EMKE UXMC02JKDSX1W

EMKE LED Lighted Bathroom Cabinet with Mirror

Model: UXMC02JKDSX1W | Brand: EMKE

Product Overview

The EMKE LED Lighted Bathroom Cabinet with Mirror combines modern design with essential functionality, offering a stylish and practical solution for any bathroom. This cabinet features double-sided mirrors, smooth 110° hydraulic hinges, and customizable LED lighting. It provides generous storage space and an integrated shaver socket, making it ideal for optimizing space and convenience in smaller bathrooms.
The package includes one bathroom mirror cabinet, assembly instructions, and necessary fastening materials.

Important Safety Information

Please read and understand all safety instructions before installation and use. Failure to follow these instructions may result in injury or damage to the product.

- Ensure proper wall mounting to prevent the cabinet from tipping. Use appropriate fasteners for your wall type.
- The integrated socket is designed for low-power devices only, such as electric toothbrushes and razors. Do not use high-power devices (e.g., hair dryers, curling irons) in this socket to avoid electrical overload or damage.
- Handle the LED lighting components with care to prevent damage. Do not attempt to replace LED strips yourself; contact qualified personnel if service is required.
- Keep the cabinet and electrical components away from excessive moisture or direct water spray.
- Do not allow children to play with or climb on the cabinet.

Key Product Features

Modern Design and Functionality

The sleek EMKE bathroom mirror cabinet features double-sided mirrors and 110° hydraulic hinges for smooth, quiet operation. The wide-angle opening offers easy access, and the double-sided mirrors eliminate repeated door openings. Its compact design maximizes space in smaller bathrooms, blending style and practicality.

Optimized Storage and Power Socket

This quality bathroom storage cabinet provides ample storage with tempered glass shelves and a convenient power socket for low-power devices like electric toothbrushes and shavers. Enjoy a clutter-free countertop with well-organized essentials, keeping everything you need within easy reach. (Note: High-power devices are not supported).

Enhanced Lighting and Clear Vision

Enjoy customizable LED lighting with 3 color temperatures (3000K, 4000K, 6500K) and adjustable brightness from 10% to 100%, controlled via touch or wall switch with a memory function. An independent fog-free feature activates as needed, keeping the mirror clear after hot showers for precise grooming.

Setup and Installation

This EMKE bathroom cabinet is designed for wall-mounted installation and comes pre-assembled, requiring no complex assembly steps. The installation process is straightforward and typically takes 10-15 minutes.

Installation Steps:

1. **Preparation:** Before beginning, ensure you have the necessary tools (e.g., drill, level, measuring tape) and that the installation area is suitable for wall mounting. Please measure the size of the installation area to ensure proper fit.
2. **Marking:** Use the provided assembly instructions and fastening material to accurately mark the drilling points on the wall. Ensure the marks are level.
3. **Drilling:** Drill holes at the marked points, ensuring the depth and diameter are appropriate for the wall anchors provided.
4. **Mounting:** Securely attach the cabinet to the wall using the supplied fastening materials. Double-check that the cabinet is firmly mounted and stable before use.
5. **Electrical Connection:** Connect the cabinet's electrical wiring to your bathroom's power supply according to local electrical codes. It is recommended to have this step performed by a qualified electrician.

For detailed visual guidance, refer to the assembly instructions included in your package.

Operating Instructions

LED Lighting Control:

- **Power On/Off:** The LED lighting can be turned on or off using the touch sensor on the mirror surface or via a compatible wall switch.
- **Color Temperature Adjustment:** Tap the touch sensor to cycle through the three light color temperatures: Warm White (3000K), Neutral White (4000K), and Cool White (6500K).
- **Brightness Adjustment:** Press and hold the touch sensor to dim or brighten the light from 10% to 100%. Release when the desired brightness is achieved.
- **Memory Function:** The cabinet's lighting system includes a memory function that retains your last chosen brightness and color temperature settings when turned off and on again.
- **Wall Switch Support:** The cabinet supports control via an external wall switch. For this functionality, the touch switch on the mirror must remain in the "on" position.

