## 2. SAFETY INFORMATION

Your safety is our top priority. Please read and follow all safety instructions carefully before using the heated blanket.

- **Overheat Protection:** The blanket is equipped with advanced NTC overheating protection technology to prevent it from overheating.
- **Certification:** This blanket is FCC certified, meeting local safety standards.
- **Power Cord:** Ensure the extra-long 7-foot power cord is not pinched or damaged. Do not use if the cord is frayed or exposed.
- **Unplug When Not in Use:** Always unplug the blanket from the power outlet when not in use or before cleaning.
- **Do Not Dry Clean or Iron:** Refer to the maintenance section for proper cleaning instructions.
- **Avoid Folding or Bunching:** Do not fold, bunch, or crumple the blanket while it is operating, as this can cause localized overheating.
- **Not for Infants or Persons Insensitive to Heat:** Do not use on infants, children, incapacitated persons, or anyone insensitive to heat.

### 3. SETUP

1. **Unpack:** Carefully remove the heated blanket from its packaging.
2. **Inspect:** Check the blanket and controller for any signs of damage. Do not use if damaged.
3. **Connect Controller:** Locate the connection port on the blanket and firmly plug in the controller's connector. Ensure it clicks securely into place.
4. **Position Blanket:** Place the blanket on your bed, couch, or desired area. Ensure it lies flat without any folds or creases.
5. **Plug In:** Plug the power cord into a standard 120V AC electrical outlet.

## 6. TROUBLESHOOTING

If you experience any issues with your Qfun Electric Heated Blanket, please refer to the following common troubleshooting tips:

- **Blanket Not Heating:**
  - Ensure the power cord is securely plugged into both the blanket and the wall outlet.

- Check if the wall outlet is functional by plugging in another appliance.
- Verify the controller is powered on and a heat setting is selected.
- **Uneven Heating:**
  - Ensure the blanket is laid flat and not folded or bunched during operation.
- **Controller Display Not Working:**
  - Unplug the blanket from the wall, wait a few minutes, and plug it back in to reset the controller.

If the problem persists after trying these steps, please contact Qfun customer support for assistance.
