What's in the Box

Verify that all items are present in the package:

- DOOGEE N55 Cell Phone
- USB Cable

- Charger
- Anti-explosion film (pre-applied)
- Manual

Setup

1. SIM Card and TF Card Installation

The DOOGEE N55 supports dual SIM cards or one SIM card and one TF (microSD) card for expandable storage up to 1TB.

1. Locate the SIM card tray on the side of the phone.
2. Insert the SIM ejector tool into the small hole next to the tray to open it.
3. Place your Nano-SIM card(s) and/or TF card into the designated slots on the tray, ensuring correct orientation.
4. Gently push the tray back into the phone until it clicks into place.

2. Initial Charging

Before first use, fully charge your DOOGEE N55. Use the provided charger and USB cable.

1. Connect the USB cable to the charger.
2. Plug the charger into a power outlet.
3. Connect the USB cable to the phone's charging port.
4. The battery indicator on the screen will show charging progress.

3. Powering On/Off

- **To Power On:** Press and hold the Power button (located on the side) until the DOOGEE logo appears.
- **To Power Off:** Press and hold the Power button until the power options menu appears, then select "Power off".
- **To Restart:** Press and hold the Power button until the power options menu appears, then select "Restart".

Operating Instructions

Android 14 Operating System

The DOOGEE N55 runs on the latest Android 14, offering enhanced privacy, customization, and efficiency. Explore

features like Material You+ design, customizable lock screens, and improved AI technology.

Connectivity

The device supports various connectivity options for seamless communication and navigation:

- **Dual 4G SIM:** Use two SIM cards simultaneously or one SIM and one TF card.
- **Bluetooth:** Version 5.0 for wireless accessory connection.
- **Wi-Fi:** For internet access.
- **USB:** For charging and data transfer.
- **NFC:** For contactless payments and data exchange.
- **GPS:** Built-in GPS for accurate navigation (GPS, Glonass, Galileo, Beidou).

Face Unlock

The DOOGEE N55 features Face Unlock for convenient and secure access to your device. Simply look at the front

camera to unlock your phone.

Widevine L1 Support

Enjoy high-definition streaming content from platforms like YouTube, Amazon Prime Video, and Hulu with Widevine L1 support, ensuring optimal video quality.

Maintenance

Battery Care

The DOOGEE N55 is equipped with a 5150mAh battery designed for long-lasting performance. To maximize battery life:

- Avoid extreme temperatures.
- Use only the provided charger and cable.
- Do not let the battery completely drain frequently.
- Unplug the charger once the battery is full.

Screen Care

The screen features a vacuum coating for enhanced durability and clarity:

- **Anti-fingerprint:** Minimizes residue, reducing cleaning frequency.
- **Anti-oil Stains:** Repels grease and stains.
- **Abrasion Resistance:** Provides durability against scratches.
- **Transparency:** Maintains screen clarity and color accuracy.

To clean the screen, use a soft, lint-free cloth. For stubborn smudges, slightly dampen the cloth with water or a screen cleaner designed for electronics.

General Cleaning

Wipe the phone's body with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.

Troubleshooting

This section addresses common issues you might encounter with your DOOGEE N55.

Phone Not Powering On

- Ensure the battery is sufficiently charged. Connect the charger and wait a few minutes before attempting to power on.
- Press and hold the Power button for at least 10-15 seconds to force a restart.

Network Connectivity Issues (e.g., "Not Unlocked")

While the DOOGEE N55 is advertised as an unlocked phone, network compatibility can vary by carrier. If you experience

issues connecting to your carrier's network:

- Verify that your SIM card is correctly inserted and activated with your carrier.
- Check your carrier's APN (Access Point Name) settings and ensure they are correctly configured on your phone. You can usually find these settings in *Settings > Network & internet > Mobile network > Access Point Names*
- Confirm with your carrier that the DOOGEE N55 model (N55 Black) is fully compatible with their network bands and services (e.g., VoLTE).
- Try restarting the phone.

Apps Lagging or Crashing

- Close background applications to free up RAM.
- Clear the cache of the problematic app (*Settings > Apps > [App Name] > Storage & cache > Clear cache*).
- Ensure you have sufficient internal storage available. Delete unnecessary files or move them to a TF card.
- Update the app to its latest version from the Google Play Store.
- If the issue persists, consider uninstalling and reinstalling the app.

Poor Camera Quality

- Ensure the camera lens is clean and free of smudges.
- Check lighting conditions. Use Night Mode in low light.
- Experiment with different camera modes and settings (e.g., HDR).
