SETUP

1. Unpacking

Carefully remove the television and all accessories from the packaging. Retain the packaging materials for future transport or storage.

2. Stand Installation

To install the TV stand:

1. Place the TV screen-down on a soft, flat surface to prevent damage.
2. Align the stand with the designated slots on the bottom of the TV.
3. Secure the stand using the provided screws. Ensure all screws are tightened firmly.

3. Wall Mounting (Optional)

If you choose to wall mount your TV, ensure you use a VESA-compatible wall mount kit (sold separately) that supports the TV's weight and VESA pattern. Refer to the wall mount kit's instructions for proper installation. Always consult a professional for wall mounting to ensure safety.

4. Connecting Devices

Connect your external devices such as Blu-ray players, game consoles, or sound systems to the TV's input ports. The TV is equipped with HDMI and USB ports, as well as Wi-Fi and Bluetooth connectivity.

- **HDMI:** For high-definition audio and video.
- **USB:** For connecting USB storage devices.
- **Wi-Fi:** For internet connection.
- **Bluetooth:** For wireless audio devices like soundbars or headphones.

MAINTENANCE

1. Cleaning the Screen and Body

To clean the screen, gently wipe it with a soft, lint-free cloth. For stubborn marks, slightly dampen the cloth with water or a screen-cleaning solution. Avoid using harsh chemicals or abrasive materials. For the TV body, use a dry, soft cloth.

2. Software Updates

Ensure your TV's software is up to date for optimal performance and new features. The TV can be set to automatically download and install updates when connected to the internet.

3. Power Management

To conserve energy, utilize the TV's power-saving features. Unplug the TV from the power outlet during lightning storms or when it will be left unattended for extended periods.

TROUBLESHOOTING

If you encounter issues with your TV, refer to the following common solutions before contacting support.

Problem	Possible Cause / Solution
No Power	Check if the power cord is securely plugged into the TV and the electrical outlet. Test the outlet with another device.
No Picture / Black Screen	Ensure the correct input source is selected. Check all HDMI/AV cable connections. Try restarting the TV.
No Sound	Check the volume level and mute status. Ensure external audio devices are properly connected and selected as output.
Remote Control Not Responding	Replace the batteries in the remote control. Ensure there are no obstructions between the remote and the TV.
Network Connection Issues	Verify your Wi-Fi password. Restart your router and modem. Try connecting via an Ethernet cable if possible.

Factory Reset

If issues persist, a factory reset can resolve many software-related problems. Be aware that a factory reset will erase all personalized settings and installed applications. Refer to the TV's on-screen menu for the factory reset option (usually found under System or Device Preferences).
