Samsung SM-R530

SAMSUNG Galaxy Buds 3 User Manual

Model: SM-R530

INTRODUCTION

The Samsung Galaxy Buds 3 are advanced true wireless Bluetooth earbuds designed for superior audio experience, enhanced call quality, and smart features. They feature a redesigned fit, active noise cancellation, and integration with Galaxy AI for real-time language translation and voice optimization.

Image: The Samsung Galaxy Buds 3 in their open white charging case. The two white earbuds are visible, each with a black mesh speaker opening and a small colored indicator light (blue on the left, orange on the right). A green LED light is visible on the front of the charging case, indicating charge status.

WHAT'S IN THE BOX

Your Samsung Galaxy Buds 3 package includes the following components:

- L Earbud (Left Earbud)
- R Earbud (Right Earbud)
- Charging Case
- USB-C Cable
- Eartips (various sizes for optimal fit)

SETUP

1. Initial Charging

Before first use, ensure your Galaxy Buds 3 and their charging case are fully charged.

1. Place both earbuds into the charging case.
2. Connect the provided USB-C cable to the charging case and a power source.
3. The LED indicator on the case will show charging status. A green light indicates a full charge.
4. The charging case supports both wired and wireless charging.

2. Pairing with Your Device

The Galaxy Buds 3 are optimized for Android devices, especially Samsung Galaxy phones, but can connect to any Bluetooth-enabled device.

1. Open the charging case with the earbuds inside. The earbuds will automatically enter pairing mode.
2. On your device, go to Bluetooth settings and search for available devices.
3. Select "Galaxy Buds 3" from the list to connect.
4. For Samsung Galaxy devices, a pop-up may appear for quick pairing.

3. Compatibility

For full functionality, including advanced Galaxy AI features, the Galaxy Buds 3 are best used with Samsung Galaxy Android devices running Android 8.0 or later with at least 1.5GB RAM. Basic audio and call functions are available with other Bluetooth-enabled devices, including iOS, but advanced features may be limited.

OPERATING YOUR GALAXY BUDS 3

Touch Controls

The Galaxy Buds 3 feature intuitive touch controls on each earbud for media playback, call management, and feature activation.

- **Single Tap:** Play/Pause audio, Answer/End call.
- **Double Tap:** Next track, Reject call.
- **Triple Tap:** Previous track.
- **Touch and Hold:** Activate Active Noise Cancellation (ANC) or Ambient Sound mode, or customize for voice assistant.

Active Noise Cancellation (ANC)

The Galaxy Buds 3 are equipped with Active Noise Cancellation to reduce ambient noise, allowing for a more immersive listening experience. Toggle ANC on/off or switch to Ambient Sound mode via the touch controls or the Galaxy Wearable app.

Audio Features

Experience high-quality sound with SSC HiFi and UHQ audio codecs, offering a 24bit/96KHz sampling rate. Bluetooth 5.4 ensures a stable connection and minimal audio dropouts.

Galaxy AI Features

When paired with a compatible Samsung Galaxy device, the Galaxy Buds 3 leverage AI for advanced functionalities:

- **Real-Time Language Translation:** Facilitates communication across language barriers.
- **Voice Optimization:** Enhances your voice in noisy environments for clearer calls.

Note: Galaxy AI features require a Samsung Galaxy device for full functionality.

Call Features

Super Wideband (SWB) microphones, combined with Galaxy AI, improve call quality by capturing a wider bandwidth and reconstructing lost voice bits, ensuring clear communication even in challenging conditions.

MAINTENANCE

Cleaning Your Earbuds

Regular cleaning helps maintain sound quality and hygiene.

- Gently wipe the earbuds and charging case with a soft, dry, lint-free cloth.
- Remove any earwax or debris from the speaker mesh using a small, soft brush or cotton swab.
- Avoid using liquids or abrasive cleaners.

Battery Life Optimization

The earbuds provide 6-8 hours of playback with Active Noise Cancellation (ANC) on, and up to 12 hours with the charging case. To maximize battery life:

- Store earbuds in the charging case when not in use.
- Disable ANC when not needed.
- Keep the charging contacts clean.

Note: The Galaxy Buds 3 are not water resistant. Avoid exposure to liquids.

TROUBLESHOOTING

If you encounter issues with your Galaxy Buds 3, try the following steps:

- **No Sound/Low Volume:** Ensure earbuds are properly seated in your ears, check device volume, and clean speaker mesh.
- **Connection Issues:** Place earbuds back in the case, close and reopen, then try re-pairing. Ensure Bluetooth is enabled on your device.
- **Charging Problems:** Verify the USB-C cable is securely connected and the power source is active. Clean charging contacts on both earbuds and case.
- **One Earbud Not Working:** Ensure both earbuds are charged. Try resetting the earbuds via the Galaxy Wearable app.

For persistent issues, refer to the Samsung support website or contact customer service for further assistance.

SPECIFICATIONS

Feature	Detail
Model Name	Galaxy Buds 3
Model Number	SM-R530
Noise Control	Active Noise Cancellation (ANC)

Connectivity	Bluetooth 5.4
Audio Codecs	SSC HiFi, UHQ (24bit/96KHz)
Battery Life (Earbuds)	Up to 7 hours (ANC off), 6-8 hours (ANC on)
Battery Life (with Case)	Up to 12 hours
Control Method	Touch Control
Dimensions (Earbud)	1.26 x 0.72 x 0.8 inches
Weight (Earbud)	0.17 ounces
Water Resistance	Not Water Resistant
Frequency Range	20 Hz - 20,000 Hz
Impedance	25.75 Ohm
