## BIUSIKAN Y

# BIUSIKAN Bassinet Bedside Sleeper Instruction Manual

Model: Y

## INTRODUCTION

Thank you for choosing the BIUSIKAN Bassinet Bedside Sleeper. This manual provides essential information for the safe assembly, operation, and maintenance of your product. Please read all instructions carefully before use and keep this manual for future reference.

### Important Safety Warnings

- Always ensure all parts are correctly assembled and securely fastened before placing your baby in the bassinet.
- Never leave your child unattended in the bassinet.
- Discontinue use of the bassinet when the infant begins to push up on hands and knees, or has reached 33 pounds, or is 5 months old, whichever comes first.
- Do not use this product if any parts are missing, damaged, or broken. Contact customer service for replacement parts.
- Ensure the bassinet is placed on a firm, horizontal level surface.
- Keep small parts away from children during assembly.

## PACKAGE CONTENTS

Please verify that all components are present before beginning assembly:

- Bassinet Frame (main legs, support frames)
- Bassinet Fabric with Mesh Sides

## SETUP INSTRUCTIONS

Follow these steps to assemble your BIUSIKAN Bassinet Bedside Sleeper:

Your browser does not support the video tag.

Video: Step-by-step guide on how to assemble the BIUSIKAN Baby Bassinet, demonstrating the connection of frame components.

1. **Assemble the Main Legs:** Insert the two curved legs into the main vertical legs. Ensure they click securely into place.
2. **Attach Rear Support Frame:** Insert the rear support frame into the designated slots on both main legs. Tighten the screws on both sides to secure.
3. **Attach Front Support Frame:** Assemble the front support frame and insert it into the adjustable side of the bassinet, pushing it upward into the mesh holes.
4. **Cover with Fabric:** Drape the bassinet fabric over the assembled frame. Ensure the mesh sides are correctly positioned.
5. **Secure Bottom Straps:** Fix the bottom straps of the fabric cover to the frame using the provided clips.
6. **Install Storage Basket:** Insert the storage basket into the bottom frame and secure it with the attached bands.
7. **Place Mattress:** Put the high-density cotton mattress into the bassinet, ensuring it lies flat and snug.

## Soft & Comfortable Mattress

Suitable for baby's spine

- High-density cotton fiber mattress

- Eco-friendly cationic fabrics

Image: A baby resting comfortably on the bassinet mattress, emphasizing its soft and supportive design.

8. **Attach Mosquito Net:** If included, place the mosquito net over the bassinet to protect your baby.

## OPERATING INSTRUCTIONS

## 1. Adjusting Height

The bassinet features six height settings to match various bed heights (19 to 24 inches). To adjust, locate the height adjustment buttons on the side legs, press them, and slide the bassinet to your desired height. Ensure both sides are adjusted evenly.

# 6 Height & Angle Adjustment

Suitable for baby's spine

## 2. Bedside Sleeper Mode

For co-sleeping, lower one side of the bassinet by unzipping the fabric and releasing the side bar. Secure the bassinet to your adult bed using the provided safety straps. Always ensure a snug fit between the bassinet and your bed to prevent gaps.

# Bedside Sleeper Mode

Seamlessly secured to mom's bed with straps

Image: The bassinet configured for bedside sleeper mode, showing the lowered side and its secure placement next to a bed.

### 3. Incline Mode

The bassinet can be set to an incline of 3-8 degrees to help prevent baby reflux. Adjust one side of the bassinet to a higher setting than the other to achieve this angle. Ensure the incline is gentle and safe for your baby.

#### 4. Using the Wheels

The bassinet is equipped with four upgraded braking wheels for easy movement. To move the bassinet, unlock the wheels by flipping the brake levers. To secure it in place, engage the brakes on all four wheels.

Image: A parent effortlessly moving the bassinet across a room, highlighting the convenience of the upgraded swivel wheels.

## 5. All-Mesh Design

The bassinet features breathable mesh on all sides to ensure optimal airflow and visibility. This design promotes a safe and comfortable sleep environment and allows parents to easily monitor their baby.

Image: The bassinet with its full mesh design, emphasizing breathability and safety for the baby.

## MAINTENANCE

---

- **Cleaning Fabric:** The fabric components can be hand washed with mild soap and water. Allow to air dry completely. Do not use bleach or harsh detergents.
- **Cleaning Frame:** Wipe the metal and plastic parts of the frame with a damp cloth. Dry thoroughly.
- **Mattress Care:** The mattress includes breathable sheets with a waterproof layer. Spot clean as needed. Ensure the mattress is completely dry before re-inserting.
- **Regular Checks:** Periodically check all screws, fasteners, and connections to ensure they are tight and secure.

## TROUBLESHOOTING

---

Problem	Possible Cause	Solution
Bassinet feels unstable or wobbly.	Loose connections or uneven surface.	Ensure all frame connections are securely fastened. Place the bassinet on a flat, level surface.
Wheels are not rolling smoothly.	Brakes engaged or debris in wheels.	Check that all wheel brakes are disengaged. Clean any debris from the wheel mechanisms.
Side panel does not lower or raise easily.	Fabric obstruction or mechanism not fully disengaged.	Ensure no fabric is caught in the mechanism. Verify that the release buttons are fully pressed.
Mattress does not lie flat.	Incorrect placement or foreign object underneath.	Remove the mattress, check for any obstructions, and re-insert ensuring it is fully seated.
