Video: A comprehensive assembly guide for the 24V Ford Bronco Raptor 2-Seater Ride On Car, provided by the seller Seizeen. This video demonstrates step-by-step instructions for putting the vehicle together.

3.2. Battery Connection

Locate the battery compartment, typically under the seat. Connect the red terminal to the red wire and the black terminal

to the black wire. Ensure connections are secure. For the first use, charge the battery for 12 hours. Subsequent charges should be 8-10 hours.

3.3. Wheel Assembly

Attach the wheels to the axles. Ensure all washers and nuts are used as per the diagram in the manual to secure the wheels properly. The anti-skid and wear-resistant PP tires are designed for durability and traction.

Image: A detailed view of the large, non-slip wheels of the ride-on truck, highlighting their robust design for various terrains.

3.4. Steering Wheel Installation

Carefully align the steering wheel with the steering column. Push firmly until it clicks into place. Secure with the provided screw and screwdriver.

3.5. Seat Installation

Place the seats into the designated slots in the vehicle body. Ensure they are securely fastened. The 21-inch roomy dual seats are designed for comfort and feature independent 3-point safety harnesses.

Image: The interior of the ride-on truck showing the spacious 2-seater configuration, each with an independent safety belt.

3.6. Accessory Attachment

Attach any remaining accessories such as side mirrors and decorative lights as indicated in the manual. Ensure all connections are firm.

4. Operating Instructions

4.1. Power On/Off

Press the power button on the dashboard to turn the vehicle on or off. The dashboard display will illuminate.

4.2. Driving Modes

The vehicle offers two driving modes:

- **Manual Driving Mode:** Children can operate the vehicle using the steering wheel and foot pedal. Features soft start and high/low speed options for safe racing.
- **Remote Control Mode:** Parents can control the vehicle using the included 2.4G remote control for added safety and guidance. The remote control's instructions override manual driving, and it includes an emergency brake button.

4.3. Controls and Features

- **Steering Wheel:** Turn left or right to navigate.
- **Foot Pedal:** Press to accelerate.
- **Horn:** Press the horn button on the steering wheel for sound.
- **Speed Settings:** Select between 3 speed settings for varied driving experiences.
- **Working Headlights:** Realistic LED headlights enhance the driving experience.
- **Built-in Music Player:** Listen to the radio or connect your phone via Bluetooth to play your child's favorite audio content.

5. Safety Guidelines

Your child's safety is paramount. Always ensure proper supervision and adherence to these guidelines:

- Always use the 3-point safety harnesses provided for each seat.
- Ensure the lockable doors are securely closed before driving.
- The vehicle is designed for children aged 3-8 years.
- Maximum load capacity is 132 lbs. Do not exceed this weight.
- Always supervise children during operation.
- Do not operate near stairs, steep inclines, public roads, or swimming pools.
- The parental remote control should be used for younger children or in areas requiring strict control.

6. Maintenance

6.1. Battery Care

- Charge the battery for 8-10 hours after each use.
- For the first charge, allow 12 hours.
- Do not overcharge the battery.
- Store the vehicle with a fully charged battery if not in use for extended periods.

6.2. Cleaning and Storage

- Wipe the vehicle with a damp cloth. Do not use abrasive cleaners.
- Store the vehicle in a dry, cool place away from direct sunlight and moisture.

7. Troubleshooting

If you encounter issues, please refer to these common solutions:

- **Vehicle not turning on:** Check battery connections. Ensure the battery is fully charged.
- **Vehicle not moving:** Verify the foot pedal is fully pressed. Check if the remote control is active and overriding manual mode.
- **Remote control not working:** Ensure batteries are correctly installed in the remote. Re-pair the remote with the vehicle as per the manual's instructions.
- **Reduced power/speed:** Battery may be low or nearing the end of its lifespan. Ensure the vehicle is not overloaded.
