

BaByliss C1031E

BaByliss C1031E Curl Secret Lite 19 mm Automatic Curler Instruction Manual

1. INTRODUCTION

The BaByliss Curl Secret Lite 19 mm automatic curler is designed to create fast and effortless curls using Auto Curl technology. It automatically wraps hair around a 19 mm ceramic barrel for smooth, uniform curls in an instant. This curling iron offers multiple time and temperature settings to suit various hair types and desired styles. Its compact and lightweight design ensures maximum comfort while creating perfect, effortless curls.

2. SAFETY WARNINGS

Risk of burns: Surfaces become extremely hot during use. Avoid contact with skin.

Risk of electric shock: Keep away from water. Do not use near bathtubs, sinks, or other water sources.

Risk of fire: Unplug when not in use. Do not leave unattended when plugged in. Keep out of reach of children.

3. PRODUCT FEATURES

- **AutoCurl Technology:** Creates fast, easy, and automatic curls.
- **19 mm Ceramic Barrel:** Ensures smooth, shiny results.
- **Advanced Ceramics Heating System:** Provides rapid heat-up and long-lasting results.
- **5 Temperature Settings:** Adjustable from 150 °C to 210 °C, suitable for all hair types.
- **3 Time Settings:** 6, 9, and 12 seconds for versatile results, from defined curls to loose waves.
- **Audible Alert:** Notifies you when the curl is ready.
- **Curl Direction Control:** Options for left, right, and alternate for a natural hairstyle.
- **Multi-voltage:** Allows for worldwide use.
- **Automatic Shut-off:** Device turns off after 60 minutes of non-use for safety.
- **Accessories:** Includes a heat mat.
- **Swivel Cord:** 1.8 m rotating cord for ease of use.

4. SETUP

1. Unpack the BaByliss Curl Secret Lite and all accessories.
2. Place the included heat mat on a flat, heat-resistant surface.
3. Plug the device into an appropriate electrical outlet. Ensure the voltage is compatible if using internationally.

This image shows the BaByliss C1031E Curl Secret Lite, a black and rose gold automatic hair curler. A strand of light brown hair is visible being drawn into the transparent curling chamber, forming a spiral curl. The device features control buttons for operation and settings.

5. OPERATING INSTRUCTIONS

1. Ensure your hair is clean, completely dry, and thoroughly combed to remove any tangles.
2. Turn on the device and select your desired temperature setting (150 °C - 210 °C) and time setting (6s, 9s, or 12s) based on your hair type and desired curl intensity.
3. Choose your preferred curl direction: **L** (Left), **R** (Right), or **A** (Alternate) for a more natural look.
4. Take a small section of hair, no wider than 3 cm (approximately 1 inch). Ensure the section is straight and free of tangles.

5. Place the hair section into the opening of the device, ensuring it is centered.
6. Close the handle. The hair will be automatically drawn into the ceramic barrel. Keep the device still and hold the handle closed.
7. Wait until the device emits a series of beeps, indicating that the curl is ready.
8. Release the handle to free the perfectly formed curl.
9. Repeat the process for all sections of hair until your desired style is achieved.
10. Allow curls to cool completely before styling or brushing for best results and longevity.

6. TEMPERATURE AND TIME SETTINGS

Temperature Settings:

- **150 °C - 170 °C:** Ideal for fine, delicate, or color-treated hair.
- **190 °C - 200 °C:** Suitable for normal hair.
- **210 °C:** Recommended for thick or coarse hair.

Time Settings:

- **6 seconds:** For loose waves.
- **9 seconds:** For soft curls.
- **12 seconds:** For more defined curls.

Experiment with different combinations to find the perfect setting for your hair type and desired style.

7. CURL DIRECTION CONTROL

The BaByliss Curl Secret Lite offers three curl direction settings:

- **Left (L):** Curls hair towards the left.
- **Right (R):** Curls hair towards the right.
- **Alternate (A):** Alternates the curl direction for each section, creating a more natural and voluminous look.

Select the direction that best suits your styling preference.

8. MAINTENANCE AND CLEANING

1. Always ensure the device is unplugged from the power outlet and completely cool before cleaning.
2. Wipe the exterior of the device with a soft, damp cloth.
3. Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the device.
4. Regularly check the curling barrel for any hair product residue. Gently clean if necessary to maintain optimal performance.
5. Store the device in a safe, dry place when not in use.

9. TROUBLESHOOTING

- **Device not heating:** Check that the power cord is securely plugged into a working electrical outlet.

- **Hair getting tangled in the device:** Ensure you are taking small sections of hair (no wider than 3 cm) and that the hair is thoroughly combed and free of tangles before insertion. Do not insert too much hair at once.
- **Curls not holding:** Ensure your hair is completely dry before curling. Try increasing the temperature setting or the time setting for a more defined curl. Allow curls to cool before touching or styling.
- **Device not drawing in hair:** Ensure the hair section is straight and centered within the device opening before closing the handle.

10. SPECIFICATIONS
