ZEALFEEL GN-HP-10x7A-S

ZEALFEEL 10x7ft Golf Practice Net with Chipping Net

Model: GN-HP-10x7A-S

Introduction

Thank you for choosing the ZEALFEEL 10x7ft Golf Practice Net. This manual provides essential instructions for the safe and effective setup, operation, and maintenance of your golf practice equipment. Please read this manual thoroughly before assembly and use, and retain it for future reference.

Image: The complete ZEALFEEL 10x7ft Golf Practice Net system, including the main net, chipping net, golf mat, and other accessories.

What's Included

Your ZEALFEEL Golf Practice Net package includes the following components:

- 1 x Golf Net (10x7ft)
- 1 x Golf Mat
- 1 x Chipping Net
- 1 x Silk Target
- 6 x PU Golf Balls
- 7 x Golf Tees
- 1 x Rubber Tee
- 4 x Ground Stakes
- 1 x Carry Bag

Setup Instructions

The ZEALFEEL Golf Practice Net is designed for quick and easy assembly. Follow these steps for proper setup:

1. **Unpack Components:** Remove all items from the carry bag and lay them out on a clear, flat surface. Ensure all listed components are present.
2. **Assemble Frame:** Connect the fiberglass poles according to the labeled sections. The poles are enhanced with Poletech technology for strength.
3. **Attach Netting:** Carefully slide the netting over the assembled frame. Ensure the 5-ply reinforced netting is correctly positioned and secured to the frame.
4. **Install Silk Target:** Attach the silk target to the designated hooks or loops inside the main net. This target provides a focal point for practice and absorbs impact.
5. **Secure with Ground Stakes:** For outdoor use, use the provided ground stakes to firmly anchor the metal base of the net to the ground. This ensures stability, especially in windy conditions.

6. **Set up Chipping Net:** The chipping net can be set up separately. It features three target zones for varied short game practice.
7. **Position Golf Mat:** Place the golf mat in front of the net. Use the appropriate tee (rubber or standard) for your practice needs.

Operating Instructions

Using the Main Golf Net

The main net is designed for full swing practice with real golf balls. Its 5-ply reinforced netting can withstand ball speeds up to 200 mph.

- Ensure the net is securely set up and anchored, especially outdoors.
- Place the golf mat at a comfortable distance from the net, allowing for a full swing.
- Aim for the silk target to improve accuracy and reduce wear on the net.
- Always maintain a safe distance from the net and ensure no bystanders are in the hitting area.

Using the Chipping Net

The chipping net is ideal for practicing your short game, including lob shots, pitch shots, and chip shots.

- Position the chipping net at varying distances to practice different shot types.
- Utilize the three target zones to improve precision and control.
- Use the included foam practice balls or your preferred chipping balls.

Maintenance

Proper maintenance will extend the lifespan of your ZEALFEEL Golf Practice Net.

- **Cleaning:** Wipe down the frame and netting with a damp cloth as needed. Avoid harsh chemicals that may damage the materials.
- **Storage:** When not in use, especially for extended periods or during inclement weather, disassemble the net and store it in the provided carry bag. Store in a cool, dry place away from direct sunlight.
- **Inspection:** Regularly inspect the netting, poles, and seams for any signs of wear, tear, or damage. The reinforced side panels and double-stitched seams are designed for durability, but regular checks are recommended.
- **Ground Stakes:** Ensure ground stakes are clean and free of rust before storage.

Image: A detailed view of the 5-ply anti-tear netting, designed for high-tensile strength and durability against golf ball impacts.

Troubleshooting

If you encounter any issues with your golf practice net, refer to the following common solutions:

- **Net Instability:** Ensure all poles are fully connected and the metal base is flat on the ground. For outdoor use, verify that all four ground stakes are firmly inserted into the soil.
- **Net Sagging:** Check that the netting is properly stretched and attached to all connection points on the frame. Re-adjust if necessary.
- **Difficulty Assembling/Disassembling:** Refer to the setup instructions and ensure poles are aligned correctly. The labeled tubes are designed to guide the process. Do not force connections.
- **Damage to Netting:** While the netting is durable, extreme impact or sharp objects can cause damage. Inspect for small tears and consider repair kits for minor issues. For significant damage, contact customer support.

Specifications

Feature	Detail
Model Number	GN-HP-10x7A-S
Dimensions	10' (Width) x 7' (Height)
Material	5-ply Reinforced Netting, Alloy Steel, 16mm Fiberglass Poles
Color	Black & Red
Netting Durability	Withstands ball speeds up to 200 mph
