MiroPure 1 Inch 2-in-1 Ceramic Flat Iron and Hair Curler Instruction Manual

Model: EF008

1. INTRODUCTION

Thank you for choosing the MiroPure 1 Inch 2-in-1 Ceramic Flat Iron and Hair Curler. This versatile styling tool is designed to help you achieve sleek, straight hair or beautiful curls with ease. Please read this manual thoroughly before use to ensure safe and effective operation.

2. SAFETY INFORMATION

The flat iron and its plates become extremely hot during use. Always handle the device carefully and avoid contact with heated surfaces. Keep out of reach of children and pets to prevent burns or injuries. Do not use the appliance on wet hair. Ensure your hair is completely dry before use to avoid damaging the hair and the device. Always unplug the device when not in use or before cleaning. Ensure that the power cord is not damaged or frayed. If the cord is damaged, do not attempt to repair it. Contact the manufacturer for a replacement.

3. PRODUCT FEATURES

- **4 Temperature Settings:** Adjustable temperature from 176°F to 445°F (80°C to 230°C) to suit all hair types.
- **PTC Ceramic Heating Technology:** Heats up in 30 seconds for quick styling and even heat distribution.
- **1" 3D Floating Plates:** Unique design reduces hair pulling, creating silky, shiny, and frizz-free results.
- **60-Minute Auto Shut-Off:** Enhances safety by automatically turning off after 60 minutes of non-use.
- **Safety Lock:** Convenient for storage and travel.
- **360° Swivel Cord:** Provides styling flexibility and prevents tangling.
- **Versatile 2-in-1 Design:** Functions as both a flat iron for straightening and a curling iron for waves and curls.

Figure 5: Safety features include a 60-minute auto shut-off and a flexible 360° swivel cord.

