Corsair M55 Wireless

Corsair M55 Wireless Gaming Mouse User Manual

Model: M55 Wireless (CH-931F000-WW)

1. Introduction

This manual provides comprehensive instructions for the setup, operation, maintenance, and troubleshooting of your Corsair M55 Wireless Lightweight FPS Gaming Mouse. Please read this manual thoroughly before using the product to ensure optimal performance and longevity.

2. Product Overview

The Corsair M55 Wireless Gaming Mouse is designed for competitive gaming, offering a compact, symmetrical shape suitable for various grip styles. It features low-latency wireless connectivity via 2.4GHz SLIPSTREAM WIRELESS v1.5 or Bluetooth, a high-precision optical sensor up to 24,000 DPI, and six programmable buttons. The mouse is powered by a single AA battery, providing extended battery life.

Package Contents:

- CORSAIR M55 WIRELESS Gaming Mouse
- USB Wireless Transceiver

- Safety Leaflet
- Warranty Card
- AA Alkaline Battery

3. Setup

3.1. Battery Installation

1. Locate the battery compartment cover on the top rear of the mouse.
2. Gently slide the cover backward to remove it.
3. Insert the included AA alkaline battery, ensuring correct polarity (+/-).
4. Replace the battery compartment cover, sliding it forward until it clicks into place.

3.2. Connecting the Mouse

The M55 Wireless mouse offers two connectivity options: 2.4GHz SLIPSTREAM WIRELESS and Bluetooth.

3.2.1. 2.4GHz SLIPSTREAM WIRELESS Connection

1. Plug the USB Wireless Transceiver into an available USB port on your computer.
2. Turn on the mouse using the power switch located on the underside.
3. The mouse should automatically connect to the transceiver. A status indicator light on the mouse will confirm connection.

3.2.2. Bluetooth Connection

1. Turn on the mouse using the power switch located on the underside.
2. Press and hold the Bluetooth pairing button (refer to the diagram in Section 4.1 for location) until the status indicator

light begins to blink rapidly, indicating pairing mode.

3. On your computer or device, navigate to Bluetooth settings and select "Corsair M55 Wireless" from the list of available devices.
4. Follow any on-screen prompts to complete the pairing process. The status indicator light will become solid when connected.

4. Operating the Mouse

4.1. Button Functions

Image: A diagram of the Corsair M55 Wireless mouse with its six programmable buttons labeled for reference.

- **1. Left Click Button:** Primary action.
- **2. Right Click Button:** Secondary action.
- **3. Side Button 1 (Forward):** Default forward navigation.
- **4. Side Button 2 (Back):** Default back navigation.
- **5. Scroll Wheel:** Scroll up/down, middle click.
- **6. DPI Cycle Button:** Cycles through preset DPI stages.

4.2. Adjusting DPI (Sensitivity)

The DPI Cycle Button (6) allows you to switch between different sensitivity levels on the fly. Each press will cycle to the next preset DPI stage. The default DPI stages can be customized using the Corsair iCUE software.

4.3. Customizing Buttons and Settings

For advanced customization, including remapping buttons, creating macros, and fine-tuning DPI settings, download and

install the Corsair iCUE software from the official Corsair website. The software allows you to personalize your mouse experience to suit your preferences.

4.4. Ergonomics and Grip

The M55 Wireless features a compact symmetrical shape and textured side grips to accommodate various hand sizes and grip styles (palm, claw, fingertip), providing enhanced control and comfort during use.

5. Maintenance

5.1. Cleaning

To clean your mouse, use a soft, lint-free cloth slightly dampened with water. Avoid using harsh chemicals or abrasive materials, as these can damage the mouse's surface. Ensure no liquid enters the mouse's internal components.

5.2. Battery Replacement

When the mouse's battery life diminishes, replace the AA battery following the instructions in Section 3.1. Dispose of used batteries according to local regulations.

6. Troubleshooting

6.1. Mouse Not Responding

- Ensure the mouse is powered on.
- Check the battery level and replace if necessary.
- For 2.4GHz SLIPSTREAM: Ensure the USB Wireless Transceiver is securely plugged into a working USB port. Try a different USB port.
- For Bluetooth: Ensure Bluetooth is enabled on your device and the mouse is paired. Try re-pairing the mouse.
- Restart your computer.

6.2. Intermittent Connection

- Move the mouse closer to the USB Wireless Transceiver or your Bluetooth-enabled device to reduce interference.
- Ensure there are no large metal objects or other wireless devices causing interference between the mouse and its receiver.
- Update your computer's wireless drivers.

6.3. DPI Not Changing

- Ensure the DPI Cycle Button is being pressed correctly.
- If using custom DPI settings, verify they are correctly configured in the Corsair iCUE software.
- Reinstall the Corsair iCUE software if issues persist.

7. Specifications
