9. MAINTENANCE

To maintain the appearance and longevity of your Einhorn bed frame, follow these simple care instructions:

- **Cleaning:** Wipe the metal frame and wooden headboard with a dry, soft cloth. Avoid using harsh chemicals or abrasive cleaners, which can damage the finish.
- **Inspection:** Periodically check all bolts and connections to ensure they remain tight. Re-tighten if necessary to maintain stability.
- **Electrical Components:** Ensure the charging station and LED lights are kept dry. Do not expose them to liquids.

10. TROUBLESHOOTING

If you encounter any issues with your bed frame, refer to the following common solutions:

- **Squeaking Noises:** Ensure all bolts are securely tightened. The frame is designed with rubber silencers to minimize noise, but loose connections can cause squeaks.
- **Instability/Wobbling:** Verify that the bed frame is assembled correctly according to the instructions and that all legs are making firm contact with the floor. Check for any uneven flooring.
- **LED Lights Not Working:** Check the power connection to the LED strip and ensure the remote control or app is properly paired and has fresh batteries (if applicable).
- **Charging Station Not Functioning:** Confirm that the power cord for the charging station is securely plugged into a working wall outlet. Test with different devices and cables.

For persistent issues not resolved by these steps, please contact customer support.