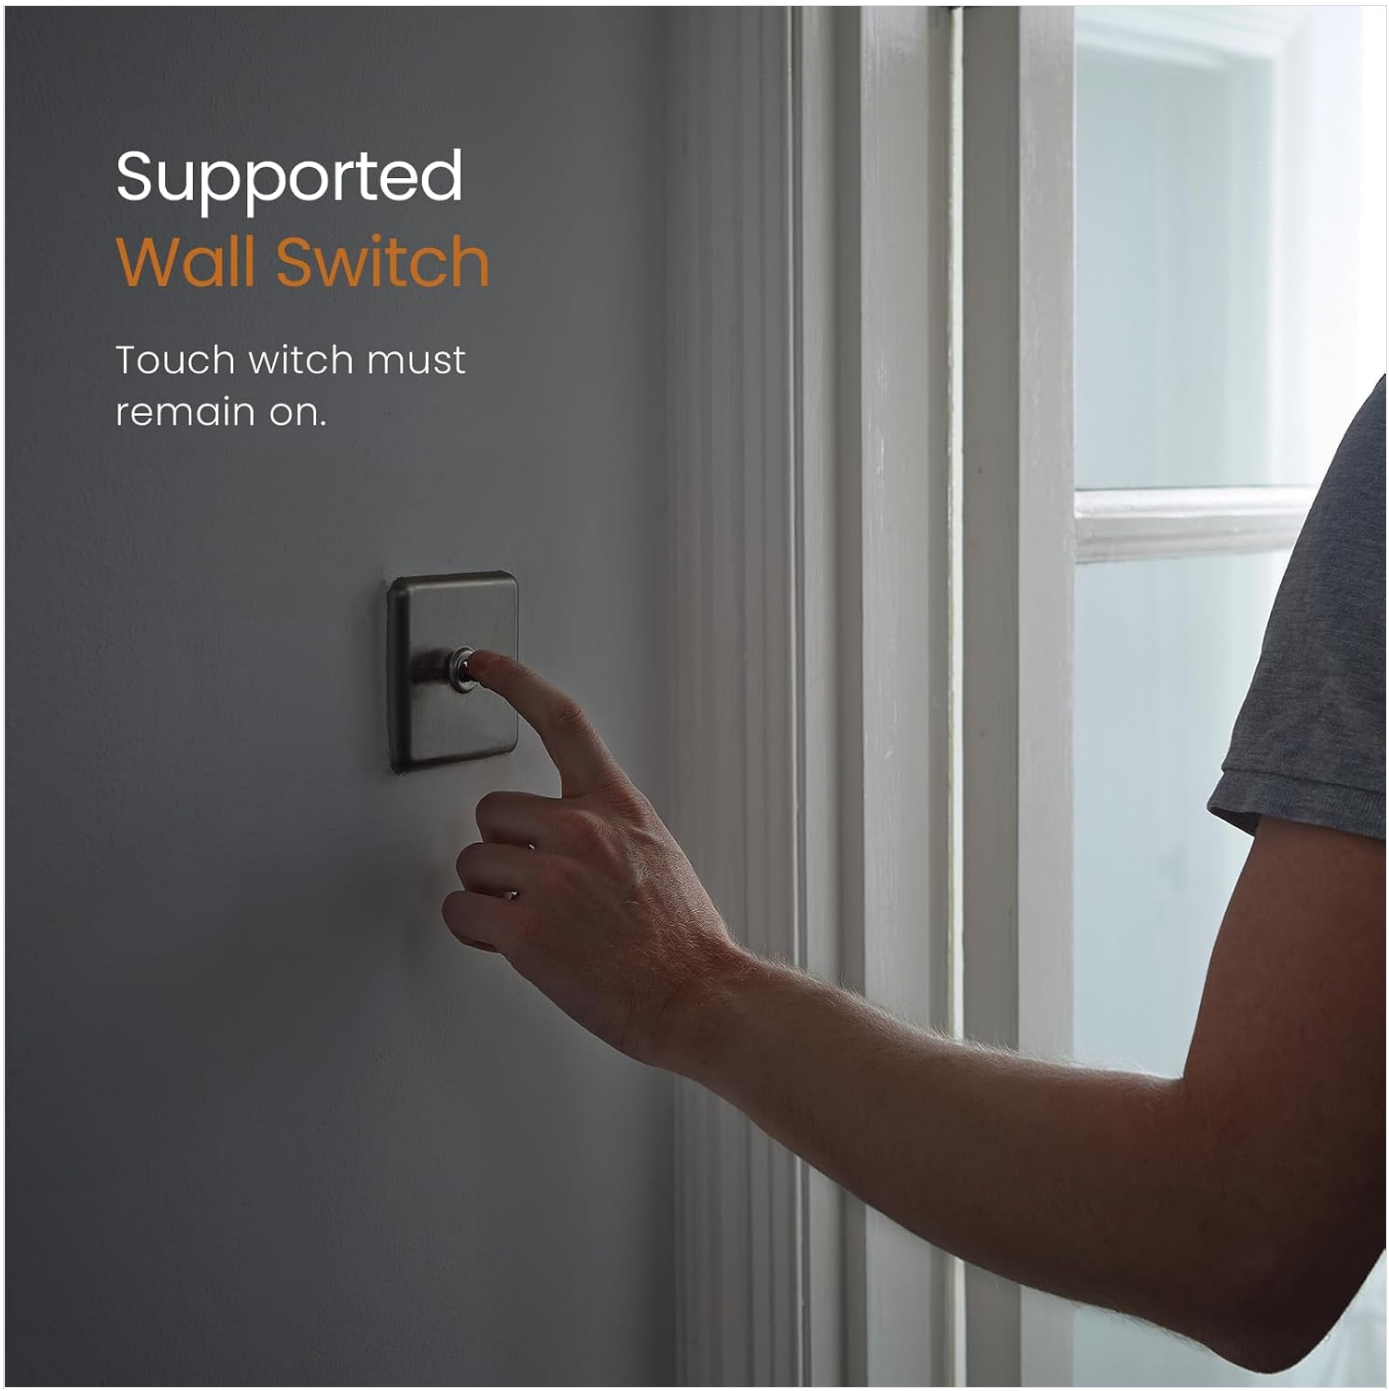

Image: A hand pressing a wall switch, indicating that the EMKE bathroom cabinet's lighting can be controlled externally, provided the touch switch on the mirror remains active.

Anti-Fog Function:

- The anti-fog feature is activated independently via a dedicated touch button on the mirror surface.
- Press the anti-fog button to activate the defogging function, which will clear condensation from the mirror surface, ensuring clear visibility after hot showers.
- Press the button again to deactivate the anti-fog function.

Shaver Socket Usage:

- The integrated shaver socket is located inside the cabinet.
- This socket is designed for charging or powering low-power devices such as electric toothbrushes and razors.
- **Important:** Do not plug in high-power appliances (e.g., hair dryers, curling irons) into this socket, as it is not designed to handle such loads and may cause damage to the cabinet or appliance.

Care and Maintenance

To ensure the longevity and optimal performance of your EMKE bathroom cabinet, follow these simple care instructions:

- **Cleaning the Mirror and Cabinet Surfaces:** Wipe all surfaces, including the mirror and cabinet exterior, with a soft, dry cloth. For stubborn spots, a slightly damp cloth with a mild, non-abrasive cleaner can be used, followed immediately by drying with a clean, dry cloth.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, ammonia-based products, or harsh chemicals, as these can damage the mirror coating, finish, or electrical components.
