Troubleshooting

If you encounter issues with your Csasan Smart Watch T70, please refer to the following common solutions:

- **Watch not turning on:** Ensure the watch is fully charged. Connect it to the magnetic charger and allow it to charge for at least 30 minutes.
- **Cannot pair with phone:**
    - Ensure Bluetooth is enabled on your phone and the watch.
    - Make sure the watch is within the Bluetooth range of your phone (typically 10 meters).
    - Restart both your phone and the watch.
    - Check if the "GloryFit" app is updated to the latest version.
    - For iOS users, ensure the separate audio Bluetooth connection is established if needed (refer to Setup Guide).
- **Notifications not received:**
    - Ensure the watch is successfully paired and connected to the "GloryFit" app.

- Check app notification permissions on your phone for the "GloryFit" app.
- Verify that notification push is enabled within the "GloryFit" app settings for specific applications.
- Ensure "Do Not Disturb" mode is not active on the watch.

- **Inaccurate health data:**

  - Ensure the watch is worn snugly on your wrist, but not too tight.
  - Clean the sensor on the back of the watch regularly.
  - For best results, remain still during heart rate or blood oxygen measurements.

- **Short battery life:**

  - Reduce screen brightness.
  - Limit the number of active notifications.
  - Disable continuous heart rate monitoring if not needed.
  - Ensure the watch is fully charged each time.

If problems persist, please contact Csasan customer support for further assistance.
