BIUBLE Wireless Car Play Screen MHG727

BIUBLE 9-inch Wireless Carplay Screen User Manual

MODEL: MHG727

1. Introduction

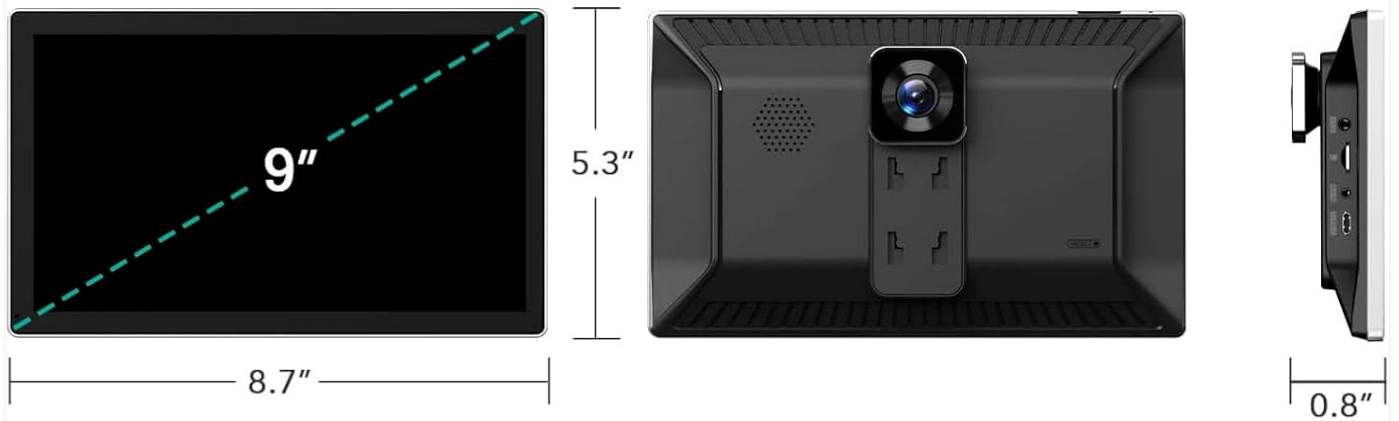

This manual provides detailed instructions for the installation, operation, and maintenance of your BIUBLE 9-inch Wireless Carplay Screen. This portable car stereo system offers seamless integration with Apple Carplay and Android Auto, featuring a 4K dash cam, 1080p backup camera, GPS navigation, Bluetooth connectivity, and Mirror Link functionality. Please read this manual thoroughly before use to ensure proper operation and to maximize your driving experience.

2. Package Contents

Verify that all items listed below are included in your package:

- 9-inch Wireless Carplay Screen
- Dash Mount Bracket
- Backup Camera
- 64GB TF Card
- Cigarette Lighter Power Cable
- AUX Audio Cable
- User Manual

What's in the Package

Dash Mount Bracket

3. Setup

- Mounting the Display:** Attach the 9-inch display to the dash mount bracket. Secure the bracket to your vehicle's dashboard in a position that does not obstruct your view or interfere with driving controls. Ensure the dash cam lens on the back of the unit has a clear view of the road ahead.
- Power Connection:** Connect the cigarette lighter power cable to the display unit and then plug it into your vehicle's 12V power outlet.
- Backup Camera Installation:** Install the 1080p backup camera at the rear of your vehicle. Route the camera cable to the main display unit and connect it to the designated input. Professional installation is recommended for optimal placement and wiring.
- Insert TF Card:** Insert the provided 64GB TF card into the designated slot on the display unit. This card is essential

for recording dash cam footage.

5. **AUX Audio Connection (Optional):** For enhanced audio quality, connect the AUX audio cable from the display unit to your vehicle's AUX input.

4. Operating Instructions

4.1. Wireless Carplay & Android Auto

The device supports both Apple Carplay and Android Auto for seamless smartphone integration. Once connected, you can access navigation, music, calls, and messages directly from the 9-inch touch screen.

- **Connection:** Ensure Bluetooth and Wi-Fi are enabled on your smartphone. On the device, select the Carplay or Android Auto icon and follow the on-screen prompts to pair your phone.
- **Voice Control:** Utilize voice commands (e.g., "Hey Siri" or "Ok Google") to control functions like navigation, music playback, and making calls, allowing you to keep your hands on the wheel.

Seamless Connectivity

4.2. 4K Dash Cam & 1080p Backup Camera

The integrated camera system provides comprehensive recording for your journeys.

- **Front Dash Cam:** The front-facing 4K dash cam features a 175° wide-angle lens to capture a broad view of the road.
- **Backup Camera:** The 1080p rear camera offers a 120° wide-angle view, automatically activating when the vehicle is in reverse to assist with parking.
- **Loop Recording:** Footage is continuously recorded and stored on the 64GB TF card. Older files are overwritten automatically when the card is full.

Upgraded 4 Ways of Sounding

Bluetooth Audio

AUX Connection

FM Transmitter

Built-in Speaker

4.3. GPS Navigation

Access real-time GPS navigation directly on the 9-inch screen. The large display provides clear map information, turn-by-turn directions, and real-time location tracking.

Voice Control & GPS Navigation

Hey, Siri, call my dad

Google, play some music

Siri, navigate home

Image: The display showing a navigation map with voice command prompts for Siri and Google Assistant, indicating integrated GPS and voice control features.

4.4. Bluetooth & Mirror Link

- **Bluetooth:** Connect your smartphone via Bluetooth for hands-free calling and audio streaming.
- **Mirror Link:** Use the Mirror Link function to display your smartphone's screen directly onto the 9-inch unit. This feature is compatible with both iPhones and Android phones.

Wireless HD Mirror Link

for iPhones & Android Phones

Image: A smartphone screen mirrored onto the 9-inch display, illustrating the Wireless HD Mirror Link feature for both iPhone and Android devices.

4.5. Audio Output Options

The device offers multiple ways to output audio to your vehicle's sound system:

- **Bluetooth Audio:** Stream audio wirelessly to compatible car stereos.
- **AUX Connection:** Connect directly to your car's AUX input using the provided cable.
- **FM Transmitter:** Transmit audio to your car's FM radio by tuning to a specific frequency.
- **Built-in Speaker:** The unit has an integrated speaker for direct audio output.

Image: A diagram illustrating the four audio output methods: Bluetooth Audio, AUX Connection, FM Transmitter, and the device's Built-in Speaker.

5. Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior of the device. Avoid abrasive cleaners or solvents.
- **Software Updates:** Periodically check the manufacturer's website for any available software updates to ensure optimal performance and access to new features.
- **TF Card Management:** Regularly back up important dash cam footage from the 64GB TF card to prevent loss. Format the TF card periodically to maintain performance.

6. Troubleshooting

- **Device Not Powering On:** Ensure the cigarette lighter power cable is securely connected to both the device and the vehicle's 12V outlet. Check the vehicle's fuse for the power outlet.

- **No Audio Output:** Verify the selected audio output method (Bluetooth, AUX, FM Transmitter) is correctly configured and connected. Adjust volume settings on both the device and your car stereo.
- **Carplay/Android Auto Not Connecting:** Ensure Bluetooth and Wi-Fi are active on your phone and the device. Try restarting both the device and your phone.
- **Backup Camera Not Displaying:** Check all cable connections for the backup camera. Ensure the camera is receiving power and is properly installed.
- **Screen Unresponsive:** Try restarting the device. If the issue persists, contact customer support.
