

## **WELLFOR Dual Showerheads System**

### **WELLFOR Single-Handle 2-Spray High-Pressure Shower Faucet**

#### **DUAL SHOWER HEAD FAUCET SET USER MANUAL**

Model: Dual Showerheads System (Brushed Gold)

#### **Product Overview**

This manual provides detailed instructions for the installation, operation, and maintenance of your WELLFOR Single-Handle 2-Spray High-Pressure Shower Faucet with Dual Shower Heads. Designed for optimal performance and durability, this system features advanced pressure-balanced technology for stable water flow and a versatile dual showerhead system.

Image: The WELLFOR Single-Handle 2-Spray High-Pressure Shower Faucet in Brushed Gold, showcasing the main faucet body and the dual shower heads.

Key features include a high-quality ABS shower head, a solid brass valve body for reliability, and an easy-to-use 3-way water diverter. The adjustable ball joint allows for personalized comfort by enabling 360° rotation of the showerheads.

## Setup and Installation

Before beginning installation, ensure all components are present and that you have the necessary tools. It is recommended to consult a professional plumber if you are unsure about any steps.

### Components Included:

- Single-Handle Faucet Body
- Fixed Shower Head
- Handheld Shower Head
- Shower Hose
- Mounting Hardware
- User Manual (this document)

**Dimensional Drawing:**

Image: A dimensional drawing illustrating the key measurements of the WELLFOR shower faucet system, including the fixed shower head, handheld shower head, and the main valve body. All measurements are in inches.

**Valve Body Details:**

The solid brass valve body is designed for durability and features a cUPC Pressure Balance Cartridge to ensure stable water temperature and flow. It includes clearly marked hot and cold water connectors (1/2" NPT) and a water flow

adjustable screw.

#### Installation Steps (General Guidance):

1. Turn off the main water supply to your home.
2. Prepare the wall opening for the valve body according to the dimensional drawing.
3. Connect the hot and cold water lines to the corresponding inlets on the valve body.
4. Install the valve body securely within the wall.
5. Connect the shower head and handheld shower hose to the appropriate outlets.
6. Install the decorative trim plate and handle.
7. Test for leaks and ensure proper function before sealing the wall.

#### Operating Instructions

Your WELLFOR shower faucet is designed for ease of use, offering multiple functions and spray patterns.

### Single Handle Operation:

Image: Illustration of the single handle operation. Rotate the handle left for hot water, right for cold water, and lift to open the water flow.

The single handle controls both water temperature and flow. Rotate the handle to the left for hotter water and to the right for colder water. Lift the handle to turn on the water flow and push down to turn it off.

### 3-Way Water Diverter:

The integrated 3-way diverter allows you to easily switch between the fixed shower head, the handheld shower head, or use both simultaneously.

## 3-WAY DIVERTER

Image: Visual representation of the 3-way diverter, showing how to switch between the fixed shower head, handheld shower head, or both operating at the same time.

### 7 Spray Patterns:

Both the fixed and handheld shower heads offer 7 distinct spray patterns for a customized showering experience. Rotate the spray face on each shower head to select your desired pattern.

# 7

Spray Patterns

Dual Shower head each has 7 functions, can be used together

Image: A collage demonstrating the 7 different spray patterns available on both the fixed and handheld shower heads, illustrating the variety of water flows.

#### Adjustable Ball Joint:

The fixed shower head features an adjustable ball joint, allowing you to rotate it 360° to direct the water spray precisely where you need it for optimal comfort.

#### Maintenance and Care

Proper maintenance will ensure the longevity and continued performance of your WELLFOR shower faucet.

- Cleaning:** Clean the faucet and shower heads regularly with a soft cloth and mild soap or a non-abrasive cleaner specifically designed for bathroom fixtures. Avoid harsh chemicals, abrasive cleaners, or scouring pads, as these can damage the brushed gold finish.
- Mineral Deposits:** For areas with hard water, mineral deposits may accumulate on the shower head nozzles. Gently rub the rubber nozzles to dislodge any buildup. For stubborn deposits, a solution of white vinegar and water can be used, but ensure to rinse thoroughly afterwards.

- Finish Care:** The brushed gold finish is durable but can be scratched by sharp objects or abrasive materials. Always use soft cloths for cleaning and drying.
- Valve Body:** The solid brass valve body and ceramic disc cartridge are designed for long-term reliability and typically require no user maintenance. If you experience consistent issues with water flow or temperature, consult a qualified plumber.

## Troubleshooting

If you encounter any issues with your WELLFOR shower faucet, refer to the following common troubleshooting tips:

Problem	Possible Cause	Solution
Low Water Flow	Clogged shower head nozzles; partially closed shut-off valve; low water pressure in home.	Clean shower head nozzles; ensure shut-off valves are fully open; check home's main water pressure.
Inconsistent Water Temperature	Pressure balance cartridge issue; hot/cold water supply imbalance.	Verify hot and cold water supply is adequate; if issue persists, a professional plumber may need to inspect or replace the cartridge.
Leaks from Shower Head or Hose	Loose connections; worn washers/gaskets; damaged hose.	Tighten connections; replace worn washers/gaskets; replace damaged hose.
Divertor Not Switching Properly	Mineral buildup in diverter; internal mechanism issue.	Flush diverter with water; if issue persists, contact customer support.

If the problem persists after attempting these solutions, please contact WELLFOR customer support for further assistance.

## Specifications

Attribute	Detail
Brand	WELLFOR
Model Number	Dual Showerheads System
Color	Brushed Gold
Material	Brass (Valve Body), ABS (Shower Head), Stainless Steel (Handle)
Finish Type	Brushed
Number of Handles	1
Mounting Type	Wall Mount
Item Weight	5.5 Pounds (approx. 2.5 kg)