- **Electrical Components:** Ensure the cabinet is disconnected from the power supply before cleaning any electrical components or the area around the shaver socket. Do not spray water directly onto the cabinet or its electrical parts.
- **Hinges:** Periodically check the hydraulic hinges for smooth operation. If necessary, wipe away any dust or debris.

Troubleshooting

If you encounter any issues with your EMKE LED Lighted Bathroom Cabinet, please refer to the following common troubleshooting tips:

- **Lights Not Turning On:**
  - Check if the cabinet is properly connected to the power supply.
  - Ensure the wall switch (if used) is in the "on" position.
  - Verify that the touch sensor on the mirror is clean and unobstructed.
- **Anti-Fog Not Working:**
  - Ensure the anti-fog function is activated via its dedicated touch button.
  - Allow a few minutes for the heating element to warm up and clear the fog.
- **Shaver Socket Not Functioning:**
  - Confirm the cabinet has power.
  - Ensure the device being plugged in is a low-power appliance as specified.
- **Door Not Closing Smoothly:**
  - Check for any obstructions inside the cabinet or near the hinges.
  - Inspect the hydraulic hinges for any visible damage or misalignment.

If the problem persists after attempting these steps, please contact EMKE customer support for further assistance.

Warranty and Customer Support

EMKE is committed to providing high-quality products and excellent customer service. Your bathroom cabinet is packaged meticulously in reinforced boxes to enhance protection during shipping.
For any technical assistance, product inquiries, or after-sales support, please contact EMKE customer service. Our team is ready to provide comprehensive support to ensure your satisfaction.
