2. SAFETY INFORMATION

Please read and understand all safety instructions before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- Always assemble the shelf on a clean, flat, and soft surface to prevent scratches.
- Ensure all parts are present and undamaged before beginning assembly. Do not use if any parts are missing or damaged.
- Do not overtighten screws during assembly to avoid stripping or damaging components.
- Securely attach the anti-toppling strap to a wall stud using appropriate hardware to prevent accidental tipping, especially in households with children or pets.
- Distribute weight evenly across the shelves. Do not exceed the maximum load capacity of 30 kg (66 lbs) per shelf.
- Do not climb on or stand on the shelf.

- Keep small parts and packaging materials away from children to prevent choking hazards.

3. PACKAGE CONTENTS

Verify that all components listed below are included in your package:

- Metal Frame Sections (Vertical supports)
- 6 x Engineered Wood Shelf Boards (P2 grade)
- Anti-Toppling Strap with Wall Anchors and Screws
- Adjustable Leveling Feet
- Assembly Hardware (Screws, Allen Wrench)
- Instruction Manual

4. ASSEMBLY INSTRUCTIONS

Follow these steps carefully to assemble your CAPHAUS 6-Tier Corner Shelf. It is recommended to have two people for assembly.

1. **Unpack and Identify Parts:** Lay out all components on a soft, clean surface. Refer to the parts list to ensure everything is present.
2. **Assemble the Metal Frame:** Connect the vertical metal frame sections using the provided screws. Ensure the pre-drilled holes for the shelves are facing inwards.
3. **Attach Shelf Boards:** Starting from the bottom, carefully slide and secure each engineered wood shelf board into the designated slots on the metal frame. Use the provided screws to fasten them. Ensure the smooth round edge of each shelf faces outwards.
4. **Install Adjustable Leveling Feet:** Screw the adjustable leveling feet into the bottom of the metal frame. These will help stabilize the shelf on uneven surfaces.
5. **Secure Anti-Toppling Strap:** Position the assembled shelf in its desired corner. Using the anti-toppling strap, secure the top of the shelf to a wall stud. Mark the drill points, drill pilot holes, insert wall anchors (if necessary), and then screw the strap securely to the wall. This step is crucial for stability and safety.
6. **Final Adjustments:** Adjust the leveling feet as needed to ensure the shelf is stable and does not wobble.

6. MAINTENANCE AND CARE

To ensure the longevity and appearance of your CAPHAUS corner shelf, follow these maintenance guidelines:

- **Spills:** Immediately wipe up any spills to prevent moisture damage to the engineered wood shelves.
- **Dusting:** Regularly dust the shelves and frame with a dry, soft cloth.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.
- **Environment:** Avoid placing the shelf in direct sunlight or near heat sources, as this can cause fading or warping of the wood. Maintain a stable room temperature and humidity.

If you encounter any issues with your CAPHAUS 6-Tier Corner Shelf, refer to the following common problems and solutions:
