SETUP AND ASSEMBLY

Assembly of your Feonase bed frame is designed to be straightforward. It is recommended to have two people for assembly, though one person can complete it.

Before You Begin:

- Unpack all components and lay them out on a clean, soft surface to prevent scratches.
- Verify that all parts and hardware listed in the included "Installation Manual" are present. Refer to the parts list in your manual.
- Ensure you have the necessary tools, which are typically included with the bed frame.

Assembly Steps:

1. Begin by assembling the headboard components. Attach the wingback sides to the main headboard panel.

2. Secure the charging station unit into the designated slot on the headboard.
3. Assemble the side rails and footboard. Connect them to the assembled headboard.
4. Install the central support beam and legs.
5. Place the wooden slats onto the frame. The slats are equipped with Velcro and EVA mute bars to prevent noise and slippage. Ensure they are evenly spaced and secured.
6. Tighten all bolts and screws using the provided tools. Do not overtighten.

OPERATING INSTRUCTIONS

Charging Station:

The integrated charging station features 20W PD Type-C and Type-A ports.

- Connect your device's charging cable to the appropriate USB-C or USB-A port on the headboard.
- Ensure the bed frame is properly connected to a power outlet for the charging function to work.
- The charging station is compatible with most mobile phones, tablets, and other small electronic devices.

Storage Headboard:

The top of the headboard provides a convenient storage shelf.

- Use this shelf to place items such as phones, alarm clocks, glasses, books, or decorative items.
- The wingback design helps prevent items from falling off the sides.

MAINTENANCE

- **Cleaning:** The upholstered parts of the bed frame should be dry cleaned only. For minor spills, gently blot with a clean, dry cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Hardware Check:** Periodically check all bolts and screws to ensure they remain tight. Re-tighten if necessary to maintain the bed frame's stability and noise-free operation.
- **Slats:** Ensure the wooden slats are properly seated and not damaged. The Velcro and EVA mute bars are designed to prevent noise; ensure they are intact.
- **Charging Port:** Keep the charging ports free of dust and debris. Do not force cables into the ports.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed frame is squeaking or making noise.	Loose bolts or screws; friction between slats and frame.	Tighten all assembly bolts and screws. Ensure wooden slats are properly aligned and the Velcro/EVA mute bars are intact.
Mattress is slipping.	Slats not properly secured; mattress not compatible with platform bed.	Verify all slats are correctly placed and secured. The wingback headboard is designed to help prevent slippage. Ensure your mattress is suitable for a platform bed.
Charging station not working.	Not plugged into power outlet; faulty cable; device incompatibility.	Check if the bed frame's power cord is securely plugged into a working wall outlet. Try a different charging cable or device to rule out cable/device issues.
Parts missing or damaged upon arrival.	Shipping error or manufacturing defect.	Contact Feonase customer support immediately with your order details and a description of the issue.
