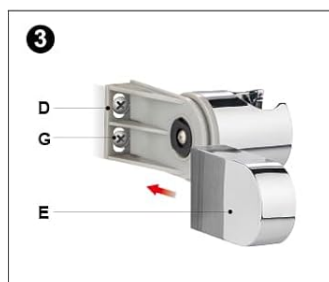

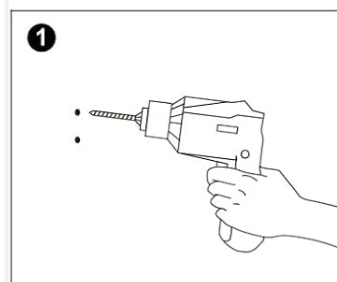

Image: Diagram illustrating both self-adhesive and wall-mounted installation steps, along with included accessories.

1. Self-Adhesive Installation

1. Clean and dry the desired installation surface thoroughly.
2. Remove the protective film from the adhesive backing of the shower holder.
3. Carefully align the holder and press it firmly onto the prepared surface for several seconds.
4. Apply pressure evenly across the adhesive base to ensure good contact.
5. Allow the adhesive to cure for at least 24 hours before hanging any weight or using the shower holder. This ensures maximum adhesion.

2. Wall-Mounted Installation (Optional)

For a more permanent fixture, you can use the wall-mounted method. This requires drilling.

1. Mark the desired drilling points on the wall using the shower holder as a template.
2. Drill holes at the marked points. Ensure the drill bit size matches the wall anchors.
3. Insert wall anchors into the drilled holes.
4. Align the shower holder with the anchors and secure it with screws.
5. Ensure the holder is firmly attached to the wall.

OPERATION

The Ibergreif M20406 Shower Holder is designed for ease of use and adaptability.

Adjusting the Shower Head Angle

The shower holder features an adjustable joint that allows you to change the angle of your handheld shower head. Simply grasp the shower head and gently pivot it up or down to achieve your desired spray angle. The holder supports a 45° adjustment range.

ADJUSTABLE STANDARD INTERFACE

Image: Illustration demonstrating the $\pm 45^\circ$ adjustable range of the shower holder, allowing for flexible positioning of the shower head.

Accommodating Different Heights

Install the shower holder at a height that best suits the primary users. For households with children or elderly members, consider installing it at a lower, accessible height. The adjustable angle feature further aids in directing the water flow appropriately for various user heights.

Compatibility

The shower holder is designed to accommodate various types of handheld shower heads and bidet sprayers, providing a versatile mounting solution for your bathroom fixtures.

CARE AND MAINTENANCE

To maintain the appearance and functionality of your Ibergrif M20406 Shower Holder, follow these simple care instructions:

- **Cleaning:** Wipe the surface regularly with a soft, damp cloth. For stubborn spots, use a mild soap solution and rinse thoroughly.
- **Avoid Harsh Cleaners:** Do not use abrasive cleaners, scouring pads, or chemical solvents, as these can damage the finish.
- **Drying:** After cleaning, dry the holder with a soft cloth to prevent water spots and maintain its shine.

TROUBLESHOOTING

Common Issues and Solutions

- Issue:** The shower holder is not adhering properly or falls off.
Solution: Ensure the installation surface is smooth, clean, and dry. Re-check if the surface is one of the unsuitable types (e.g., lime wall, wallpaper, uneven surface). If using the adhesive method, ensure you waited the full 24-hour curing period before applying weight. For persistent issues, consider the wall-mounted installation method.
- Issue:** The shower head does not fit or is unstable in the holder.
Solution: The holder is designed to accommodate various standard handheld shower heads. Ensure the shower head is properly seated. If it's a very unusual size, it might not be compatible.
- Issue:** The adjustable angle mechanism feels stiff or loose.
Solution: The adjustable joint is designed for smooth operation. If it feels stiff, ensure no debris is lodged in the mechanism. If it feels too loose, it may indicate wear over time, though this is uncommon for new products.

PRODUCT SPECIFICATIONS

Property	Value
Model Number	M20406
Brand	Ibergrif
Mounting Type	Wall Mount (Adhesive or Screws)
Material	Metal
Finish	Silver
Item Weight	3.52 ounces
