## Timco BCM1000

# TIMCO BCM1000 MX 3-in-1 Electric Epilator, Callus Remover, and Shaver User Manual

Model: BCM1000 MX

## 1. PRODUCT OVERVIEW

The TIMCO BCM1000 MX is a versatile 3-in-1 electric device designed for personal grooming. It combines the functions of an epilator, a callus remover, and a shaver, offering a comprehensive solution for smooth skin. This ergonomically designed device operates on 2 AA batteries (not included) for portable convenience.

### 3. SETUP AND BATTERY INSTALLATION

1. **Unpack the Device:** Carefully remove the main device unit and all accessories from the packaging.

2. **Install Batteries:** The device requires 2 AA batteries (not included). Open the battery compartment, insert the batteries according to the polarity indicators (+/-), and close the compartment securely.
3. **Attach Desired Head:** Select the appropriate head (epilator, shaver, or callus remover) for your intended use. Align the head with the main unit and gently press until it clicks into place.

## 4. OPERATING INSTRUCTIONS

#### 4.1. Using the Epilation Head

The double epilation head is designed to cover a larger skin area for efficient hair removal. Ensure your skin is clean and dry before use. Hold the device at a 90-degree angle to the skin and move it slowly against the direction of hair growth. Do not press too hard.

*Figure 4: Detailed view of the epilation head, highlighting its double head design for effective hair removal.*

## **4.2. Using the Shaving Head**

For a close and smooth shave on legs and body, attach the shaving head. Move the shaver gently over the skin in the direction of hair growth. The shaving head is suitable for sensitive areas.

*Figure 5: Detailed view of the shaving head, designed for a smooth and comfortable shave.*

#### **4.3. Using the Callus Remover Head**

To remove hard, calloused, dry, and flaky skin, use the callus remover head. Gently glide the head over the affected areas. The abrasion is designed to be soft and painless, promoting smoother and hydrated skin. Ensure skin is dry for best results.

## 5. MAINTENANCE AND CLEANING

---

1. **Remove Head:** After each use, turn off the device and detach the used head by pressing the release button.
2. **Clean Head:** Use the provided cleaning brush to remove any hair or skin debris from the head. For thorough cleaning, the heads can be rinsed under running water. Ensure they are completely dry before reattaching or storing.
3. **Clean Main Unit:** Wipe the main unit with a dry cloth. Do not immerse the main unit in water.
4. **Storage:** Store the device and its accessories in a dry, cool place, away from direct sunlight and moisture.

## 6. TROUBLESHOOTING

---

- **Device not turning on:**

- Check if the batteries are correctly inserted with the correct polarity.
- Replace old batteries with new 2 AA batteries.

- **Poor performance (epilation/shaving/callus removal):**

- Ensure the selected head is clean and free from debris.
- Make sure the head is securely attached to the main unit.
- For epilation, ensure hair is not too long or too short (optimal length is usually 2-5mm).
- For callus removal, ensure skin is dry.

- **Skin irritation:**

- Ensure the device is clean before use.
- Do not press too hard on the skin.
- If irritation persists, discontinue use and consult a dermatologist.

## 7. SPECIFICATIONS

<b>Brand</b>	Timco