HINGED LOCK DESIGN

Feature with hinged lock design facilitates storage

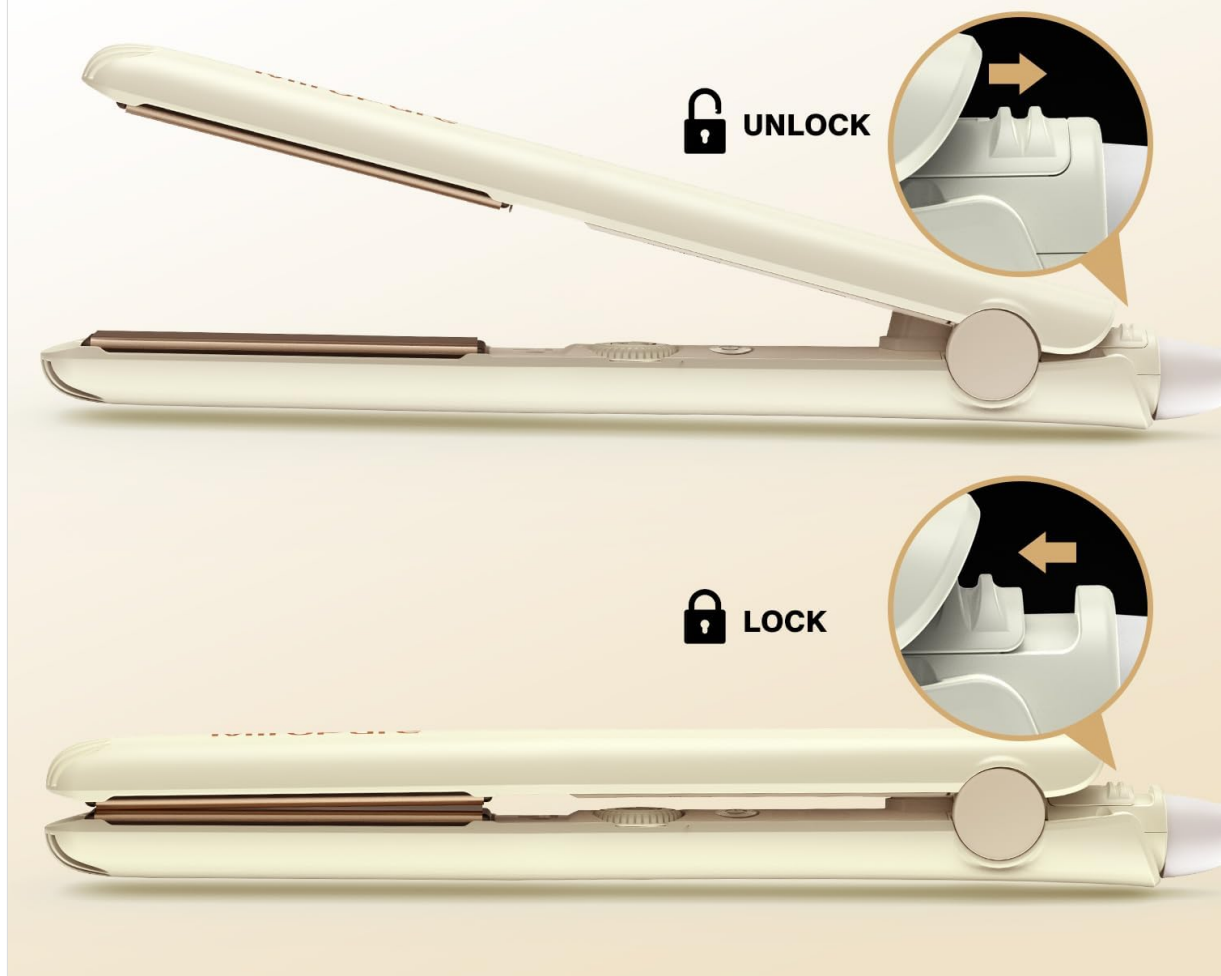

Figure 6: Hinged lock design for secure and convenient storage.

4. SETUP

1. Unpack the MiroPure Flat Iron and all accessories.
2. Ensure the device is clean and free from any packaging materials.
3. Plug the power cord into a suitable electrical outlet.
4. Unlock the plates by sliding the safety lock mechanism (if engaged).

5. OPERATING INSTRUCTIONS

General Use

1. Ensure your hair is clean, dry, and detangled before use.
2. Press and hold the power button to turn on the device.
3. Adjust the temperature using the dial or buttons to your desired setting (refer to Section 6 for guidance).
4. Allow the device to heat up for approximately 30 seconds until the indicator light stabilizes.
5. Section your hair into manageable portions using clips.

Straightening Hair

1. Take a small section of hair (about 1-2 inches wide).
2. Place the hair between the plates, close to the roots.
3. Gently glide the straightener down the hair section from root to tip in one smooth motion. Avoid holding the plates in one spot for too long.
4. Repeat on all sections until desired straightness is achieved.

Curling Hair

1. Take a small section of hair.
2. Clamp the hair between the plates at the desired starting point for the curl.
3. Rotate the straightener 180 degrees away from your face.
4. Slowly pull the straightener down the hair section, maintaining the rotation.
5. Release the hair and allow the curl to cool before styling.

6. TEMPERATURE SETTINGS

The MiroPure Flat Iron offers 4 adjustable temperature settings to cater to various hair types:

Temperature	Hair Type Recommendation
176°F - 356°F (80°C - 180°C)	Thin & Soft Hair
356°F - 410°F (180°C - 210°C)	Normal & Curly Hair
410°F - 445°F (210°C - 230°C)	Thick & Coarse Hair

Always start with the lowest effective temperature and increase gradually if needed to prevent heat damage.

7. MAINTENANCE AND CARE

- **Cleaning:** Ensure the device is unplugged and completely cool before cleaning. Wipe the plates and exterior with a soft, damp cloth. Do not use abrasive cleaners or immerse the device in water.
- **Storage:** After use, allow the flat iron to cool completely. Engage the safety lock to keep the plates closed. Wrap the cord neatly using the provided Velcro strap. Store in a dry, safe place away from moisture and extreme temperatures.

8. TROUBLESHOOTING

- **Device not turning on:** Ensure the power cord is securely plugged into a working outlet. Check for any damage to the cord.
- **Device not heating up:** Verify that the temperature setting is selected and the indicator light is stable. Allow sufficient time for heating (approx. 30 seconds).
- **Hair pulling or snagging:** Ensure hair is thoroughly detangled before use. Take smaller sections of hair. The 3D floating plates are designed to minimize pulling.
- **Hair not straightening/curling effectively:** Ensure hair is completely dry. Adjust to a higher temperature

setting suitable for your hair type, if necessary. Glide the tool slowly and evenly through hair.
