Shop-Vac 9522205

Shop-Vac 9522205 5 Gallon 5.5 Peak HP Hangup Wet/Dry Vacuum Instruction Manual

Model: 9522205

INTRODUCTION

Thank you for choosing the Shop-Vac 9522205 5 Gallon 5.5 Peak HP Hangup Wet/Dry Vacuum. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new vacuum cleaner. Please read all instructions carefully before use and retain this manual for future reference.

SAFETY INFORMATION

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, or injury. This appliance is designed for indoor use. Ensure the power supply matches the voltage specified on the product label (120 volts). Do not leave the vacuum unattended when plugged in. Unplug from outlet when not in use and before servicing. Do not allow to be used as a toy. Close attention is necessary when used by or near children. Use only as described in this manual. Use only manufacturer's recommended attachments.

PACKAGE CONTENTS

Your Shop-Vac 9522205 Hangup Wet/Dry Vacuum package includes the following components:

GREAT FOR GARAGES

Image: All components included in the Shop-Vac 9522205 package, clearly labeled with numbers.

- 1. 5 Gallon Wet/Dry Vacuum Unit
- 2. Small Cartridge Filter with Retainer
- 3. Foam Filter Sleeve
- 4. Disposable Filter Bag
- 5. (3) Extension Wands
- 6. Wall Mount Bracket
- 7. Wall Mounted Tool Holder
- 8. Round Brush
- 9. 10" Floor Nozzle
- 10. Crevice Tool
- 11. Utility Gulper Nozzle
- 12. 18 ft. Locking Hose (1-1/4" diameter)
- Power Cord (6 ft.)

SETUP

Wall Mounting

The Shop-Vac 9522205 is designed for convenient wall-mounted storage and use, ideal for garages and workshops. Use the included wall mount bracket and tool holder to secure the unit to a sturdy wall surface. Ensure the mounting location allows for easy access to the power outlet and sufficient clearance for the hose.

GARAGE FLOORS

Image: The Shop-Vac 9522205 unit mounted on a wall, with its long hose neatly wrapped around the top for compact storage.

Filter Installation

For dry pickup, install the cartridge filter with its retainer and, if desired, the disposable filter bag. For wet pickup, remove the cartridge filter and install the foam filter sleeve over the filter cage.

Hose and Accessory Connection

Connect the 18-foot LockOn hose to the inlet port on the vacuum. Attach the desired extension wands and cleaning nozzles (floor nozzle, utility nozzle, crevice tool, round brush) for your specific cleaning task. The wall-mounted tool

holder provides convenient storage for these accessories.

OPERATING INSTRUCTIONS

General Operation

Once assembled and plugged into a 120-volt outlet, turn the vacuum on using the power switch located on the top of the unit. The powerful 5.5 Peak HP motor provides strong suction for various cleaning needs.

Wet Pickup

Ensure the foam filter sleeve is installed for wet pickup. This vacuum is designed to clean damp sewage, spills, and other liquids. Do not pick up flammable or combustible liquids.

Image: A person using the Shop-Vac to clean up a liquid spill on a tiled floor, demonstrating its wet pickup capability.

Dry Pickup

For dry debris like dust, wood chips, and general dirt, ensure the cartridge filter is properly installed. The disposable filter bag can be used for easier disposal of dry debris.

Image: The vacuum cleaning up dry debris, including dirt and leaves, from a wooden floor, showcasing its dry pickup function.

Blowing Function

The vacuum can also be used as a powerful blower. To activate the blowing function, connect the hose to the exhaust port located on the vacuum unit. This is useful for clearing leaves, sawdust, or other light debris from surfaces.

Image: A person using the Shop-Vac to blow leaves and debris from an outdoor concrete surface, illustrating its blowing capability.

MAINTENANCE

Filter Care

Regularly inspect and clean or replace filters to maintain optimal suction performance. The cartridge filter can be cleaned by tapping off loose dirt or rinsing with water and allowing it to air dry completely. The foam filter sleeve can be rinsed with water and air dried. Replace disposable filter bags when full.

General Cleaning

Wipe down the exterior of the vacuum with a damp cloth. Periodically check the hose and accessories for blockages and clear them as needed.

TROUBLESHOOTING

If your vacuum is not operating as expected, please check the following common issues:

- **No Power:** Ensure the power cord is securely plugged into a working 120-volt outlet. Check the circuit breaker.
- **Loss of Suction:** Check if the filter is clogged and needs cleaning or replacement. Inspect the hose and attachments for blockages. Ensure the tank lid is securely latched.
- **Motor Overheating:** Turn off the vacuum and unplug it. Allow it to cool down. Check for blockages or full filters that might be causing the motor to work harder.

For persistent issues, please contact Shop-Vac customer support.
