3. Product Features

3.1 POSEIDON Tattoo Pen

The POSEIDON Tattoo Pen is crafted from premium aluminum alloy, ensuring durability and a comfortable grip. It incorporates advanced motor technology for stable and safe operation. The ergonomic design is compatible with all standard tattoo needles.

- **Material:** Premium Aluminum Alloy
- **Motor:** Advanced, ensuring power and safety
- **Working Voltage:** 6-11V
- **Compatibility:** All tattoo needles

3.2 Wireless Tattoo Batteries

The kit includes two wireless batteries to extend your tattooing sessions without interruption. Each battery features a 1500mAH capacity and offers 5-level voltage adjustment from 6 to 11 volts.

- **Quantity:** 2 batteries included
- **Capacity:** 1500mAH per battery
- **Working Voltage:** 6-11V (5-level adjustment)
- **Operating Time:** 3-6 hours per fully charged battery (depending on voltage and motor load)
- **Charging Time:** Approximately 2 hours for a full charge

Image 3.3: Depiction of the dual battery system, providing extended power for uninterrupted tattoo creation.

3.3 Tattoo Cartridge Needles

The included tattoo cartridge needles are disposable and sterilized by EO gas, individually packaged for hygiene. The tips are made from special materials to ensure stable needle work, easy coloring, faster ink absorption, and improved ink flow.

- **Sterilization:** EO gas, individually packaged
- **Tip Material:** Special material for stable performance
- **Ink Flow:** Optimized for better ink absorption and flow
- **Included Sizes:** 1205RL (5pcs), 1207RL (5pcs), 1209RS (5pcs), 1207RM (5pcs)

4. Setup

Follow these steps to set up your POSEIDON Tattoo Gun Kit:

1. **Charge Batteries:** Before first use, fully charge both wireless batteries using the provided TYPE-C charging cable. The battery indicator will show charging status.
2. **Attach Battery to Pen:** Align the battery with the top of the tattoo pen and gently push to connect. Ensure a secure connection.
3. **Insert Cartridge Needle:** Twist and push the desired cartridge needle into the front end of the tattoo pen until it clicks into place.
4. **Adjust Needle Length:** Rotate the grip of the tattoo pen to adjust the needle protrusion length. This allows for precise control over needle depth.

Image 4.1: Illustration showing how to connect the wireless battery to the POSEIDON Tattoo Pen.

Image 4.2: Diagram demonstrating how to adjust the needle length by rotating the pen's grip.

5. Operation

Once the kit is set up, you can begin operation:

1. **Power On:** Press and hold the power button on the wireless battery to turn on the tattoo pen. The display will illuminate, showing the current voltage.
2. **Adjust Voltage:** Use the '+' and '-' buttons on the battery to adjust the voltage. Start with a lower voltage (e.g., 6-8V) and gradually increase as needed for your specific application and needle type.
3. **Ink Preparation:** Pour a small amount of desired tattoo ink into an ink cap.
4. **Practice:** For beginners, it is highly recommended to practice on the included practice skin before tattooing on human skin. Dip the needle into the ink cap to load ink.
5. **Power Off:** After use, press and hold the power button to turn off the tattoo pen.

6. Maintenance

Proper maintenance ensures the longevity and hygiene of your tattoo kit:

- **Cleaning the Pen:** After each use, disconnect the battery and remove the needle cartridge. The non-slip handle of the tattoo pen can be disassembled for thorough cleaning and disinfection. Use appropriate sterilization solutions for tattoo equipment.
- **Needle Disposal:** Always dispose of used tattoo cartridge needles in a designated sharps container. Never reuse needles.
- **Battery Care:** Store batteries in a cool, dry place. Avoid overcharging or completely draining the batteries to prolong their lifespan.
- **Storage:** Store the tattoo pen and accessories in a clean, dry environment, away from direct sunlight and extreme temperatures.

Image 6.1: The non-slip handle can be disassembled for proper cleaning and disinfection.

7. Troubleshooting

If you encounter any issues with your POSEIDON Tattoo Gun Kit, refer to the following common problems and solutions:

- **Pen Not Turning On:**
  - Ensure the battery is fully charged.
  - Check that the battery is securely connected to the tattoo pen.
  - Press and hold the power button for a few seconds to activate.
- **Weak or Inconsistent Power:**
  - Recharge the battery.
  - Ensure the needle cartridge is properly seated and not damaged.
  - Check for any debris or obstruction in the pen's mechanism.
- **Needle Not Protruding/Retracting Properly:**
  - Verify the needle cartridge is correctly inserted and locked.
  - Adjust the grip to change the needle length.
  - Ensure the needle is not bent or damaged.
- **Excessive Vibration or Noise:**
  - Ensure all components are securely assembled.
  - Check if the needle cartridge is faulty; replace if necessary.
  - Confirm the working voltage is within the recommended range (6-11V).

If the issue persists after attempting these solutions, please contact customer support.

8. Specifications

Feature	Specification
Product Model	POSEIDON Tattoo Gun Kit
ASIN	B0D9K1935Z
GTIN / UPC	763312195597
Manufacturer	Vidattx
